## CEREALS HIGHER IN ALL LINES

REPORTS OF DAMAGE TO WIN-  
TER WHEAT PLAYS PART.

Too Soon for Future Crop to Affect  
Prices—Corn is Still a Debatable  
Commodity.

PROVISIONS ARE STRONGER

Chicago, Feb. 15.—Out of a con-  
flicting mass of information prices of  
wheat emerged upon a new and  
higher level during the last week.  
All the options in the cereal list  
scored advances, and there were in-  
fluences that sent provisions to a  
latter perch. With the raw materials  
on the up grade the campaign against  
the cost of living does not seem to  
have been immediately effective. Ap-  
parently the old law of supply and  
demand rose above all other forces  
in the market.

Receipts Continue Heavy.  
Receipts of grain in the northwest  
continued to be heavy throughout the  
week, running from day to day twice  
or even three what the movement  
was a year ago. This feature, to-  
gether with whatever doubtful in-  
fluence the crop reports had, was  
about the only asset of which the  
bears could avail themselves as am-  
munition. At that the shorts, espe-  
cially in Chicago, where the supply  
of grain is limited, did not have the  
hardihood to press the advantage  
which appeared to them substantial.

The weight of the argument persisted  
on the other side of the market,  
hence the scoring of advances.  
It was not a week of great activity.  
Trading was on a comparatively lim-  
ited scale, the caution of the shorts  
making it so in this market. The  
activities of the week ended Friday  
with a virtual truce until Monday,  
the shorts not being willing to com-  
mit themselves deeply for so long an  
interregnum.

Too Soon for Forecasts.  
Reports of damage to winter wheat  
played their part, but when summed  
up at the end of the week it was  
pretty well agreed that the time is  
not at hand when trustworthy fore-  
casts may be made about the coming  
crop. Latterly Oklahoma and Texas  
came along with reassuring advice  
about their wheat fields, venturing  
the assertion that the damage thus  
far done is inconceivable, and that  
the outlook is quite satisfactory. B.  
W. Snow, a well known investigator  
of the fields, has been looking over  
the ground in Kansas. His conclu-  
sions are that there is as yet no oc-  
casion for worry about conditions.

Fields are brown to the eye, but  
close inspection beneath the surface  
discloses, according to Mr. Snow, that  
the roots are alive, that there is a  
beneficial moisture, that there has  
been no disastrous alternation of  
freezing and thawing, and, finally,  
that the basic conditions are as  
wholesome as could be asked for.  
Conditions Abroad.  
A summary of crop conditions  
abroad, according to the latest avail-  
able data, indicates that the outlook  
is good in the United Kingdom, in  
Germany, Hungary, Bulgaria and  
Turkey, and that there is a normal  
situation and prospect in Russia, al-  
though in the latter country there is  
anxiety in some quarters owing to a  
lack of protecting snow. Northern  
France will do considerable replow-  
ing, but a compensating influence lies  
in beneficial rains.

There is a strong bull argument in  
the visible supply of wheat, which is  
the smallest at this season it has been  
in two decades. The nearest ap-  
proach to it was in 1905, the year  
of the culmination of the John W.  
Gates deal, when the total was 34-  
000,000 bushels, compared with a  
present showing of some 9,000,000  
bushels below that quantity. Stocks  
in Minneapolis and Duluth in that  
year were 18,600,000 bushels com-  
pared to about 9,000,000 bushels  
now.

Up in Canada the visible supply  
fell off week before last 230,000  
bushels, whereas there was an in-  
crease of 730,000 bushels for the  
corresponding period a year ago. The  
world's available supply gained only  
308,000 bushels. Last year at the  
same time there was an increase of  
3,415,000 bushels. The total world's  
available supply at latest reckoning  
was 2,000,000 bushels short of the  
figures in the first week of February,  
1909.

Eyes of Trade on Mexico.  
The eyes of the trade are upon  
Mexico with a measure of interest in  
anticipation of the fact that after the  
middle of this month there will be a  
material reduction of the tariff on  
wheat shipped into that country. The  
people of Diaz need wheat, hence the  
opening wider of the gates to Ameri-  
can grain. St. Louis reports liberal  
selling for Mexican consumption dur-  
ing the last week. This factor is not  
expected to cut a big figure one way  
or the other, standing by itself, but  
it may be a wind to help. The St.  
Louis reports of sales are of a gen-  
eral character, lacking in convincing  
details.

Flouring Interests of the north-  
west made some good sales early in  
the week. An interesting report of  
the week was that one of the most  
prominent of the northwestern mill-  
ing interests was buying wheat here.  
This absorption accentuated attempts  
of the short sellers here to cover.

In the Chicago market the week  
ended with an advance of 2 cents for  
May, 1 1/2 cents for July and 1 1/4

## Free Remedy For Weak Bowels

There are two forms of bodily  
cleanness, the external and the in-  
ternal. The one is for your pride in  
yourself; the other for your life and  
health. Both are important, but of  
vastly more importance in the long  
run is the internal cleanness.

This is one point that all should watch  
about their body—the cleanliness of  
the bowels. Keep them clean and free from  
obstructions. To do this you must have  
one or two movements of the bowels  
each twenty-four hours. If your system  
does not do this, naturally, in the process  
of eating and drinking, then you must  
obtain aid of some kind. After finding  
out that cathartics, salts and such things  
relieve you for a day, but bind you up  
more than ever the next day, then try a  
simpler and more natural remedy like  
Dr. Caldwell's Syrup Pepsin.

For the skeptical the best way to be-  
gin is to send your name and address to  
Dr. Caldwell for a free sample bottle.  
Use it as directed and if it convinces  
you that a brief continuance of its use  
will relieve you permanently—that it will  
train the stomach and bowel muscles to  
again work naturally at certain hours—  
then buy it of your druggist at fifty  
cents and one dollar a bottle, just as so  
many others are doing. They began with  
a sample bottle, then bought a fifty cent  
bottle, and now, fully convinced of its  
merits, they buy the one dollar family  
size. All the members of the family can  
use it down to the very youngest.

A brief use of this grand laxative tonic  
will cure constipation in its worst form,  
indigestion, liver trouble, sick headache,  
sour stomach and such ailments and keep  
you in continuous good health at a very  
small cost. Such is the experience of  
many families like that of Mrs. Oscar  
Fleener, Unionville, Ind. J. F. Dunlap,  
Saron, Tex., and hundreds of others that  
could be named.

Dr. Caldwell personally will be pleased  
to give you any medical advice you may  
desire for yourself or family pertaining to  
the stomach, liver or bowels absolutely  
free of charge. Explain your case in a  
letter and he will reply to you in detail.  
For the free sample simply send your  
name and address on a postal card or  
otherwise. For either request the doctor's  
address is Dr. W. B. Caldwell, 1,557 Cald-  
well building, Monticello, Ill.

counts for September wheat over the  
closing prices of the week before.

Corn Debatable Commodity.

Corn is a debatable commodity  
over which the bulls and bears argue  
respectively the soundness of their re-  
spective attitudes toward this cereal.  
With the general uplift as an aid the  
friends of higher values had all the  
best of the week's trading. May ad-  
vanced 1 1/4 cents, July the same and  
September 1 1/2 cents net for the week.

In a survey of things corn-wise the  
bears make much of the big supply  
of corn in Chicago, of the small ship-  
ping demand of the constantly widen-  
ing discounts for low-grade corn. On  
the other side the bulls laid emphasis  
on prospective lighter receipts this  
week and tried to convince the trade  
that there is no cause for anxiety  
over the accumulation of corn at this  
center. It is not large enough, they  
hold, to take care of the spring busi-  
ness prior to the planting season and  
to leave enough over as a burden-  
some weight for the speculator.

A shrinkage of the visible supply  
as reported early in the week was one  
of the surprises. Receipts ran heavy,  
thanks to improved traffic conditions,  
and the movement is said to have  
gone far toward depletion of farm-  
ers' cribs. The bazaar of a strike of  
railroad men in Chicago made some  
traders pause. Cash corn prices are  
markedly below those for the futures.  
Much of the grain that is coming in  
is of poor grade. Its influence makes  
for keeping down values of the better  
corn. The bulls take the ground that  
the present run is temporary and not  
to be taken too seriously in the long  
view.

Oats Influenced By Corn.

Primary receipts of oats the first  
half of the week were almost double  
what they were the corresponding  
time a year ago. There was a fair  
shipping demand. This cereal was in-  
fluenced by the corn market rather  
than that of wheat. The net gains  
for the week were: May, 1/2 cents;  
July, 1/2 cents; September, 1/2 cents.  
It was admittedly a bull week, not-  
withstanding the price changes did  
not show large. The territory east  
of Buffalo bought oats more freely  
than any other, but there also was  
good business with buyers south of  
the Ohio river.

Provisions Stronger.

Provisions at every point presented  
a stronger front, pork rising from  
\$22.17 1/2 to \$22.80 for the May  
future and from \$21.92 1/2 to \$22.60  
for July. Lard advanced proportion-  
ately. That the foreign trade looks  
upon the new plane of values as pre-  
dicted on legitimate basis is indicated  
in the large business in lard. The  
exports are surprisingly large. Pack-  
ing for the season since November 1

is now 2,600,000 short, and with  
occasional exceptions the daily re-  
ceipts of hogs are far below those of  
a year ago. It is estimated by an  
expert that the drastic government  
inspection of these days cuts down  
the hog meat supply 1 1/2 to 3 per  
cent. The end of the week found  
hogs back to a nine-cent basis in the  
Chicago market. Lambs scored the  
same mark.

The Fourteen Important Mistakes of  
Life.

Judge Rentoul, of London, Eng-  
land, is a philosopher much admired  
in that metropolis. Speaking at a  
banquet recently he gained much ap-  
plause, according to an exchange, by  
describing the following as the four-  
teen important mistakes people make  
in this life:

To attempt to set up our own  
standard of right and wrong and ex-  
pect everybody to conform to it.

To try to measure the enjoyment  
of others by our own.

To expect uniformity of opinion in  
this world.

To look for judgment and experi-  
ence in youth.

To endeavor to mold all disposi-  
tions alike.

Not to yield in unimportant trifles.

To look for perfection in our own  
actions.

To worry ourselves and others  
about what cannot be remedied.

Not to alleviate if we can all that  
needs alleviation.

Not to make allowances for the  
weakness of others.

To consider anything impossible  
that we cannot ourselves perform.

To believe only what our finite  
minds can grasp.

To live as if the moment, the time,  
the day were so important that it  
would live forever.

To estimate people by some out-  
side quality, for it is that within  
which makes the man.

Mr. E. A. Kelley, Belvidere, Ill.,  
writes us: "I am an ex-engineer  
with 22 years active service to my  
credit. About three years ago my  
kidneys were affected so that I had  
to give up my engine. First I was  
troubled with severe, aching pain  
over the hips. Then followed in-  
flammation of the bladder, and specks  
appeared before my eyes. A sample  
of Foley's Kidney Pills that I tried,  
so benefited me that I bought more.  
I continued to take them until now I  
can safely testify they have made  
me a sound and well man."—Gil-  
bert's Drug Store.

The "Innocent" Senator and he  
Wicked Caddy.

"He reminds me of Smith and he  
had five-dollar bill," said Senator La-  
Follette, in speaking of a corrupt  
politician who had come to grief.

"Smith went to New York for the  
Hudson-Fulton celebration. He had  
in his pocket a bad five-dollar note.  
One night after a banquet he hand-  
ed a cab driver this bad note by mis-  
take. The driver gave him his  
change—a one-dollar bill—and whip-  
ped up his horse. Suddenly Smith  
realized what he had done."

"Hey, there! Stop!" he shouted  
after the man. "That bill's bad."

"It's good enough for you!"  
shouted back the driver, without  
stopping.

"And Smith, examining his change  
under a street light, found that it,  
too, was bad."—Everybody's.

Drop by drop the offensive dis-  
charge caused by Nasal Catarrh falls  
from the back of the nose into the  
throat, setting up an inflammation  
that is likely to mean Chronic Bron-  
chitis. The most satisfactory rem-  
edy for Catarrh is Ely's Cream Balm,  
and the relief that follows even the  
first application cannot be told in  
words. Don't suffer a day longer  
from the discomfort of Nasal Cat-  
arrh. Cream Balm is sold by all  
druggists for 50 cents, or mailed by  
Ely Bros., 56 Warren Street, New  
York.

"Bliggins is looking badly." "Yes,  
he is a victim of good intentions  
misapplied. He tried to smoke  
enough to furnish his house luxu-  
riously with tobacco premiums."—  
Washington Star.

The modern way is to marry at  
leisure and divorce in haste.

## Weak Lungs

Ask your doctor to name the best family  
medicine for coughs, colds, bronchitis, weak  
lungs. Follow his advice.

Seventy years of experience with Ayer's  
Cherry Pectoral have given us great  
confidence in it. We strongly recom-  
mend it for coughs, colds, bronchitis,  
weak throats, and weak lungs. It pre-  
vents. It protects. It soothes. It heals.  
Just the help nature needs.

## The Friedman Insurance Agency

Sells the most secure Fire Insurance obtainable. The Policies is-  
sued by this Agency do not cost any more than the Policies of Insur-  
ance Companies, and they are backed by Millions of Dollars of Capital  
and Surplus. We pay Spot Cash for losses without any discount.  
Respectfully,  
JULIUS FRIEDMAN.

ESTABLISHED 1874.

**SWEENEY-TIERNEY HOTEL COMPANY**

E. M. TIERNEY, Manager

threatened for a time to include all  
the ladies' garment workers. Re-  
member that the bulk of all this  
work is done by girls; that even  
such a small detail as the mere sew-  
ing on of buttons gives employment  
to thousands; and you may gain  
some conception of what this upris-  
ing means to industry. Many em-  
ployers risked ruin in holding out;  
already 170 shops have signed, agree-  
ing to the girls' terms, and 17,000  
of the girls are back at work under  
contract—that is, a half, more or  
less, have won their fight, the strike  
being only two and a half weeks old.  
—Collier's Weekly.

Uprising of the Girls.  
Clara Lemlich, a little Russian  
girl of 16 with a pompadour behind  
just like that of any other girl of  
16, was the one who pressed the  
button. Because she rose in a labor  
meeting and moved that the shirt  
waist makers strike, between 30,000  
and 40,000 girls quit work in New  
York city alone, and news of more  
going out, more and still more has  
come in from factories all over the  
east.

The thing amounts to an uprising  
such as has never been known since  
woman entered the Garden of Eden.  
The strike fever spreads like the  
plague, and organizers belonging to  
the Woman's Trade Union League  
have struggled in vain to stop it.  
Stop Pelee in eruption. An army of  
girls, turned loose from their shops  
on the streets, could not be handled;  
day by day the army increased.  
From shirtwaist makers the epi-  
demic spread to dressmakers, and it

PILES CURED IN 6 TO 14 DAYS.  
PAZO OINTMENT is guaranteed to  
cure any case of Itching, Blind,  
Bleeding or Protruding Piles in 6 to  
14 days or money refunded. 50c.

Miss Prim—I want a husband who  
will be easily pleased. Miss Grouch  
—That's the kind you'll get.—Life.

## It's a Good Sound Common Sense Policy

To use medicines only of KNOWN COMPOSITION, and which contain neither alcohol nor habit-forming  
drugs. It is foolish—often dangerous to do otherwise. The most intelligent people, and  
many of the most successful, conscientious physicians, follow this judicious course of action. The  
leading medical authorities, of all schools of medicine, endorse the ingredients composing Dr.  
Pierce's medicines. These are plainly printed on wrappers and attested under oath. There's no  
secret; an open publicity, square-deal policy is followed by the makers.

## Dr. Pierce's Favorite Prescription

THE ONE REMEDY for woman's ailments, sold by druggists, devised and gotten up  
by a regularly graduated physician of vast experience in treating woman's peculiar  
diseases and carefully adapted to work in harmony with her delicate organization,  
by an experienced and skilled specialist in her maladies.

THE ONE REMEDY for woman's ailments, sold by druggists, which contains neither  
alcohol (which to most women is the rankest poison) or other injurious or habit-  
forming drugs.

THE ONE REMEDY for women, the composition of which is so perfect and good that  
its makers are not afraid to print its every ingredient, in plain English on its outside bottle-wrapper, and  
attest the correctness of the same under oath.

We have a profound desire to avoid all offense to the most delicate sensitiveness of modest women, for whom we entertain the most sincere  
respect and admiration. We shall not, therefore, particularize here concerning the symptoms and peculiar ailments incident to the sex for  
which Dr. Pierce's Favorite Prescription has for more than 40 years proven such a boon. We cannot, however, do a better service to the  
afflicted of the gentler sex than to refer them to Dr. Pierce's Common Sense Medical Adviser, a great family doctor book of 1000 pages,  
bound in cloth and given away gratis, or sent, post-paid, on receipt of 31 one-cent stamps—to cover cost of mailing only. All the delicate  
ailments and matters about which every woman, whether young or old, single or married, should know, but which their sense of delicacy  
makes them hesitate to ask even the family physician about, are made plain in this great book. Write for it.

Address: WORLD'S DISPENSARY MEDICAL ASSOCIATION, R. V. Pierce, M. D., President, 663 Mair Street, Buffalo, N. Y.
