the interesting developments this week is the appearance of London as a moderate

purchases of stocks are estimated at 50,-

Quanta World-Herald

West, Union Tol, Co \$25, 525, 815, 8.3 Yesterday's short session showed a quieter market than for a week past. At th opening interest centered in Sugar, which was expected to open up materially on the action of the Schate on the sugar schedule. It opened higher, at 125 1-4. and after a slight reaction, rallied to 126 1-8-the highest price for several years it then gradually declined, closing at 124 3-8, but with a gain of six points for the week. Jersey Central made a further advanced; it opened 3-4 and closed strong at 82 1-2; the balance of the market was slow and shaded off frac-tionally all along the line. It looks as if there was realizing in the Grangers, and the probabilities are for a reaction, which many traders consider overdue. London prices were nearly all off. St. Paul and Northern Pacific, preferred, 5-8 each, and other stocks smaller fractions.

Some traders are now talking 150 for Sugar, but that has always been the case when the sock was at or near its highest price, and at a time when insiders were generally unloading.

The last week has been a very favor able one for the stock market and for those who purchased stocks. The Grangers have held steady, with the exception of Rock Island, which has advanced some Several of the second-class stocks have made handsome gains, the most notable being Northern Pacific, which has a gain of 3 3-4 to its credit for the week. The Conters have been very strong. Dela ware & Hadson gained 4 points, and Jersey Central, 51-4, during the week, and there has been good Philadelphia buy-ing of Reading, which is up 1 3-4.

Among conservative traders, it is considered a good time to take profits, as there are many contingencies that may within a few days. Affairs in Europe are looking unsettled, and the unspeakable Turk may cause a crisis at any moment. At home, the Cuban question will undoubtedly have to be dealt with, in some way, as soon as the President returns. July.

Consols declined fractionally in London. A good straw to watch for the direction of the wind in European affairs.

Just after the close of the market reliable information was received that the dividend on C. C. preferred would be passed on Monday in Chicago. If this is so the common stock is likely to have a blg drop.

Sentiment is very bullish on Rock Island. Sentiment is very builts of Rock (Mand. It is said that its wheat prospects are better than any road in the winter wheat belt, and that huying of it has been better than of any other of the Grangers for the past week. There are some good reasons given for

With one exception the congregation that filled the Rev. Mr. Johnsing's church were African brunettes. Nor was that single exception even a good stirr-ribbed Methodist, like the hundreds of Georgia darkies that filled the pews about him during this most important revival meet-ing of the week. In fact, he was a true Roman Catholic and his name was Dennis O'Grady. It was the Itishman's first experience with colored Protestants, so he

chose a conspicuous seat in the front row of the gallery, from which point of van tage he could observe all that passed be-neath and thus the more readily pick up the essential points of the unfamiliar service.

Four hymns and two prayers had paved the way for Brer Johnsing's sermon. The preacher rose, and a heavy silence foil up-on the assembled throng. He chose his text and salled in. Goodness, how he argued, how he pleaded, that the poor wayward sinner might turn from bis paths of evil and be saved! "Rewar' de day ob jedgment!" he cried

in carnest warning. "Dar's gwine to be a gran' cleanin' out! We's all a-gwine to be divided into sheep on one han' an' goats on de odder han!" Then he paused for a stronger effort. "Now," he cried, "who's a-gwine to be de sheep and who's a-gwine to be de goats?"

There was no sound. "I suy-who's a gwine to be de sheep an' who's a gwine to be de goats? Hm?" Still the silence rontinued, and Brer

Johnsing was becoming excited. "Fo de las' time I axes yer-who's a-gwine to be de sheep and who's a gwine to be de goats? Hm?"

A moment of awful suspense, and then O'Grady rose in his scat. "Waal, thin," he called out, "Of I be the goats. What's the answer?"-Boston Budget.

A Poor, Deluded Man.

Literty street commission men are laugh-ing hearily over the experience of one of their number when in New York recently. This Mr. -- , it seems, while in the metrop-This Mr. --, it seems, while in the increase olis, made a test of the famous Raines law in many of the saloons. In every saloon he religiously ate the sandwich necessary to his buying a drink. After having great difficulty in swallowing the sandwich at the fifteenth place, he visited, the Pittsburger was greatly surprised, on stepping outside, to meet another Pittsburger, on the sidewalk. "Take one with me," said the newcomer. The two men entered the saloon recently quitted by the sandwichdevouring one. Having indicated a desire for liquid refreshment, they were surprised to hear the bartender say: "Excuse me,
