FILTER PRESSES.

PAAUHAU PLANTATION, HAWAII, March 9, 1888. Risdon Iron and Locomotive Works. San Fran Gentlemen—We have used two of your 30-chambered Filter Presses thisseason. They are convenient, easily handled and are working entirely to our satisfaction. I can recommend no improvement on them.

Very respectfully yours.

(signed) A. Moone,

Manager Paanhau Plantation.

HEELA, Sept. 28, 1889. MR. JOHN DYER, Agent Risdon Iron Works

DEAR SIR: Please ship us one of your 30 Compartment Filter Presses, 240 square feet surface, same as the one supplied us last season, which I am pleased to say has given us entire Yours truly, GEO, B. EWART, Manager Heela Agricultural Co.

These Presses are made extra heavy for high pressures, occupies a floor space of 11x 4 ft., and presents a filtering surface of 240 square feet. A limited number in stock in Honolulu and are sold at very low prices. Risdon Iron & Loco. Works.

ed Rooms can be had by an early application at No. 4 Garden Lane

The Deepest Hole in the World. One of the most important scientific explorations into the depths of the earth ever undertaken will be carried out near Wheeling, Penn., under the joint auspices of the United States Government and the city of Wheeling.

Some months ago the Wheeling Development Company began dril-ling a well near this in search of oil or gas. It was determined to bore as far as possible. The hole has already reached the depth of 4,100 feet, within 500 feet of the deepest well in the world. In this coal have been passed, oil and gas both struck, but not in paying quantities, and gold quartz, iron and many other minerals found. The hole is eight inches in diameter and the largest in diameter of any deep well in the world.

To-day Professor White, State Geologist, arrived from Washington, where he had succeeded in getting the Government Geological Survey officers interested in the exploration, and the result is that the hole will be drilled to the depth of one mile. Then the Government will take up the work under the direction of two expert officers of the Geological Survey and drill into the earth as far as human skill

can penetrate. The idea is to take the temperature and magnetic conditions as far as possible, and by means of an instrument constructed for the purpose, a complete record of the prog-ress and all discoveries made will be kept and will be placed in the Geological Survey exhibit at the World's Fair .- [Philadelphia Press.

Nothing Like Advertising. A Frenchman, whose wife deserted him, amused his neighbors by telling how he got her back without trouble. "Did I run after her and beg her to come back?" faction. he dramatically asked. "No, I did not run after her, I zhust published in ze papaire zat I have drawn fifty thousand francs in ze lottery, and she was back much quicker zan in no time."

New Advertisements.
