

THE LEHI BANNER

XXIII.

LEHI BANNER SATURDAY, SEPTEMBER 5, 1914

NUMBER 18

Wilson Club

Enthusiastically Launched

Presses Made By Hon. James H. Moyle and Provo Visitors.

An enthusiastic bunch of young people gathered at the Commercial club Tuesday evening to organize a new Wilson club, and listened to address by Hon. James H. Moyle, Democratic-Progressive candidate for United States Senator. Ernest Peterson presided at the meeting and elected chairman of the club. The officers were: F. A. Child, Vice President; Miss Ivey Thomas, Secretary; Executive Committee, Ralph Anderson, Mrs. F. A. Child, Mr. Peterson, Karl Thomson and Ida Thurman. W. E. Evans, Ernest Madsen and F. A. Child were named a committee on constitution by-laws, to report at a future meeting.

Besides Mr. Moyle, there were also present Earl J. Glade of the B. Y. U., E. L. Roberts of the B. Y. U., J. W. Robinson all of the Provo Club and all of whom made addresses. There was a most hope-aggressive feeling manifested by the speakers.

Mr. Moyle discussed in a high manner the issues of the day. He drew attention to the prediction of his senior Senator's prediction that the new tariff law would not produce sufficient revenue, however, contrary is the case. Regarding the supreme admiration that is everywhere for President Wilson, because of his watchful, waiting policy that now meets the approval of everybody. He also drew attention to the beneficial results of administration currency bill. Taking up the state situation, he drew attention to the lack of progress found in Utah, no direct primary law, no initiative and referendum measure, no public utilities act and many other progressive measures found in other states. This stand pat condition he attributed to the rule of the local Republican party. Mr. Moyle returned at ten o'clock train.

Many Attend Big Carnival

The Wizard's Carnival was a load which helped to draw many to Lake City the last week. Among those who went were:

L. Yates, Laureta Knudson, A. Gaisford, Maud Harwood, Mrs. Ivey Peterson, Mr. and Mrs. N. E. Erling, Freda Olson, Lyda Phillips, Mary Winn, Mrs. M. E. Rhodes, W. Jones, W. M. Carson, Robert Mer, Alice Taylor, Mrs. Margaret, J. H. Gardner, Dollie Cedar, Mrs. J. W. Wing, Jr., Mr. and Mrs. R. N. Adams, Mrs. Jennie Webb, P. Hardy, Joseph Smith, Donnell, Edna Rolfe, Ella Woods, R. Davis and son, Harvey Oakley, J. Evans, Hamilton Gardner, Ed Cox, O. Holmstead, Ed. Southwick, Anna Stoddard, Myrl Goodwin, and Mrs. Ed. Harrison, Jay Cox, Phil Winn, Thad Powell, Mrs. E. J. Child, Mrs. Lyman Losse, Geo. Garff, Mrs. Bone, Mr. and Mrs. J. E. Racker, Robert Sharp, Dell Yates, Isaac, Maggie Carr, Mr. and Mrs. Jos. Coulston and daughter, Arvilla, Mrs. Gray, Mrs. James Elyffe and daughter, Eliza, Mr. and Mrs. Ray, Mrs. G. H. Sagers, Mrs. W. T. Hasler, J. E. Cotter, Geo. Hammer, Mr. and Mrs. W. W. Clark, Myrl Clark, Gordon Baker, George

Webb, Cleo Ball, Mr. and Mrs. Asa J. Clark, Mrs. Roy Lott, Win. Crabb, Mr. and Mrs. Charles Crabb, Ira Racker, Marvel Rhodes, Mrs. Fred Merrill, Parley Austin, Jesse G. Webb, Geo. Robinson, Mr. and Mrs. W. S. Evans and daughter, Reta, Mr. and Mrs. Nate Rockhill, Mr. and Mrs. Emmett Chipman and Mr. and Mrs. J. B. Watson.

Christofferson Defeats Salt Lake Fireman

Lehi Wrestler Demonstrates Championship Qualities In Bout Monday Night.

The wrestling contest in Smith's Dancing Academy, Monday evening, was well attended and was the best mat exhibition ever given here. It demonstrated that Lehi has, in the person of Alex Christofferson, a coming state champion.

Christofferson, though 20 pounds lighter than James M. Sullivan, kept the big fireman on the defensive at all times and threw him twice, securing the first fall in nine minutes and the second one in seven minutes. F. C. Crabbe, the Salt Lake wrestling promoter, refereed the contest and gave excellent satisfaction. He introduced Christofferson as the "champion of Southern Utah," and Sullivan as the pride of the Salt Lake Fire Department. The men sparred for position, but the Lehi man soon had his Salt Lake opponent on the mat and was on top of him most of the time. Sullivan was about to get his man once, but Christy soon wiggled out and with a bar and hammer lock ended the first round.

After ten minutes recess the men were again at it, with Sullivan again on the defensive. With a reverse body scissors Christofferson had his man pinned to the mat in two minutes less time than in the first round, and was adjudged winner of the contest.

Christofferson has wonderfully improved in the past year and it was freely predicted that with two week's training he could defeat Fireman Nelson, who holds the state championship. In a former bout he held Nelson for an hour and forty minutes. It is probable that a handicap contest will be arranged between Christofferson and Mike Yorkle in the near future.

There were two preliminaries to the main bout. The first one was between Wallace Christofferson and James Nelson, two local fourteen-year-old lads. Young Nelson exhibited much strength and gameness and though no fall was recorded, he was easily the victor.

The principals in the second preliminary were introduced as Dell Stewart and Black Hinekey of Provo. Stewart is probably the best light-weight in the state. The bout went for fifteen minutes with no fall, but Stewart because of his superior work was given the decision.

Farmers' Bulletin

Farmers who are interested in silos should write to the Department of Agriculture, Washington, D. C., and ask for "Farmers' Bulletin 589," on home made silos. It tells all about them.

From the same address Bulletin 597 on "Road Drags and How to Use Them," and another one, No. 599, on "Pasture and Grain Crops for Hogs," may be obtained free by simply asking for them.

All the latest in Ladies' Coats and Suits now ready for your inspection at People's Co-op.

Cedar Valley Great For Dry Farming

Cap. Barnhart, who is operating Dr. H. C. Holbrekk's dry farm in Cedar Valley, completed threshing his crop this week. So far as known, Mr. Barnhart holds the record for big yields in Cedar Valley. He threshed a total of 4,322 bushels of wheat and barley, 72 acres of which averaged over 35 bushels per acre, the 72 acres producing 2608 bushels.

This seventy-two acre field was given the best of scientific dry farm treatment. It was plowed a year before being planted and later was double disked twice, harrowed several times, gone over with a leveler once and had a few weeds hoed out that were missed by the disk.

On a 100-acre tract Mr. Barnhart harvested 1431 bushels of wheat. This is a little less than 15 bushels per acre. This tract is similar soil to the seventy-two acre tract, but instead of being summer-fallowed, it was plowed in June, July and August, and planted in the following September, all of which proves the value of following dry farming rules strictly.

On a 20-acre tract, 283 bushels of spring barley were harvested. The barley was so short that the header cut less than half of it. The balance will be harvested by turning a herd of hogs into the field. Mr. Barnhart says that the barley was very dry all after being headed out, when the rains came and caused the heads to grow almost as long as the stems, in fact, when the barley was threshed, the heads formed a larger pile than the straw and chaff.

The above yields were, in spite of the fact that six head of horses and thirty-seven head of pigs were fed from the stacks for five weeks, between cutting and threshing time.

He also has a fine 8-acre stand of dry farm alfalfa and seven acres of corn that looks like an irrigation field. He has 200 acres ready for fall grain, which will be planted about the middle of this month.

Sues Neighbor for \$2,355 Damages

B. Y. Mulliner, this week, filed a suit in the District court against Arthur Hawkins, claiming damages on three counts.

The principal cause grows out of Hawkins' dog having bitten Mulliner on the latter's dry farm in Cedar Valley last June. The complaint charges that Hawkins set the dog on his neighbor, but the latter strenuously denies the accusation. The other causes grew out of the alleged trespass of Hawkins' pigs and other animals destroying Mulliner's grain. The two men are neighbors in the north end of Cedar Valley. Jacob Evans is Mr. Mulliner's attorney.

Lehi Graduates Teaching Away

Eighteen Lehi Teachers Will Act As Instructors In Schools In Other Parts of the State.

Lehi, this week, will send a good supply of teachers to other parts of the state, all of whom will bring a certain amount of glory to their hometown. Following is a list and the places where they will teach. The first six are instructors in High Schools, and nearly all of the eighteen are graduates from the Lehi High School.

Abe Anderson, Sandy; Robt. Sharp, Coaldale; Marion Thurman, Mount Pleasant; Earl Holmstead, American Fork; Margaret Thurman, Mt. Pleasant; Merland Thurman, Pleasant Grove; Charlie Ellingson, Salt Lake City; Blanch Larson, Ophir; Rudi Robinson, Box Elder county; Velma Gibbs, Box Elder county; Mari Gredesen, Indianola; Virgie Wren Gunnison; Julia Wilcox, Gunnison; Beula Gray, Gunnison; Junita Hammet, Maroon; Myrtle Stewart Maroon; Vera Bushman, Maroon, Cache county; Elaina Thurman, Salt Lake City.

Lehi Men Buy Stolen Horses

Sheriff Olsen of Box Elder county was in Lehi Saturday to get some horses stolen from Oscar Nelson near Brigham City last June. One horse had been sold to John W. Clifton for \$125. Phillip Jones had purchased another for \$75, James Slater had traded for one of them and the fifth one had been sold to man in Springville for \$20 and another horse. The horses taken in the Springville trade were brought to Lehi and sold to Hammer Brothers. All the horses, excepting the Hammer horse, were given up peacefully, but as Mr. Hammer had not purchased a stolen horse, he will refuse to give his horse up.

The man who stole the horses and

brought them to Lehi is Tex Miller, and is now in the penitentiary. While here he fraternized with the Grace Brothers, and when arrested in Cheyenne, Wyoming, he had one of the Grace girls with him. She is now there penniless.

Big Pumping Plant To Double Capacity

Utah Lake Irrigation Company Will Add 120 Second Feet to its Present Capacity and Bring Many More Acres Under Cultivation.

Plans are being matured and work will be commenced in the near future on additions to the big pumping plant of the Utah Lake Irrigation company, located on Utah Lake, one mile south of Saratoga Springs. The plans will call for extending the present building sixty feet endwise and the addition of six more pumps of 20 second feet capacity each, and each of which will require 400 horsepower of electric current to operate. The new addition will give the company ten more feet of pump room than has the present plant, and will mean the addition of 120 more second feet of water in the canal, as compared with 30 feet, the capacity of the present pumps. The new improvements call for two more 40 inch wood stave pipe lines leading from the pumping plant 2300 feet up to the canal, which is 100 feet above the level of the Lake.

To accommodate this increase supply of water the canal will have to be enlarged as its present capacity is but a little more than 100 second feet in building the addition to the plant and enlarging the canal, men who are taking water will be given preference.

By increasing the capacity of the plant there will be a reduction in the cost of maintenance, to those using water this year, as the same crew employed at present can take care of the additional machinery and then, too, the more power consumed the cheaper it comes. For this reason the company reasons that water can be elevated to the 175 or 200 foot level in a commercial profit, as the only additional cost over the 100 foot level would be the additional and cheaper power consumed. Water for the higher lift will probably be taken out for the irrigation year of 1916.

According to Joseph Broadbent, who has had charge of the distributing system, the farmers are well pleased with the year's results, both in Utah and Salt Lake counties. Thousands of acres of desert lands were brought under cultivation for the first time, and where the crops were gotten in early, bounteous yields are being harvested. On one tract of the Utah-Idaho Sugar company the yield of oats was over 75 bushels, and this was on new land. On another tract near the old sheep dipping normal, the land was so rich that the oats all went to straw. Mr. Broadbent thinks that the money making crop will be alfalfa, of which crop several farmers had the best yields in the county.

ARTHUR BRADDER IN ENGLAND

In recent letters from Arthur Bradder now stationed in Gainsboro, England, it is learned that he is enjoying good health, excepting for slight trouble with his eyes. He reports that the war is causing the Elders considerable trouble in getting their mail and money for expenses. Work is closing down and many are being put on half time, which is causing much suffering, and if the war continues the suffering will be terrible.

The Elders all had to register with the American Consul for protection in case of invasion, and when his last letter was being written the government had just issued a call for 200,000 more men to go to the front.

He is enjoying his labors and desires to be remembered to his Lehi friends.

LEHI MAN HAS IMPORTANT INVENTION

W. J. Higgs has recently perfected and patented a handle for picks, hammers, axes and other implements, which promises to make him both famous and wealthy. By means of a rod running through the handle and a flange and nut, he is able to add so much to the strength of the handle as to make it well nigh unbreakable. This is the second patent he has secured on the device. Experts pronounced it to be a wonderful improvement and predict its universal use.

Several manufacturers have made liberal offers, but as yet Mr. Higgs has accepted none of them. He will take out patents in Canada and the other more important foreign countries.

Mr. Higgs returned this week from Carbon county, where he has been placing a lot of his patent ironing boards. He keeps three men in the field selling boards and one man making them.

School Commences ---Next Week---

We have everything the Boys and Girls need in SCHOOL DRESSES, SCHOOL CLOTHES AND SCHOOL SHOES.

A new stock of BOYS' SCHOOL SUITS, \$4.00 AND UP

just arrived. Also a fine lot of all wool Boys Elk Jr. Suits for boys at \$5.00.

FOR THE GIRLS

We have a new line servicable dress goods and OUR SCHOOL SHOES

Are the kind that wear and please. Bring the boys and girls to our store, we can please them.
