### The Spotlight on State Affairs

Doubtless the keynote speech delivered to the Democratic State convention today by Frederick Van Nuys will come as a distinct shock to those members of both parties who have fondly imagined that the end of the Goodrich regime saw ushered in a government to which politics and its kindred evil, special favors to special friends, were strangers, and mayhap it even will come as a surprising revelation to those who have not been in total sympathy with the administration.

It is a stinging indictment of our State government and one that citizens who put civic welfare above partisanship could well wish were not

Mr. Van Nuys makes a telling point of the charge that banks in which the Governor, Lawrence Lyons, Republican State chairman and former stuff on him. the Governor, Lawrence Lyons, Republican State charman and foliate campaign manager for the Governor, and Ora J. Davies, State treasurer, we tried to get in some comedy and some have benefited by increased deposits of State funds since the present advantage of the property of the power. ministration came into power.

ministration came into power.

He makes another point of the fact that Liberty bonds purchased by the makes another point of the fact that Liberty bonds purchased by the state were disposed of before their full value was realized with a tresultant loss of \$40,000, and charges that the State highway department resultant loss of \$40,000, and charges that the State highway department resultant loss of \$40,000, and charges that the State highway department resultant loss of \$40,000, and charges that the State highway department resultant loss of \$40,000, and charges that the State highway department resultant loss of \$40,000, and charges that the State highway department resultant loss of \$40,000, and charges that the State highway department resultant loss of \$40,000 and charges that the State highway department resultant loss of \$40,000 and charges that the State highway department resultant loss of \$40,000 and charges that the State highway department resultant loss of \$40,000 and charges that the State highway department resultant loss of \$40,000 and charges that the State highway department resultant loss of \$40,000 and charges that the State highway department resultant loss of \$40,000 and charges that the State highway department resultant loss of \$40,000 and charges that the State highway department resultant loss of \$40,000 and charges that the State highway department resultant loss of \$40,000 and charges that the State highway department resultant loss of \$40,000 and charges that the State highway department resultant loss of \$40,000 and charges that the State highway department resultant loss of \$40,000 and charges that the State highway department resultant loss of \$40,000 and charges that the State highway department resultant loss of \$40,000 and charges highway department loss resultant loss of \$40,000, and charges that the State highway depoted was used in a political way to holst its former director, Mr. Lyons, into years ago. I wrote the play in the hope that the patrons of pleture houses were the Republican State chairmanship.

The are some of the items in the bill of particulars that should research to the patrons of pleture houses were ready for a change from the highly seasoned photo-dramas which they

ceive the earnest attention of every voter, regardless of his party affilia- seemed to like two or three years ago.

That surplus war material given by the Government to the State highway commission has found its way late the hands of private dealers.

That the State highway department has spent \$5,010,823.17 for salaries and expenses and \$3,233,244.99 for construction. In other words, as Mr. Van Nuys said, "the National Government contributed \$4,466,628.73 and automobile license fees added \$2,365,545.46. These items cover the amount expended for construction and all that you taxpayers centributed was the \$5,000,000 for salaries and expenses."

bile license fees added \$2,558,658. These items trens to be the \$5,000,000 for construction and all that you tax payers contributed was the \$5,000,000 for salaries and expenses."

That the custody of the Statehouse in 1916—under a Democratic administration—cost \$53,761.40 and in 1921 cost \$81,589.52. The speaker showed that \$1,200 of this latter sum was spent to remove paint from the natural grained oak doors of the edifice.

That six negroes were paid \$6 a day each to wash the walls of the State-that six negroes were paid \$6 a day each to wash the walls of the State-that six negroes were paid \$6 a day each to wash the walls of the State-that six negroes were paid \$6 a day each to wash the walls of the State-that six negroes were paid \$6 a day each to wash the walls of the State-that six negroes were paid \$6 a day each to wash the walls of the State-that six negroes were paid \$6 a day each to wash the walls of the State-that six negroes were paid \$6 a day each to wash the walls of the State-that six negroes were paid \$6 a day each to wash the walls of the State-that six negroes were paid \$6 a day each to wash the walls of the State-that six negroes were paid \$6 a day each to wash the walls of the State-that six negroes were paid \$6 a day each to wash the walls of the State-that six negroes were paid \$6 a day each to wash the walls of the State-that six negroes were paid \$6 a day each to wash the walls of the State-that six negroes were paid \$6 a day each to wash the walls of the State-that six negroes were paid \$6 a day each to wash the walls of the State-that six negroes were paid \$6 a day each to wash the walls of the State-that six negroes were paid \$6 a day each to wash the wall six negroes were six negroes

That six pegroes were party of the position of the same house and to date \$1,300 has been expended on this work "and at the same time that these colored workmen were being paid \$6 a day for that work Mayor Shank produced the passage of an ordinance appropriating the sum of \$20,000 which was paid out to Jobiess soldiers at the rate of \$2 a day." That \$10,320,15 of State money was spent in outfitting the Governor's mansion "including a grand plane, Oriental rugs and a gravy boat asgre-

gating \$5,986,22."
That in 1916—under Governor Ralston—total State receipts were \$14,196,-393,57 and disbursements were \$12,096,697.13, while in 4921 receipts were \$31,400,768,97 and disbursements were \$28,420,278.06. Thus increasing the cost of running the State 135 per cent in five years.
That in 1916 disbursements from the general fund totalled \$2,241,169.53 and in 1921 they amounted to \$8,615,641,36—Almost four three the Democratic figure.

and in 1921 they amounted to see Association (1911) they amounted to the figure. That for "first seven months of the present fiscal year receipts to the general fund have reached \$4,638,720,12. Even this sum was not sufficient to meet the McCraw pay red and various loans have been negotiated in the total sum of \$1,330,000, making the total receipts in the general fund for the first seven months of the present fiscal year \$5,388,76,12. The total disbursements from the reneral fund for that same period of time were \$5,495,741.87, or \$106,055.75 greater than the receipts."

That State employes in the last five years have increased 23.1-3 per cent and that 200 new jobs have been created.

And it must be that Mr. Van Nuys echoes what is in the minds of many when he concludes with this cry: "Men and women of Indiana, there is absolutely no excuse for this continued and flagrant mismanagement of the affairs of state."

### Official Buck-Passing

W. C. T. U. believe to be "wholly unfitted" for the post of prohibition enclose touch with the affair, sent protests to those "persons instrumental AND THEN con-McCray, Lawrence Lyons, Republican State chairman; Bert C. Morgan, AND LEANED on the Federal prohibition enforcement officer for Indiana, and Congressman AND STARTED to fell me

Then ensued the neatest game of "buck-passing" that has come to light in recent years. Mr. Morgan said Mr. Drake was "recommended to SOME WHERE BACK me by Governor McCray, Lawrence Lyons, Miss Adah Bush and Congress. AND HIS great big man Will R. Wood "

The Governor washed his hands of the affair by advising the women AND ALL his "this is a matter over which I have no jurisdiction, the appointment com. AND HOW h ing from Mr. Bert Morgan."

Mr. Wood added to the confusion by writing, "I had nothing whatever AND HE'S that he had sought the appointment, adding, however, "that Mr. Morgan AND HIS hatr's so whi did call me up and asked me about Drake."

Mr. Morgan now insists that Mr. Lyons several times recommended THAT I stood right there. Mr. Drake and that he was called to the Governor's office and informed by Miss Bush, the Governor's secretary, that she "knew Mr. Drake's family, AND HADN'T the heart. that all of them were fine people, and she believed he was all right." To MOVE away.

If Mr. Drake is "making good" in his position, as his friends assert he is, it would seem that those responsible for his appointment would be glad to take credit for his place among the prohibition forces. Of course, IN MY sprinkling task. if he was appointed through political influence-and it should be remem- AND THE nezzle pointed. bered that all of the parties concerned except Mr. Morgan come from the WHEREVER IT would. Tenth District and hold political positions—then there is method in this

### A Scientific or Partisan Tariff?

It is refreshing to note in the midst of the wild scramble of a Republican Congress to enact a wholly partisan tariff measure that men of AND EMPTIED the hor the caliber of William G. McAdoo and Judge Elbert Gary believe that AND HUNG It up. tariff should be imposed on a scientific basis, irrespective of whether the law represents the traditional policy of Republican high protection or the Democratic theory of revenue only.

The Fair Tariff League of Racine, Wis., says that the tariff should I'D WASHED out a bed be a purely business proposition and insists that the "Republican and Democratic parties have come quite near each other in their tariff declarations. The last definitive Republican statement was in the platform THAT PD just put in of 1908, which said that the measure of protection should be the difference BUT ANYWAY. in cost of production here and abroad. The Democrats say the tariff should be for revenue, with incidental protection. These viewpoints are not so different that they need prevent the framing of a business tariff TO MY white baired friend. on business lines."

"But," continues this organization which has given the subject much study, "the Fordney-McCumber bill imposes duties far higher than have ever 'en dreamed of before. It pays no attention to the different in cost of p oduction. It is a bonus bill for manufacturers."

Then the league sets forth a number of items wherein the inequity of the pending bill is made apparent. For instance, it is shown that:

"American women are paid four cents for knitting a pair of cheap wool stockings, but American women are taxed eighteen cents on a pair of these stockings. This is four and one-third times the labor-cost. The woman operative gets a wage of four cents. Against labor's four cents, the woolgrower gets five cents protection and the factory thirteen cents.

"The Aluminum trust sells aluminum to Americans at twenty-one cents per pound, and exports it to England where the price is lifteen cents. This trust is a monopoly. It started with a paid-in capital of about \$200,000, which has grown in capital and dividends to some \$70,000,000. Its costs are substantially as low as anywhere in the world, but the Fordney-McCumber bill would make its duty from five to nine cents per pound on the metal, and, seventy per cent on kitchen and table ware.

"A common kitchen knife is taxed from 6.85 cents to twenty cents and in addition to this 55 per cent of its foreign value.

"A common kitchen knife is taxed from 0.85 cents to twenty cents and in addition to this 55 per cent of its foreign value.

"The cheapest machine-made lace, such as poor women use, made here as cheaply as anywhere in the world, is taxed 90 per cent. With the whole-saler's and retailer's charges, this will be 180 per cent upon the lace the working woman and the farmer's will wears.

"The proposed duty on wool will add \$4.15 to the price of a cheap dress, part wool, part shoddy. In anticipation of it, the American Woolen Company has already increased its price ten to ferty-five cents per yard.

"Mutton is taxed two and one-half cents per pound, lamb five cents; chickens, dressed or undressed, six cents per pound. Other food taxes are like these. Must some of us stop eating?"

All of which goes to show that the Fordney-McCumber bill is far removed from a scientific basis, but is an ultra-high protection measure.

## George Ade Comes to Defense of Movies and the Directors

AND HIS volce so low.

AND HE finished his tale AND I stopped the water.

I MADE discovery.

George Ade, author of "Our Leading Citizen," which has been picturized by Paramount with Thomas Meighan in the leading role, has come to the defense of the movies.

One of the movies.

One of the movies of the movies of the movies of the movies of the movies. Most authors cry literature of the screen, this is it. Not that the motion picture companies change their stories and ruin them, but American life. Green has directed it

Ade says they beautifully, with a fine sense of comedy didn't change his and emotional values. Melghan, himself, "stuff" on him.
