

SHIVELY'S TALK COVERS RANGE OF BIG ISSUES

Senatorial Aspirant Appears
Before Jefferson
Club.

FT. WAYNE, Ind., April 7.—Centralization of Government power, women's rights, in the party, the soldier bonus and local self-government were discussed by Bernard B. Shively, candidate for the Democratic nomination for United States Senator, in a speech before the Jefferson Club, of this city, last night.

Concentrated power in a centralized government is the Hamiltonian theory of Government, the speaker said and has been carried to an extreme. The Republican party was blamed by him for bringing about the destruction of local self-government.

Equal rights within the party for women were urged by the speaker. "In reading the nineteenth amendment, granting woman the right of suffrage, I have not been able to find a word which would lead to the thought that this suffrage had a string tied to it, when it is applied to party management. We should judge the ambitious ones, who

seek exalted places in the party organization, solely on a basis of merit. And the man who is so prejudiced and narrow in this era of twentieth century enlightenment, as not to be able to do this, is too little to judge, or speak even, on the qualifications of those of his own sex." In speaking what he termed an "obligation" to those who served their country during the war, Mr. Shively said: "I favor a bonus, if a bonus expresses the wish of World War veterans. However, I want it distinctly understood that I am vastly more interested in trying to restore prosperity to our stricken land than every soldier may have a job. Had the Republican party looked after this phase of the proposition instead of seeking ways and means by which to gratify the greed of Wall street, perhaps there would not have been this general cry for a bonus during this period of depression."

UNDERGROUND WIRE ADVOCATE

Correspondent Makes Suggestion to City Council.

To the Editor of the Times: Permit me, gentlemen of the council, to call your attention to the telephone, telegraph and electric wires and also to the heavy cable wires carrying power to the downtown districts. Now that the telephone and electric light companies have had their rates increased, why not put their wires underground? No wonder property owners find fault

for the improving of streets and alleys before the wires are placed underground. They leave the streets and alleys in bad condition. Allow me to call your attention to the number of wires in front of the Public Library on St. Clair street, and on North street, and many other streets in the downtown district. I have lived in Indianapolis all my life. I am a booster for the city and not a kicker. Is it right for the city to ask the property owners to improve the streets and alleys before the wires are put underground in the downtown district? R. F. EMMETT.
