#### RASH WAS MASS OF SPOTS

Sill½ Washington St., Salt Lake City, Utah—'I was first alarmed by an itchy feeling all over my arms and a rash of tiny spots came out. The rash was a mass of spots like measles and developed into running sores. The itching was terrible and I would scratch something awful. I tried a treatment but it availed not. I then decided to try Cuticura Soap and Ointment. After the first application Ointment. After the first application the itching stopped wonderfully. The cure which followed was a marvel to me for I thought I never would get better. This was three years ago and I have as clear a skin as any one may wisb. Cuticura Soap and Ointment cured me entirely." (Signed) Miss Kate M. Dobson, Mar. 18, 1912. Cuticura Soap and Ointment sold throughout the world. Sample of each free, with 32-p. Skin Book. Nashville, Tenn.—In the spring of 1911 the Teanessee Central railroad located a colony of Bohemians on the located a colony of Bohemians on the Cumberland plateau at Mayland, under the name of the Bohemian Co-Operative Farming company. They purchased 5,300 acres in the woods without clearing, houses or fences. Immediately from New Jersey and Ohio Bohemian families came to the plateau and the work of transforming, the wilderness into productive fields, gardens and orchards began. The story of this wonderful development is told by Rutledge Smith, industrial agent of the Tennessee Central railroad, as follows:

"The land was subdivided into fifty

"The land was subdivided into fifty acre tracts, one tract to the family, so that the entire purchase would care for 100 families. Mr. Leonard Schwartz of New Jersey, an educated. cultured and trained farmer of large experience, was made manager of the colony, and the work of development has been under his immediate supervision. In every respect, all the work is done by the Bohemians, no outside help being employed.

"The first work that was done after the property was subdivided was to build a few comfortable cottages to care for the pioneers. This done, they elaborated a careful program of procedure which would automatically expand with the increasing population. "I went up last week to see the fruits of their labors. I found nearly 100 light haired and bronzed faced sons and daughters of Bohemia, intelligent, happy and content. Satisfaction reigned supreme with them, and they expressed themselves as having reached a clime as near perfection to their ideals of life as it was possible to find. It made me feel good to receive the sincere gratitude of these sturdy people for bringing them to the plateau of Tennessee.

# **CLUES TO CRIMES**

Trifles Have Served to Convict Perpetrators of Murders.

Slough Slayer in England Trapped by Might Have Escaped Except for His Bloody Pajamas.

London.—The recent death of Sir Alfred Wills, for many years a high court judge, recalls his association with one of the best known and quite the most enthralling of legal text-books: "Wills on Circumstantial Evi-

books: "Wills on Circumstantial Evidence."

Since the previous edition many notable cases have occurred to enrich the "rommace of the forum," among which may be mentioned the Newcastle murder, the Slough murder, Crippen's case and some more recent, though the case of Oscar Slater recently rediscussed—has escaped the attention of the late judge.

The veriest trific sufficed to put the noose around the neck of Broome, the Slough murderer. On being arrested on suspicion, he sought to discount it by telling the police that they would find \$100 in gold in his room, which he solemnly declared he had brought away from his father's house.

She said she thought that women had a tremendous next to alon in advising tremendous part to play in advising the making of laws against the wear-ing of feathers. It was entirely wom-en's part to do this, because it was for

women that the birds were killed, and women wore the feathers.

James Buckland lectured on "The Value of Wild Bird Life to the Empire." He said that the feathers used

stolen goods. If the truth could be told about the Calcutta custom house in relation to certain persons in Lon-don the public conscience would be shocked by the extent of the smug-gling of feathers. With the passing of the plumage bill this trade would be stopped at once.

## FINAL RESULT OF IMPURE BLOOD

The System Is Left Weak, Run Down and Helpless Against the Attacks of Disease.

has transformed so many weak, anamic, dyspeptic, ambitionless people into strong, healthy, hungry men and women.

Mrs. Lena May Roberts, whose address is R. F. D. No. 3, Aberdeen, So. Dakota after several months of soffering finally found the right tonic in Dr. Williams' Pink Pills. She says:

"For months after the birth of my baby, I suffered terribly from a general breakdown in health. I was in bed for three months and after that was able to be up only part of the time. I was sick all over, being pale, weak and thin. My appetite was gone and my head ached most of the time. Oftentimes there seemed to be a rush of blood to my head and I would faint away. I was very nervous and was not strong enough to do any work.

"As the treatment I was taking did not help me, I began' to take Dr. Williams' Pink Pills, which a friend said had helped her. After taking a few boxes, I began to get well rapidly. I continued using them for a time and am now as well and strong as ever in my life."

The value of Dr. Williams' Pink Pills in general debility lies in their direct response to the needs of the blood. Their work is to make new blood. That they do this well is shown by the gradual disappearance of the symptoms and the return of color and health. They lay the foundation for permanent health in the future.

For the same reason these pills have cured anaemia, after-effects of the grip and fevers, rheumatism, indigestion, and nervousness, dizziness, neuralgia and St. Vitus' dance, and are recommended wherever a tonic for the blood and nerves is needed.

A valuable booklet, "Diseases of the Blood," containing fuller information about rheumatism and other diseases of the blood will be sent free upon request.

Dr. Williams' Pink Pills are sold by all druggists, or sent, postpaid, on receipt of price, 50 cents per box; six boxes for \$2.50, by the Dr. Williams Medicine Co., Schenectady, N. Y. Adv.

Calumet Ends "Bad Luck."

Remember when you were a youngster, what a trial baking day was? If Mother was lucky, everything went finely—but if she had "bad luck" her cakes and her success in baking seemed to depend almost altogether on "luck."

Nowadays there's no such thing as "baking luck." At least, not in the kitchens of the up-to-date cooks. Simply because Calumet Baking Powder has smashing sure of success. It has made inexperienced cooks able to bake perfectly, and day after day it is saving hundreds of dollars' worth of time and materials by doing away with costly failures.

Calumet Baking Powder is the purest only to BE gure, but to stay pure in the CAN and in the BAKING. Calumet has twice been officially judged the BEST baking powder made-receiving the highest awards at the World's Pure Food Expositions in Chicago (1807) and in Paris (1912). Adv.

In 1911, Mr. James A. Cox of Centerville, Mississippi, had one acre of unfertilized ground. He planted sugar cane and that acre produced just 862 gallons of molasses. He put it up in ten pound tins and sold it, deriving a net profit of \$400.
