Gossip Caused by the Publication of His Book.

HIS REFERENCE TO AMERICANS

It is Charged That He Still Holds the Views He Expressed Then. Indignation Meetings Will Probably Be Held in Different Sections of the Country.

The publication in The Times of exracts from Senor Dupuy de Lome's book, n which he says very disagreeable things of American men and women, has caused much gossip here. His words have been taken up and commented upon, both at home and in the clubs. It has been asked again and again why a man who holds such views should be permitted to live among a people whom he has so abused. as cared to be quoted because it is felt that the proper channel for the expression of disapprobation is through the State Department, but there is talk of indignation meetings and formal pro-

The feeling of irritation grows with Senor De Lome's continued attitude of indifference. He evades the question in way which indicates that he still holds the views expressed in his book. His friends and defenders maintain that

the book was written when he was a mg man, some twenty years ago, and that he no longer holds the views then expressed, but nobody seems to know when the volume really first appeared, and it is spoken of as recently published. However, that makes little difference, in view of his practical indersement at this time of what he wrote then.

He wrote that he had been told concern-ing United States officials: "They are scoundrels and thieves. To strictly comply with the customhouse regulations will be of no avail to you. If you carry anything for which duties must be paid, of-fer \$5 to the officer in attendance. Do the same thing, even in case you have to pay nothing, so that they may not bother you." Each passenger related his experience in American customhouses, and all added These officials are the meanest and cost miserable fellows to be found among oliticians.

And now he indorses this by refusing to deny it. He does not affirm this view, but

e will not deny it.

Again his characterization of the American woman is without parallel for impu-lence. He says: "She is adventurous and bold. She travels alone, protected more by fear of the law than by the respect which she inspires. I have seen American women living at the notels in California, in Paris, all over Europe, i ways extravagant, spending more mone than their busbands, of whom they do not know much-money earned God knows how or where." Full opportunity is given him to disavow these sentiments. His apologists say they were expressed in the inexperience of youth. But he does not take the trouble to correct them now.

The translation of these statements was or several days public, within Senor De-Lotne's knowledge, and he took no pains has changed. Yesterday a Times reporter called at the legation to ask if he still binks as he wrote. His reply by a secre-

tary was that he had nothing to say.

The extracts from the book have been published in New York, as well as in Wash ngton, and there public sentiment is beeinning already to take definite form. The hiro Club, of Brooklyn, will hold a meetng today for the discussion of the matter nd it is believed that a request will be forwarded to Secretary Sherman to demand an explanation from the Spanish an lor. The American Daughters of the Revo lution, in the same city, have also taken up the subject, and will hold special meet ngs to denounce the writer of this book and isk that he either apologize or withdraw

rom the country. The talk here is strongest among the embers of the Wimodaughsis and other organ) fined to them. The men are also incensed, especially those connected with the cus ms service, and some action on their part is to be looked for at open

BACK TO HER OHIO HOME

President McKinley's Mother Bids Washington Farewell.

Her Distinguished Son Took Her to the Train and There Took Affectionate Leave From Her.

Mrs. Nancy Allison McKinley, the mother of the President, and affectionately termed 'Mother" McKinley, left the city for Canton last night in a special car, attached to the 7:10 Western train. Miss Helen McKinley, sister to the President, and Capt. H. O. S. Heistand, U. S. A., a warm pe The latter, however, when he has seen the two ladies safely to their des tination, will return to Washington, when he has been ordered by President McKinley,

his superior officer. President McKinley himself saw his elatives off. The party arrived at the Pennsylvania depot just a few minutes before the train was ready to leave. When the coach door was opened President Mc Kinley stepped out and, waving the ceach man aside, himself assisted the ladies to alight. Then giving his arm to his mother, and Capt. Heistand escorting Miss Mc Kinley, they proceeded through the depot

to the train. The station was pretty well filled with people at the time and everybody recognized the President and stopped to look at him. But he walked straight ahead, taking no notice of the stir he was creat ing further than to return courteously salutations. This he scrubulously did in every instance, winning even the hearts of the grimy train hands by lifting his hat

in response to their bows. When the car was reached he tenderly put his arm about his mother and half lifted her up to the platform. The car was brilliantly lighted and the blinds raised so that everything that happened within could be plainly seen by the crowd which had assembled on the platform.

President McKinley, his arm still are is mother, assisted her to a chair and then turned around to shake hands with ing obsequiously, evidently commendia: his mother to their care. A large bouquet graced a table in the car.

The group stood chatting for a moment until the conductor shouted "All aboard," when the President kissed los mother and sister and stepped off just as the train started. He returned to his carriage as quickly as the curious crowd would allow im and was driven rapidly back to the

White House.

The car in which the party left the city shooting party is still in the vicinity of Hatteras. The tender Violet moved south today, and it is thought the party will Pennsylvania road. It is one of the finest in the service.

CHAIRMAN BELL'S BANQUET CONFINED IN CABANA FORTRESS

The Executive Officers of the 4th of March Ceremonies Hold a Protracted Meeting and a Love Feast. One Other Meeting to Wind Up Its Affairs.

The heretofore prosaic-looking table of the civic committee was piled wide and deep last night with lobster salad, ices, Johannisberger, tolips, hyacinths, roses, and other material and sentimental things, as so many dissolving views of the interesting men and measures of the recent great inaugural ceremonies. Chairmau Bell was the host and provider, the hanquet beng to his associates of the inaugural committee. There were no speeches; in fact, there was no time nor room for these back numbers.

This incident took place after the meeting of the executive committee, at which nearly all of the members were present, and at which a great deal of winding up business was transacted. Mr. Bell will leave the city tomorrow night for Florida, where he will spend a week of well-earned rest, after which the final meeting will be held.

Treasurer Edson made his report, which was substantially that printed a day or wo ago in The Times.

Chairman Bell made a statement from this report reviewing the whole work of the committees. He would not hazard final statement of the surplus for the reason that there may be some bills not yet presented which may change the fig-ures. He would say, however, that this surplus would be between \$7,000 and \$8,000. The appropriation to the supper committee was \$6,000, but there was a on this "function" of more than \$3,000. A very small percentage of the 10,000 people at the ball forgot to dine it home on that memorable evening A letter was read from President Mc

Kinley, through his secretary, to Mr. Bell, as follows: "My Dear Sir. At the request of the

President I write to inform you of his thorough appreciation of the very effi-cient services rendered by yourself and nembers of your executive committee. He feels certain that the inaugural cere es were never better managed, and is particularly pleased with the courte sics extended to Mrs. McKinley, which he wishes me to deknowledge most heartily The President would be glad to have

this information made known to all of

your associates and assistants, whose o

operation contributed to the splendid success of the exercises of the day and even A letter to Mr. Bell was also read from Grand Marshai Perter, in which he said in part that he had "never seen commit ees work so harmontously and effectively in the preparations and conduct of in augural ceremontes. The ball was the

nost mangificent sight ever seen and, with the weather to help out, even the chronic fault finders had nothing to criticise adversely." Capt. J. E. Hell, chairman of the com mittee on comfort at the ball, made the interesting statement that not one article of any kind had been lost by any attendant through the negligence of the ommittee. Heretofore there have always

een claims for damages and loss at these balls: On motion of Col. A. T. Britton, a resolu on of thanks was passed, highly complimentary to the secretaries, Major Fred Brackett, George H. Brackett, and Bookkeeper Holden for their invaluable seices, Chairman Bell speaking pointedly n indorsement of the sentiments of the Mr. Bell also made the press his special care, and at his suggestion the dlowing resolution was unanimously

passed. "Resolved. That the thanks of the execucommittee are hereby tendered to Mr. C. W. Gesner of the Washington Post, Mr. M. F. Tighe of The Washington Times and Mr. C. Capt. Bell called attention to the fact of the great expense to the Government of inaugural balls, and suggested that a bill be offered in the next Congress to the erection of an armory which would include a baliroom suitable for such casions. The committee will take up this suggestion at its next meeting; also the question of the disposition of the surplus, for which applications have already been nade by charitable organizations. Mr. Ross Perry moved a vote of thanks Chairman Bell, which was carried unani-

mously and by a rising vote.

Col. James L. Norris offered a resolution with an enlogistic preamble, which was passed, and which awarded the chair in which Mr. Bell has presided and also the desk therewith to him as a gift from the

executive committee. Secretary Walker and Secretary Brackett were also dowered with their beautiful desks and luxurious chairs by compliment-

ary votes of the committee. All of the members of the committee were given about ten of the beautiful souvenirs of the ball, after which, there being nothing else in sight to give away, the commit tee, en masse, at the invitation of the chairman, adjourned to the adjoining room, where the post-inaugural feast was spread

SPEER WILL BE DISMISSED. He Is the Treasury Official Who

Stabbed a Cigar Dealer. Major Eugene-P. Speer was fined \$10 resterday by Judge Miller for stabbing William Callow, a cigar dealer, about a month ago. Major Speer is a chief of division in tthe second auditor's office at a salary of \$2,000 per annum. He has large family dependent upon him, and it is said that during his term of office has been able to put by but very little for a "rainy day."

For this reason his friends regret very much the present trouble, and fear that it may result in his dismissal. In fact, it was authoritatively stated yesterday the hances were greatly against his being retained. It was understood that his case was taken under advisement yesterday by his new chief, but what conclusion was reached, if any, could not be learned. Should the decision be adverse to Major Speer, he will be the first victim of the new Addinistration ax The result will probably be known today.

MISSISSIPPI RISING

River May Cut a New Bed at Memphis, Tenn.

Low Lands of Arkansas Submerged Water Two Feet Above Danger Mark and Climbing Steadily.

Memphis, Tenn., March 11.-Interest in the flood situation is now intense at this point, covering the Mississippi from Cairto Vicksburg, and vital interest hinges n the stability of the levees. No report of broken levees has been

received, but those most directly con-cerned, including levee boards, governnent levee forces and railroad companies ere making preparations for any emer ency. The Valley branch of the Illinois Central today mobilized its repair trains and forces, and other interests are em-ploying every available method of strengthening the levees.

Tonight the river is two feet above the danger line, and the Weather Bureau says the rise will continue. The low lands of Atkansas, across the river from this more are submerged, but this works little damage, as the country is but slightly de veloped.

The most serious feature of the present tise is the possibility of it cutting out a new bed for itself and leaving Memphis high and dry, or at least leaving her on a similiow lake

THE TENANTS EJECTED.

Twenty People Put Out of Their Homes on C Street. Twenty persons, men, women and children, huddled together and gazing disconsolately while the effects from their little homes were being thrown out into the street, was the sight which startled the passersby on C street, between Four-and-a

half and Sixth northwest, yesterday after From noon until 4 o'clock Constable Brawner and a force of fifteen men trotted back and forth from the bouse, bringing out an assortment of furniture which, for variety and size would have done

credit to a department store. What was happening was an eviction of the tenants of the house at No. 466 C street. The unfortunate people, all col-ored, had no warning of the occurrence street. however, as they all sub-rent their rooms from the original tenant, Abraham Frank to whom they paid their tent promptly But he, so it is claimed by Waggamar Brothers, the agents for the house, had not paid up for six months. His rent. is \$25 a month, thus making the amount-

due \$150.

The house is a part of the Kimball estate, which has been in litigation for a number of years, and the agents, there-fore, did not press the matter. But when the six months had passed and the rent was still unpaid, they took out the writ of electment. The house containstwenty-four rooms, and

Gen Long-street has the unqualified indorsement of Cot A. E. Back, who is the "easy boss" of Georgia Republicanism. The President is favorably inclined toward Gen Longstreet, and those who speak as know-ing the inside condition of affairs make the positive statement that President Mo Kinley will appoint the old time warrior. He is a gentleman of fine abil y and equipped with a thorough kno wledge of army affairs.

The appointment of Rear Admiral Walker, of the Navy, who will in a few days be placed upon the retired list, to the minister ship at Hawaii, is not thought probable, though Senator Allison has had repeated interviews with Secretary Sherman on the subject. Senator Allison is a relative of Mr. Walker, and is pushing his appointment with great vigor. It is understood that the President wants to select all his industers from civil life. If he should be appointed enator Chandler will make a fight against his confirmation. The two men fell out when Senator Chandler was Secretary of the Navy under President Arthur.

It is said that a very likely nominee for public printer is F. L. Bowman, editor of the Lorain, Ohio, Times, who is the husband of Mr. McKinley's sister. This is heavy news for Frank Godfrey of Chi-cago, who is still here booming Foster of Hillinois, and for the friends of a dozen other aspirants who are doing what they can to secure the preferment of persons friends for this place.

"No, building isn't starting up in any very gratifying way. I don't suppose or tenth of the bricklayers, carpenters or painters of the city are employed, nor do they see any work ahead. In many cases the little work that is on hand is done by the besses. I know of one good painting job that has just been taken by two bosses, who generally employ a zen men, and who are now doing all the work themselves. For the building trade, at least, the boom basn't come."-Architect B. B. Bradford
