

START PLOWING.

Monday being a holiday many of the people who are members of the Cedar Valley Land and Development Co. went to Cedar Valley to see them start plowing with the new engine and disc plows. About one hundred people came from Am. Fork, Lehi, Fairfield and Cedar Fort.

For the past few days the men have been working the Bate's grubber, a V shaped arrangement made of railroad iron with knives set along the outside, which cuts the brush off from one to three inches under the ground and pushes it off to the side leaving it in rows about 15 feet apart. A man with hayrake puts the brush in piles and it is then burned, leaving the ground clean and ready for plowing.

Four of the Donaldson Disc Plows, with six discs on each, were attached to the great engine and they plowed 24 furrows 10 inches deep, turning the ground in fine shape. The ground where the plowing was done is near Fairfield just north of Andrew Park's field. A tract has been cleared of the brush about a mile wide, and when the plows have made a trip across they have plowed two acres.

The man in charge said that about 35 acres a day could be plowed and 50 acres could be cleared of the brush.

It was a surprise to the many who had never before witnessed steam plowing to see what a success it was.

HIGH WATER.

Water is now above compromise point in Utah Lake and the Jordan River is rising each day. It is many years since the water has been high enough to flood some of the low land. The creek and waste ditch both have large streams in them. Water is now coming down from the west mountains and flowing into the lake. This has not occurred for the past 15 years only when a heavy storm occurred and then only for a few hours. This is unusual for this time of the year. A little later when the warm weather comes and brings the water from the mountains the amount of waste water will be increased. Precaution should be taken to control the water that no damage should occur.

From the Irish.

A growing moon and a flowing tide are lucky times to marry in.—Irish.

For Thin, Poor Blood

You can trust a medicine tested 60 years! Sixty years of experience, think of that! Experience with Ayer's Sarsaparilla; the original Sarsaparilla; the Sarsaparilla the doctors endorse for thin blood, weak nerves, general debility.

But even this grand old medicine cannot do its best work if the liver is inactive and the bowels constipated. For the best possible results, you should take laxative doses of Ayer's Pills while taking the Sarsaparilla.

Made by J. C. Ayer Co., Lowell, Mass. Also manufacturers of
Ayer's HAIR VIGOR, AGUE CURE, CHERRY PECTORAL.
We have no secrets! We publish the formulas of all our medicines.

MRS. GRACE SMITH.

The remains of Mrs. Grace Smith of Thistle Jet, came to Lehi for burial on D. & R. G. afternoon train on Sunday. Services were held at the Cemetery. Mrs. Smith was the wife of Benj. F. Smith, daughter of B. W. and Olivia P. Driggs of Pleasant Grove, was 32 years old and leave a family of six children.

MINES.

Development work on the Mid Night Bell above Alpine continues and some good assays are reported from ore taken where they are now at work.

The Miller Mine, which is being worked by Tyng Bros., reports \$200,000 worth of ore in sight. The snow is still deep at the mine.

The Mountain Dell have a fine lot of ore in their shaft they are sinking. Seven men are now employed by the company.

The Dutchman, being worked under a lease by Ned and Heber Wild, has some good ore and shipments will commence soon.

STOCKHOLDERS MEET

Tuesday morning the stockholders of the People's Co-op. met at the Commercial Club Rooms and heard the report of the Supt. and secretary, which showed the business in a very flourishing condition. Besides paying 8 per cent dividend quarterly they have put some aside as a reserve fund. T. R. Cutler presided at the meeting and the following officers were re-elected: T. R. Cutler, president; Wm. Clark, vice-president; A. R. Anderson, Geo. Webb, Henry Lewis, directors; Jas. F. Fyffe, secretary, and S. I. Goodwin, treasurer.

Under the management of S. I. Goodwin the Co-ops. business is growing each year.

Made Famous by Accident.

On March 1, 1711, appeared the first number of the Spectator of Steele and Addison. The story of No. 71, which contains "The Epistle of the Enamored Footman in the Country to His Mistress," and signed "James," is interesting. This footman by mistake had given to his master the letter he had written to his sweetheart. Discovering the error, he returned for the letter. The master, who had read it, said: "No, James; you shall be a great man; this letter shall appear in the Spectator." It was given to Sir Richard Steele and published in James' own words, "Dear Betty," etc.

Real Meaning of "Talesman."

"Talesman" is a word that has been to the front a good deal recently. Strictly "tales" should be pronounced as two syllables, since it has nothing to do with stories, but is the Latin plural "tales"—such a "talesman," according to English law, is a juror summoned to fill a gap, and, formerly, at any rate, this was often done by taking any suitable person who was present in court. "Tales de circumstantibus"—"such of the bystanders"—were the first words of the order directing the process.

Wrappers Are Costly.

Paper bags are absolutely necessary in certain lines of business, and, considering that there is no cash return, constitute probably one of the large items of expense to stores and market stalls. The expenditure for ordinary paper bags, such as are used in grocery stores, during 1906, reached nearly \$5,200,000. The outlay for all bags of various kinds amounted to \$25,000,000. Nearly \$24,000,000 passed into the coffers of the men who make the ornate, beflowered, fancy boxes for candy, gifts and flowers.

JORDON BRIDGE FALLS IN.

Jesse Comer, while crossing the Jordan bridge last evening with his team, met with an accident, which nearly proved fatal to himself and his team. When about midway across, the bridge fell in, for the length of his team and wagon. He escaped falling into the river by catching some of the planks. With a great deal of labor the team was taken out but the wagon and its contents are now partly submerged by the waters of Jordan. Eugene Briggs has just passed over and was but a short distance ahead and helped the Comer boy to get out of the wreck. Jesse Comer had his shoulder hurt and head bruised. The horses legs were badly cut.

County Commissioner Walker with Road Supervisor Jos. Roberts went to the river this morning to decide what to do in the way of rebuilding the bridge.

POWER PLANT.

Gov. J. C. Cutler with other members of the board of directors and the manager of the Utah Light & Power Co. are visiting the plants of the company today in Am. Fork Canyon, making an inspection of the improvements being made and the constructing of the new power plant.

Mound of Walrus Tusks. A mound of walrus' tusks was recently unearthed by railroad engineers in California.

An Exchange Said.

Eiler's big railroad show made its annual appearance in this city Saturday, and as in former seasons delighted the people with one of the best theatrical treats offered under canvas in a long time. The band is a very fine one and all the appointments are first class. The play was presented by a strong company, every role being in the hands of star actors. Elegant scenery, good lights and gentlemanly attendants contributed to make the entertainment enjoyable for the large attendance. Eiler's will be in our town again, and whenever they may come they will be cheerfully and well patronized. It is one of the best companies on the road. They will appear under canvas at Lehi, Tuesday, April 30th.

Shaving Women.

In the very heart of a busy section of New York is a barber shop which is open from 1 to 12 o'clock every Sunday for the accommodation of women, who go there in flocks to be shaved or have their hair shampooed and dressed. Until recently barbers visited the residences of bearded ladies to perform the "barbarous" act of depilation.

U. of U. Excursion.

The D. & R. G. will sell round trip tickets to Provo and return, April 27th for all regular trains and special leaving Lehi about 10:45 a. m. Final limit April 27th, at a low rate of 50c.

W. A. Ford, Agent.

Four Hearts Beat as Two.

A remarkable court decision in a bigamy case has been handed down at Perugia, Italy, where Charles Ballori, a tailor, was acquitted of a charge of having two wives on the ground that he has two hearts. Four physicians testified that Ballori has two hearts, and the court at once decided that this was ample reason for him to marry two women.

WALL PAPER CARPETS, RUGS AND LINOLEUMS

Our stock is now complete.

We have Curtain Stretchers for sale or for rent.

"We want your trade."

We have plenty of coal.
