FEDERAL TROOPS IN IDAHO.

[New York Mail and Express] Gov. Steunenberg, of Idaho, has made a formal statement concerning the presence of federal troops in Shoshone county, in that state, which is eminently creditable to his judgment and courage. It will be remembered that a serious riot, instigated by striking miners, occurred in Shoshone county last April, which resulted in the loss of two lives and property valued at upward of \$250,000.

The arrival of these troops in Idaho was instantly met with a howl of protest from certain democrats, populists and other demagogues, who denounced the proceeding as a military oppression of organized labor by a republican administration. This denouncing clamor has continued with increasing violence in spite of the fact that the troops were sent in response to an urgent request from a democratic governor, but now the latter comes forward with a statement which exposes the whole noisy crowd of standerers in their true colors.
