ROCKEFELLER TO TAKE THE STAND

KELLOGG WILL ASK OIL KING'S BROTHER TO THROW LIGHT ON LOANS.

SHOWS UP OIL TRUST TRICKS

METHOD BY WHICH TRUST EVAD-ED ORDER OF OHIO COURTS IS SHOWN.

New York, Oct. 11.—The method through which the trustees of the Standard Oil trust liquidated the company in order to comply with the order of the Ohio courts was further unfolded yesterday when Wesley H. Tilford, treasurer of the Standard Oil Company of New Jersey, was recalled to the witness stand in the federal suit against the so-called trust. State ments compiled from stock books of the various subsidiary companies during the trust liquidation were placed on the records and from these and from Mr. Tilford, the government's counsel, Frank B. Kellogg of St. Paul says that the government's charge that only a pseudo liquidation was effected and that the trust continued as an entity and under the same control as at the time of its inception in 1882 has been proved.

Brought Out by Kellogg.
Mr. Kellogg was able to develop that the liquidating trustees and their associates liquidated only enough trust certificates to give them a majority of the stocks of the twenty subsidiary companies, and that they voted these stocks as individuals and maintained a constant control over the integral companies. The dividends declared on the stocks of these companies were paid directly to those holders who had liquidated the trust certificates and to the trustees who held the stocks against the unliquidated certificates of the trust. Mr. Kellogg showed that the trustees and one or two associates were the only certificate holders who liquidated their shares in the old Standard Oil trust.

Cleared Up by Tilford.
Mr. Tilford testified that the cross-town pipe line under Central Park whose ownership has caused considerable perplexity to the federal counsel when it did not appear on the books of the Standard Oil Company of New York after 1906, was still owned by the New York company.

Mr. Kellogg again tried to find out the reasons for the large loans, amounting to several millions, given to P. S. Trainor by the Southern Pipe Line company. Efforts to ascertain the nature of these loans at a previous hearing failed.

To Call W. G. Rockefeller.
That the Standard Company of New York was a lender of millions of its surplus was testified to yesterday by Mr. Tilford. It was developed that over \$2,000,000 was loaned last year to "interests other than the Standard." What these interests were and the nature of the loans Mr. Tilford was unable to say. Mr. Kellogg said he would call William G. Rockefeller, treasurer of the company to throw light on these loans.

CHICAGO DEFEATS DETROIT

SECOND GAME OF THE WORLD'S CHAMPIONSHIP SERIES GOES TO THE CUBS.

Chicago, Oct. 11.—The Chicago National league team defeated the Detroit pennant winners of the American league in the second game of the series for the world's championship yesterday afternoon. The score was 3 to 1. Slow pitching and several slight accidents caused the contest to drag over two hours, the delays trying the patience of the big crowd which again filled almost every inch of seating room. Both teams played more steadily than on the opening day. After the first four and a half innings had dragged through an hour and thirty-five minutes some sparkling fielding and sharp hitting and base running hastened the contest to an end.

Mullin and Pfeister were the pitchers, and Payne went behind the bat in place of Schmidt. Otherwise the teams lined up as on the preceding day. Schmidt's retirement was due primarily to his inaccurate throwing, but in this respect the change brought small improvement, as the five stolen bases credited to the local team testify.

Playing conditions were improved for the second game, the crowd numbering 21,901, as against over 24,000 Tuesday, while warm sunshine and the absence of the chill breeze of the first day kept the spectators and players in more comfort.

PRESIDENT HAS BUSY DAY.

Conditions Are Ideal for Good Hunting.

Stamboul, La., Oct. 11.—Not since early morning have tidings been received from the president's camp, and the word then was confined to a mere statement that preparations had been made for a busy day.

The best local judges of conditions say that the day must have been one of activity if not of results. The rain has left a faultless sky and the temperature is all that could be desired. These circumstances, taken with the softened ground, make it possible for a party who is well equipped to get a bear if there is one in the bayou.

SHORTAGE OF CARS IS FEARED

NORTHWESTERN GRAIN MEN ARE MUCH WORRIED OVER SITUATION.

Minneapolis, Oct. 11.—Shortage of cars is worrying the Northwestern grain men, particularly the Minneapolis firms that handle large shipments of grain daily. Shipments have fallen off decidedly, and yesterday only 144 carloads of wheat were received in Minneapolis, as against 415 carloads on the same date last year.

While it is true 2,000,000 bushels more grain have been received since Sept. 1 than for the same period last year, the dealers are again worrying because of the sudden falling off of wheat which was shown by the reports for yesterday. Other grains are beating wheat into the city, and the movement of more important grain is thus checked.

Another shortage of cars similar to that of last fall is feared despite the fact that the railroads are in much better condition to handle the traffic. One thing that will probably help the movement of grain this year is the fear which was instilled into the coal users of the Northwest by their experience of last season. They are now getting in their winter supplies, and the result is that many cars loaded with coal are already in the Northwest or on their way there. As soon as these cars are unloaded they can be utilized for shipping grain back to Minneapolis or farther east and thus relieve the situation somewhat.

NEW SANATORIUM READY.

State Hospital for Consumptives Soon to Be Turned Over to State.

Walker, Minn., Oct. 11.—Three years ago the state legislature passed an act establishing a sanatorium for the care of tuberculosis cases. SAID TO BE SIMPLE

EASILY MIXED RECIPE FOR KIDNEYS AND BLADDER.

Tells Readers How to Prepare This Home-Made Mixture to Cure the Kidneys and Bladder and Rheumatism.

Get from any prescription pharmacist the following:

Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces.

Shake well in a bottle and take a teaspoonful dose after each meal and at bedtime.

The above is considered by an eminent authority, who writes in a New York daily paper, as the finest prescription ever written to relieve Backache, Kidney Trouble, Weak Bladder and all forms of Urinary difficulties. This mixture acts promptly on the eliminative tissues of the Kidneys, enabling them to filter and strain the uric acid and other waste matter from the blood which causes Rheumatism.

Some persons who suffer with the afflictions may not feel inclined to place much confidence in this simple mixture, yet those who have tried it say the results are simply surprising, the relief being effected without the slightest injury to the stomach or other organs.

Mix some and give it a trial. It certainly comes highly recommended. It is the prescription of an eminent authority, whose entire reputation, it is said, was established by it.

The Question.

"A New York woman lived to be 107 years of age, and she accounts for her longevity by saying she ate onions at every meal."

WOMAN'S SENSE OF HONOR.

Her Special Code for Conduct Toward Her Husband.

A writer in Pall Mall Magazine says that a well known American warden said to him: "I have been in prisons for men and in prisons for women. Discipline in the former is child's play compared with the latter. As soon as a man realizes there is no use in resisting he gives in. But the women, even when we put them in straight-jackets, always manage to extricate at least one finger and to agitate that in a rebellious manner!"

In the matter of conduct toward husbands and consideration due to the "better half" there is an especial code of honor. It has the stability that sanction by women of all countries gives it, but it does not resemble any code that a man would observe toward another man, nor which a woman would employ toward any human—except her husband. This code includes the right to search pockets, consult notebooks, open letters, read those already opened. It includes the right to confound household and personal accounts, to use on self the money intended by the master of the house for paying bills. This system is not frequently practiced, perhaps, and less frequently admitted, no doubt, yet we remember one newly married woman who announced as a little triumph: "When I buy myself something I don't like I just sell it to the house!"

The peculiar indulgence which the conjugal state seems to call for as regards the weaker sex in matters of honor more or less delicate was thus strikingly summarized by a philanthropist accustomed to all sorts and conditions of people. Among the poor whom she visited there was a woman who in a fit of rage or jealousy had killed a man. In relating to me the case the philanthropist concluded sadly: "Yes, she killed him, and he wasn't even her husband!"

TRANSFORMATIONS.

Curious Results When Coffee Drinking Is Abandoned.

It is almost as hard for an old coffee toper to quit the use of coffee as it is for a whisky or tobacco fiend to break off, except that the coffee user can quit coffee and take up Postum without any feeling of a loss of the morning beverage, for when Postum is well boiled and served with cream, it is really better in point of flavor than most of the coffee served nowadays, and to the taste of the connoisseur it is like the flavor of fine, mild Java.

A great transformation takes place in the body within ten days or two weeks after coffee is left off and Postum used, for the reason that the poison to the nerves—caffeine—has been discontinued, and in its place is taken a liquid food that contains the most powerful elements of nourishment.

It is easy to make this test and prove these statements by changing from coffee to Postum. Read "The Road to Wellville," in page "There's a Reason."

UNITED STATES SENATOR FROM SOUTH CAROLINA PRAISES PE-RU-NA.

Ex-Senator M. C. Butler.

Dyspepsia Is Often Caused By Catarrh of the Stomach—Peruna Relieves Catarrh of the Stomach and Is Therefore a Remedy for Dyspepsia.

Hon. M. C. Butler, U. S. Senator from South Carolina for two terms, in a letter from Washington, D. C., writes to the Peruna Medicine Co., as follows:

"I can recommend Peruna for dyspepsia and stomach trouble. I have been using your medicine for a short period and I feel very much relieved. It is indeed a wonderful medicine, besides a good tonic."

CATARRH of the stomach is the correct name for most cases of dyspepsia. Only an internal catarrh remedy, such as Peruna, is available.

Peruna Tablets can now be procured.
