THE Y. M. E. A.

The Young Editors Have a Delightful Meeting at Bowling Green.

Not even those members who were most sanguine of success, when the young men of the Kentucky Press Association formed at Mammoth Cave in June last a younger organization known as the Young Men's Editorial Association, could have expected a better or more largely attended meeting than was held at Bowling Green Friday and Saturday of last week. It was their first effort and the fact that some 30 of the youngsters, including a number of the most brilliant pen pushers of the trip, were present and worked hard for the furtherance of the cause, is some evidence that the organization is, and will be, a successful one, notwithstanding some of the older heads of the K. P. A. to the contrary. The young men now have their association under headway, and while nothing exceedingly remarkable may ever be achieved, nothing but good can come from it, and it does not seem to be asking too great a favor of some of those members of the old association who have opposed it from the start and have continued to do so on and on, to give the young men a chance, even should it fail to meet with their approbation.

Promptly at 3 o'clock in Potter's Opera House at Bowling Green, which by way is the finest in the State outside of Louisville, President R. E. Morningstar called the meeting to order. The address of welcome which was to be made by Mayor Smith was delivered by Mr. Thomas W. Thomas, a young lawyer of that city, in a most pleasing style. The keys of the city were virtually turned over to the "kids" and Mr. Thomas in the name of the city at large gave a welcome that made each member at perfect liberty to do what he wished or go where he would while in that domain. Harry McCarty expressed the thanks of the boys in his characteristically clever way after which business was gone in to. An hour and a half later an adjournment till next morning at 10 was made, when carriages awaited the members at the opera house door to visit the public schools, the splendid electric plant, Potter's college, a \$10,000 school building nearing completion, the reservoir, where an excellent view of the city and surrounding country can be had, and other places that that thriving young city affords.

Next came the banquet, which was grand in the superlative and at which President Morningstar made a pleasing speech expressing his delight at having the "promising and coming editors of the State" with him and touching on other subjects which were of interest to the young men. Toasts were indulged in by many and altogether the banquet was a thing of beauty and a joy which will live long in the hearts of the youthful editors.

The hop tendered the Y. M. E. A. at Getty's Hall began promptly at 10 o'clock and to the enchanting strains of Seibert's music the beauty and chivalry of that city tripped the light fantastic till old Sol had peeped from his hiding place of the evening before. The majority of the editors, and all who desired to be, were supplied with delightful company, and for a season the cares of the printing office at home, the thought of a scarcity of copy, or anything pertaining to other than enjoyment, was set aside, as it were, till some other sweet day or more opportune time. It was a brilliant entertainment, where finery of dresses and feminine beauty were mingled and many a poor quill driver will look back at it for years to come as an oasis in his life. The young ladies were all pretty, but special mention is due Dr. John D. Woods' handsome trio of daughters, Misses Lizzie, Minnie and Patty. They take after their grand old father and are as elegant as they are beautiful.

The morning session, with President Morningstar in the chair, was taken up in re-electing officers for the ensuing year, in which there was no change save that the vice-presidency was given to "tall, handsome and graceful" Harry McCarty instead of J. Fletcher Marcum; the reading of papers, the enrollment of new members and other business. The officers are R. F. Morningstar, president, Neel Glenn, treasurer, E. C. Walton, secretary. A large number of ladies lent their presence on this occasion and of course the boys did their best. The place of the next meeting was decided after much speaking and wrangling and Louisville had the honor bestowed upon her. Stanford played a good second and came in two votes of entertaining the young editors next year. At 1 o'clock the business was through with and after a vote of thanks to the hospitable citizens of Bowling Green in general, and to our highly appreciated president in particular, the meeting adjourned.

Carriages were again placed at the disposal of the "city's guests," as the Bowling Green papers referred to the young editors, and with President Morningstar the remaining portion of the city was viewed, after which the members were divided into squads and taken to call on that city's fairest daughters. It goes

without saying that that part of the programme was highly enjoyable, for a newspaper man who is not fond of lovely women would be a stranger to his profession.

The stay in Bowling Green was delightful from arriving till our departure and Mr. Morningstar, assisted by his associate editor, Mr. E. J. Cooksey, left nothing undone that would add to our delectation, and were a chorus of ten thousand thanks to go up at one shout thanks would yet be due them for their untiring efforts to entertain the Young Men's Editorial Association while their guests.
