**MOTOR CLUB TO HELP  
GRAVEL ALBION ROAD**

LOCAL ROAD BOOSTERS OFFER  
\$700 IF FARMERS WILL  
START PROJECT.

PROPOSE GRAVELING SEVEN  
MILES BY WAY OF MARIETTA

Delegation From Albion and Marietta  
Tells Motor Club Officers Gravel Is  
Profitable—Would Start at Corpora-  
tion Line and Go Thru Linn, Marietta  
and Iowa Townships.

That a bunch of live road boosters  
can stir up plenty of action when they  
set together was plainly demonstrated at  
the Marshalltown Club Thursday  
evening when representatives of the  
citizens of Albion and the Marietta  
neighborhood, together with the officers  
of the Marshall County Motor Club,  
made plans to gravel the road between  
this city and Albion by way of Marietta.  
The plan will go thru, say the  
men interested.

So enthusiastic did the officers of  
the motor club become over the propo-  
sition that they made the Albion and  
Marietta men an offer of \$700 towards  
the cost of graveling, provided Albion  
and Marietta agree to the proposition  
and give the proper assistance.

**Favor Graveling at Distance.**  
When Chairman A. A. Moore called  
the meeting to order there were pres-  
ent, besides about ten officers of the  
Motor club, William Prensall, C. A.  
Robinson, Willard Hauser, John Uley,  
A. L. Burnett and Dr. W. B. Marney, of  
Albion, and John A. Timmons and E. M.  
Hall, of Marietta. The delegation from  
these two communities gave out the  
information that there were approxi-  
mately four miles of road in Linn town-  
ship, and one and one-half miles each  
in Iowa and Marietta townships, west  
town. Some gravel has been thrown  
upon the road in Iowa township, but  
the sentiment among the farmers living  
along this road according to the  
representation at the club, is in favor  
of graveling the entire distance, which  
is between seven and eight miles. They  
estimate that it will take four loads  
of gravel to the road to make a road  
eight feet wide, and with a surface of  
from four to six inches. They said  
the gravel was handy and of good qual-  
ity, and could easily be obtained.

**Will Interim Other.**  
Following the informal meeting the  
Motor club adjourned to a private  
meeting, and voted the \$700 to assist  
President George Darling then advised  
the delegation of this offer. The Al-  
bion and Marietta men who were pres-  
ent at the meeting declared that they  
would start at once to get action on  
their neighbors in order that the Motor  
club's offer might be accepted. The  
members of the delegation also stated  
that they hoped the project would go  
thru as it stood, but that if they  
could get any help from the supervisors  
they were positive it could be put thru  
to completion.

**URGES FIRE PROTECTION.**

Lurton H. Stubbs, of Cedar Rapids,  
Tells of Needless Fires.

Presenting figures showing the enormous losses sustained  
every year by fires that result from  
carelessness, and urging better fire pro-  
tection for merchants in order to lower  
the insurance rates, Lurton H. Stubbs,  
of Cedar Rapids, spoke to a small au-  
dience at the Marshalltown Club Thursday  
evening. Mr. Stubbs' subject was "Our  
Burning Dollars," and he was brought  
here by the Marshalltown Underwrit-  
ers' Club. He is an authority on fire  
insurance and fire protection.

Mr. Stubbs is a rapid talker, and has  
figures and statistics at his tongue's  
end. He does not talk for the insur-  
ance companies, but keeps continually  
asking for better protection, in order  
that the rates may be lowered. In his  
talk he gave out the startling infor-  
mation that the business man of today  
is burning up property at the rate of  
\$150 a minute. Every week, right here  
in the United States, said Mr. Stubbs,  
fire destroys two hospitals, two col-  
leges, ten churches, twelve schools and  
twenty hotels. Nine people lose  
their lives every day as the result of  
fires. Seventy-five per cent of all  
fires, according to official statistics, are  
due to absolute carelessness.

As protection against these terrible  
losses the speaker urged laws fixing a  
personal responsibility, making individ-  
uals personally responsible with an ad-  
ministration that will carry out and  
live to the letter, his message. He spoke  
strongly in favor of more inspection  
service in all cities, advising the com-  
mercial club to appoint a live commit-  
tee on insurance fire protection. "Keep  
something inside your buildings to put  
out the fires," said the speaker. He ad-  
vised every citizen to have fire extin-  
guishers within easy reach.

Stereotyped views of many fires re-  
sulting from carelessness, and illus-  
trating the hazards to firemen and em-  
ployees of the burning buildings, were  
shown. In contrast interesting mov-  
ing pictures were shown of the Under-  
writers' fire laboratories in Chicago,  
where men are constantly at work on  
methods of fire protection. These labo-  
ratories contain the most modern ex-  
amples of fire prevention methods any-  
where, Mr. Stubbs said. Apparatus  
was shown which detects fire before it  
is visible to the eye, tests are con-  
ducted on matches, sweeping com-  
pounds and furniture polish, and every  
effort made to reduce the fire hazards  
as low as possible.

Members of the underwriters' club  
had supper at the Pilgrim before the  
lecture.

**Will Appoint Late Saturday.**

It is quite probable that late Satur-  
day afternoon the board of supervi-  
sors will meet in adjourned session to  
appoint a successor to County Auditor  
A. W. Johnson for his unexpired term.  
The law, it is said, provides for ten  
days' notice of such a meeting, but  
it will probably be agreed by the su-  
pervisors to waive such time of formal  
notice and to make the appointment  
soon so that the business of the office  
may not be interrupted any longer  
than is possible.

**Loss Finger in Accident.**  
Edwin Q. Waltermire, 383 South  
Eleventh avenue, lost the index finger  
on his right hand and was badly  
bruised Wednesday when he was  
dragged by a horse for a distance of  
several hundred feet. Waltermire is  
groundkeeper at the ball park and was  
out feeding a horse. The animal be-  
came frightened and started to run,  
throwing Waltermire down and drag-  
ging him along. He had the halter  
rope wound around his finger, and the  
force with which he was dragged along  
tore the finger so badly that it had to  
be amputated. He was also badly  
bruised, but was resting easier today.

**Well Known Remedy  
Relieves Chronic Case**

**Important to Dispose of  
Waste from the Stomach  
With Regularity**

People frequently attribute to failure  
of the digestive organs conditions that  
are primarily due to inactive bowels,  
and apply remedies that from their  
very nature are more apt to aggravate  
than to relieve the disorder.

When the bowels act regularly the  
stomach is in better shape to perform  
its allotted tasks and can usually be  
depended upon. To keep the bowels in  
condition there is no more effective  
remedy than the combination of simple  
laxative herbs known as Dr. Caldwell's  
Syrup Pepsin which is sold in drug  
stores for fifty cents a bottle.

Dr. Caldwell has prescribed this rem-  
edy in his practice for over a quarter  
of a century and it is today the stand-  
ard household remedy in thousands of  
homes. Mr. Thos. DeLoach, of the  
Department of the Interior, Office of  
Indian Affairs, at Washington, wrote  
Dr. Caldwell recently that "Dr. Cald-  
well's Syrup Pepsin is the best laxative  
I have any knowledge of and the clean-  
ing up guaranteed by its use relieves  
every organ."

A bottle of Dr. Caldwell's Syrup  
Pepsin should be on hand in every  
home for use when needed. A trial  
bottle, free of charge, can be obtained  
by writing to Dr. W. B. Caldwell, 454  
Washington St., Monticello, Ill.
