A WEEK'S NEWS ON THE ISLAND OF HAWAII

Scheme for Steamer Line to Encircle the Island. Forester Hall's Investigations--Escape of the Abbie Turner's Carpenter.

HILO, Sept. 25.—Next to the completion of the Kohala-Hilo railway line what would affect Hilo's future more than anything else," said L. A. Thurston the other day, "is a local steamer that would make weekly trips around this island. It would instantly bring the commerce of the outer districts in closer touch with Hilo, the natural distributing port of Hawaii. Either one of the island transportation companies could do this without interfering with their service. They have the steamers and could put one of them in this service without additional expense.

"Hilo wants a steamer and it must run around the island often enough to bring the trade here. Just now you have a monthly service but it is not sufficient for the demands of the people who, I understand, are willing to buy goods here provided they may have assurance of transportation. Such a steamer service is of vital importance to every man who has goods to sell and in my opinion should both steamship companies decline to establish the line mentioned in Hilo should take it up. It will be the making of the place or at least would be a strong factor toward that end.

"I have no doubt the monthly service has been of some benefit to Hilo but I cannot believe, in fact I am sure, that it does not fill the bill. You must have at least a weekly service and it seems to me that it would be an easy matter for either steamship company to give it to you."—Herald.

NARROW ESCAPE.

The luckiest man on the Amy Turner is the carpenter. On the last voyage of that vessel to Hilo, and when in midocean, the carpenter was given a task to perform which took him over the rail. The mate and crew were forward as the carpenter threw one foot over the side and at the same moment the vessel lurched and the carpenter went into the sea.

Captain Warland's son saw the accident and called for help but as the vessel was going with the wind at a seven knot gale it was some time before the course of the vessel could be changed and she had described almost a complete circle before she could be stopped and a boat lowered. Only twice was the man seen above water after he fell overboard and then he was directly astern. The small boat made for that position and found the man clinging to the log line. He was unconscious when taken into the boat but the second mate rolled him and got some of the water out of him. When the crew reached the side of the bark they tied a heaving line to the man and hauled him aboard afterwards putting him over a barrel and rolling him for fifteen minutes when he regained consciousness. Though he has been going to sea for a number of years he is unable to swim. When he seized the log line it slipped through his hands until he managed to get a turn around his wrist and then clenching his hand around it. When he was taken aboard considerable difficulty was experienced in getting his hands open.—Herald.

THE VISIT OF FORESTER HALL. Government Forester Hall has visited Hawaii and made an investigation of the forests.

Mr. Hall arrived at Kawaihae last Wednesday week and in company with Alfred Carter, a member of the Board of Forestry, went to Waimea and examined the forest on the Waimea side of Kohala mountains. Thursday and Friday he spent in company with F. W. Carter, E. E. Olding and Senator Wood, in the Kohala mountains on the Kohala side. On Saturday and Sunday, Mr. Hall, in company with the Carters and L. A. Thurston, examined the forests on the Waimea slope of Mauna Kea and spent the night at Kalaleha, at the Humuila Sheep Station ranch and accompanied on Sunday by Sam Parker, Jr. and Robert Horner examined the forests in that vicinity.

On Monday the forests between Waimea, Kukuhaele, Honokaa and Paauhau, were examined by the party in company with Manager Forbes of Kukuhaele and Gibb of Paauhau. On Tuesday the same party, in company with Managers Lidgate and Robert Horner, visited the Hamakua forests back of Hamakua Mill and Kukui and on Wednesday, Messrs. Hall, Carter and Thurston went to Hakalau and with John Ross, brother of the manager, visited the forest back of Hakalau. On Thursday they came

Co.'s warehouse, corner of Waialua and Kalepolepo streets. This is about central from all points of the precinct.

A small party was entertained at dinner at the home of A. B. Loebenstein in Puuoe last Wednesday evening in honor of Mr. and Mrs. L. M. Whitehouse who leave by the Kinau today for Honolulu.

Reports from the Volcano House that the crater is still in a state of quiescent activity. The volumes of steam are as great as ever. Mr. Bidgood reports the weather at Kilauea as unusually bracing and fine.

Manager Bidgood has made a success of growing celery in the Volcano House gardens. The flavor is fine and it is well blanched.

Only eleven men are engaged on the Hilo dock. The contractor is under forfeit to have completed the structure two months ago.

An effort is being made by Japanese Buddhists in Hilo to raise funds for the purpose of building a school house on Volcano street.

Representative Geer, of the Public Works Department has refused to accept the offer dam built at Waialua for the new bridge. A compromise may be made. The dam involves an expenditure of \$1000.

A Chinese on his way to Hilo from Paukaa on Tuesday reports having seen a Japanese woman jump from the bridge into the stream at Honohi. He called for help and a native jumped into the stream and succeeded in bringing the woman ashore.

The Agricultural Society of Hilo holds its regular quarterly meeting on Saturday afternoon, October 3rd, at the offices of President Furneaux. Special Agent Jared Smith of the U. S. Experiment Station has written that he will be present. An interesting and instructive meeting is anticipated.

SOFT, GLOSSY HAIR.

It Can Only Be Had Where There Is No Dandruff.

Any man or woman who wants soft, glossy hair must be free of dandruff, which causes falling hair. Since it has become known that dandruff is a germ disease, the old hair preparations that were mostly scalp irritants, have been abandoned, and the public, barbers and doctors included, have taken to using Newbro's Herpicide, the only hair preparation that kills the dandruff germ. E. Dodd, Dickinson, N. D., says: "Herpicide not only cleanses the scalp from dandruff and prevents the hair falling out, but promotes a new growth. Herpicide keeps my hair very glossy." Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Hollister Drug Co., Special Agents.

MAUI WANTS A GUAVA CANNERY

Hawaii is giving pointers to Maui in the direction of profitable minor industries, and is demonstrating that there is money in bananas, pineapples and guava jelly. It is the exploitation of such industries which will tend more than anything else to round out and complete industrial conditions here. On Maui there are immense forests of jelly guavas to be had for the picking, and an enterprising man with a family of boys and girls could with a small amount of capital establish a guava jelly cannery in the wet belt of east Maui which would make his fortune. East Maui is also the natural home of bananas, and with a road to Kahului as a shipping point, an immense tonnage of bananas could be shipped away every year. The experiment of Prof. D. D. Baldwin at Haku has demonstrated that a high grade of pineapples can be grown on Maui, and there is a demand at the coast for canned Hawaiian pineapples. These industries should be fostered.—Maui News.

NEWS NOTES.

The property owners and tax payers of Hilo are forwarding a big petition to the Department of Public Works asking that the new steel bridge over Wailuku river be erected at the proper level. The petition is signed by nearly every business man in town.

Treasurer Kepoikai has approved the incorporation papers of the A Voz Publica Publishing Co., Ltd., recently organized here with a capital stock limit of \$5,000. The Portuguese weekly paper, A Voz Publica, will hereafter become the property of this company. G. F. Alfonso will continue as editor and manager of the paper.

Electoral Registrar Buckland this week notified Secretary Alfonso of the Third Precinct Republican Club (Waialeale) that the Governor has approved the change of the polling place from the Waialeale boat wharf to Davies &

FREE TO MEN A Book That Brings Happiness

I know that no man remains a weakling because he wants to; I am sure that you want to overcome every indication of early decay that has shown itself on you. I don't think the man lives who would not like to feel big and strong as a Sandow, and I know that if you have a reasonable foundation to build upon I can make you a bigger man than you ever hoped to be. I want you to know that, you can't believe it, and I want you to have my book in which I describe how I learned that manly strength was only electricity, and how I learned to restore it; also I want to tell you the names of some men who will tell you that when they came to me they were physical wrecks and are now among the finest specimens of physical manhood.

A HAPPY MAN

Dear Sir: Having used your famous electric belt for thirty days, I have received the greatest benefit that a man could gain—that is, health and strength. The tired, despondent feeling has gone, I feel the beginning of a new life, and am ever your debtor.

W. E. CLARK.

P. O. box 482, Tucson, Arizona. I want you to read this book and learn the truth about my arguments. If you are not as vigorous as you would like to be, if you have rheumatic pains, weak kidneys, loss of power, day or night losses, prostatic troubles, nervous spells, varicose or any ailment of that kind that troubles you, it would assure you future happiness if you would link into this method of mine. Don't delay it; your best days are slipping by. If you want this book, I send it closely sealed free if you send this ad. Call for free consultation.

DR. M. G. McLAUGHLIN, 906 Market Street, San Francisco.

POLITICS ON MAUI

Home Rulers Have Nominated a Ticket.

"Oily Bill" White Heads the List as Sheriff.

Republicans Will Begin Their Campaign Immediately—Home Rulers Plan a Luau.

MAUI, Sept. 26.—The Home Rulers of Maui did not meet in convention on the 23d as adjourned but began the new session on the 24th in the Wailuku Skating Rink at 10 a. m. Most of the day was taken up in caucus. In the evening all the nominations were made except that of assessor. The convention met again yesterday and adjourned sine die after an evening session.

The Home Rule ticket is as follows: For sheriff, Wm. White of Lahaina; for clerk, D. H. Kahaulelio of Molokai; for auditor, L. R. Crook of Wailuku; for treasurer, Pia Cockett of Waikapu; for assessor, (Kalei) D. L. Kahaulelio of Lahaina; for attorney, John Richardson of Lahaina; for surveyor, J. K. Kahaulelio of Wailuku; for supervisors, T. B. Lyons and Louis Kookoo of Wailuku, J. K. Hihio of Lahaina, Philip Kauhimakole of Hana, and W. H. Cornwell, Jr., of (Waiahi) Makawao. Geo. Maxwell of Wailuku received the nomination for clerk but afterward withdrew in favor of his opponent, D. H. Kahaulelio.

David Kahaulelio also ran for supervisor apportioned to Lahaina and Molokai, but was beaten by Rev. J. K. Hihio of Kaanapali. L. M. Vettelesep was Crook's opponent for auditor and Kalei Kahaulelio's rival for assessor.

Some Maui politicians prophesy that Pia Cockett for treasurer, J. K. Kahaulelio for surveyor, and T. B. Lyons for supervisor will be hard men to beat by their Republican opponents. Messrs. Kookoo and Hihio also seem quite popular judging by the vote received by them at the last election. The Home Rulers will give a grand demonstration in Wailuku in November, the night before the election. There will be a torch-light procession headed by the Wailuku band, addresses in the skating rink, etc.

The central (county) committee of the Home Rule party is holding a meeting this morning at the skating rink to decide upon a program for stumping the county. It is generally understood that a tour of East Maui by Home Rule orators will be the first event on the campaign program.

The Republican nominees for supervisors, Messrs. W. F. Pogue, J. K. Iosepa, A. N. Hayselden and W. H. King, will go to Lahaina on Monday to open the campaign there and from Lahaina take the first steamer for Molokai. S. E. Kalama is already in Lahaina and will accompany the candidates and assist them in stumping the second precinct.

STRAYS.

Maui doctors have been busy for the last week or two vaccinating school children.

Today a very handsome pearl brooch was presented to Miss Mary Vincent of Paia by twenty-eight Makawao ladies. This gift was in recognition of Miss Vincent's unfailing courtesy while acting as central of the Paia telephone office for several years past.

The steamer Nevada arrived in Kahului on the 24th, discharged 800 tons of merchandise and returned to Honolulu last evening, the 25th. The only vessel now in the harbor is the Golden Shore, still discharging her cargo of lumber.

Friday, the 25th, a hunting party consisting of Mr. and Mrs. James Scott of Kihel, Dr. Wall of Honolulu, Dr. G. S. Aiken of Paia and others departed for a week's outing at Kalae, Molokai. Freear gave entertainments to full houses at Wailuku, Tuesday and Wednesday evenings and at Hamakua-poko, Friday evening.

Miss Agnes Alexander, who has been visiting Mrs. D. B. Murdock of Paia for several weeks past, returned to her Honolulu home by the Nevada of last evening.

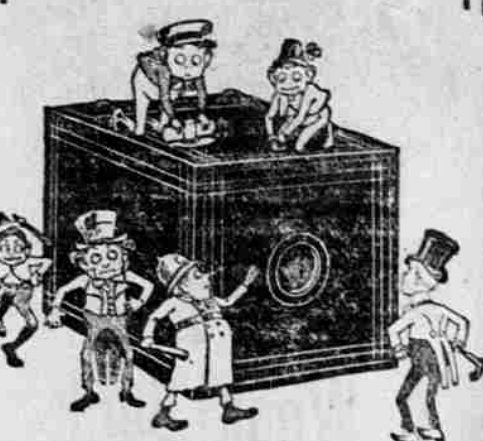

Inspector C. E. King, who has been inspecting Lahaina schools during the week, will probably go to Molokai by next steamer. George Kunukau of Uluapalua, second district magistrate of Wailuku, heard two perjury cases in Makawao this week, Judge Copp being disqualified.

Baseball—At Kuuu, on the 20th, Kahului 10, Paia (new club) 7. At Makawao, same day, Haleakalas of Makawao 24, Violets of Pauwela 7.

At polo, the afternoon of the 19th, the "Reds" beat the "Yellows" at Paia by one goal.

Weather: Dry despite of very light showers.
