INVALIDS

Are apprised that Dr. Kinkelin confines his practice to a particular branch of medicine, which engage his undivided attention. He cautions the unfortunate against the abuse of Mercury; thousands are annually mercurialized out of life, Recent affections are promptly extinguished.

TWENTY Y JARS OF EXPERIENCE

In the treatment of a class of diseases hitherto neg-tected and imperfectly understood, has enabled Dr. Kinkelin, (Author of a work on self preservation.) to prove that nine-tenths of the cances of nervous debil-ity, local and constitutional weakness, mental and physical suffering, are traceable to certain habits, to mains the work server, we deathly and false. to ming the most secret yet deadly, and fatar prings of domestic misery and premature mortality.

TAKE PARTICULAR NOTICE.

There is an evil habit sometimes indusged in by boys, in a litude, often growing up with them to manhood, and which if not reformed in due time, not only begets serious obstacles to matrimonial happiness, but gives rise to a series of protract d insidious and devastating affections. Few of those who give way to this penicious are aware of the consequences until they find the nervous system shatterred, fee strange and unaccountable feelings and vague fears in the mind.

Apply then while it is ver ime, in order to have you unstrong and relexed or-ganization rebraced, row field and strengthened. REMEMBER.

He who places himself under Dr. Kink lin's treatment, may religiously confide in his honor as a gentleman, and rely upon the assurance, that the secrets of Dr. K's patients will never be disclosed. You ig man—let no false modesty deter you from miking your core known to one who from education and rep etablity can certainly be friend you. Too many think they will coneal the secret in their own hearts and core themselves. Alas! how fire is this a fatal delusion, and how many a premising young man, who might have been an ornament to seciety has faded from the carth.
