## WILL REPORT MONDAY.

### The Conference Committee on the Edmunds-Tucker Bill Come to an Agreement.

### Boreas Turns Himself Loose and Devastates Several Towns in Ohio and Pennsylvania.

### A St. Louis Policeman Charged With Murder—Baggagemaster Arrested for Train Robbery.

**Charged With Murder.**

ST. LOUIS, Feb. 12.—On the evening of the 20th of November, 1885, Mr. John D. Bowman, ex-Mayor of East St. Louis, and one of the wealthiest and most prominent residents of that city, was assassinated in front of his home. Some two weeks ago Christian Smidt and William Back, two young hoodlums of East St. Louis, were arrested for robbing a railroad car. Yesterday they made a statement that George W. Voice, a member of the East St. Louis police force, was the murder and that they saw him shoot Mr. Bowman. To-day Voice was induced to come to St. Louis and was taken to Detective Furlong's office, where he was charged with the deed. He underwent a severe examination, which resulted in Mr. Frank Bowman, son of the murdered man, swearing out a warrant against him, and he was lodged in jail.

### THE COMMITTEE AGREE.

**The Edmunds-Tucker Bill to be Reported Monday.**

[Special to THE DEMOCRAT.]

WASHINGTON, Feb. 12.—The result of the Conference Committee is favorable. The particulars are not yet known.

WASHINGTON, Feb. 12.—After a long session, the conferees on the Anti-Polygamy bill reached a complete agreement on the points of difference between the two Houses. Another meeting will be held to perfect the phraseology of the bill, which is expected to be reported to the Senate Monday. The exact provisions of the measure cannot as yet be obtained. It includes, however, what is regarded by the conferees as the best features of the Senate and House bills. The section of the Senate bill which provides for the appointment of a Board of Trustees to administer on the property of the Mormon Church is omitted. The bill repeals the charter of the Mormon Church, instructs the Attorney-General to institute proceedings to recover all property of that corporation not required in accordance with

THE LAWS OF THE UNITED STATES.

The church and grounds and church-yard property used for the purposes of worship are not interfered with. It also revokes the charter of the Mormon Immigration Society, devotes the property of both corporations to public school purposes, leaves the election law substantially as the present, except that it vests in the President the power to appoint Probate Judges, subject to the confirmation of the Senate. The provisions of the House bill authorizing the administration of the oath to the legal wife to sustain the charge of polygamy against her husband, is included. The provision of the House bill eliminating polygamists from registration lists is also included as agreed upon in the conference.

### A TERRIFIC GALE.

**Houses, Trees and Fences Swept Away by Its Fury.**

CANTON, Ohio, Feb. 12.—One of the most severe wind and rain storms that ever visited Canton struck the city at about 8 o'clock yesterday morning, and lasted half an hour before it passed off. No serious damage was done here, but at Louisville, eight miles east, a cyclone struck the town with terrific force and did considerable damage. Fences and trees were blown down like reeds, houses were unroofed, shutters and gates were torn from their hinges, window glass broken and chimneys blown down. The slate roof of the large Catholic Church was badly shattered, and the roof of the convent shool adjoining was blown off in an instant. The damage done will amount to about $8,000.

ALLIANCE, Feb. 12.—A terrible wind-storm, amounting almost to a cyclone, struck the town of Louisville, Ohio, some twelve miles west of this place, about 9 o'clock yesterday morning.

SEVEN DWELLING HOUSES WERE RAZED

To the ground. A large woolen mill was partly destroyed. The Catholic church and seminary were badly damaged, and a large brick building occupied by James Thurin was blown into the street. Scarcely a chimney in the town was left standing. Several persons were more or less injured, none fatally so far as known. The loss to the property will exceed $100,000.

Severe damages is reported from Tyrone, Pennsylvania, but particulars are lacking. Telegraphic communication throughout Western Pennsylvania and Eastern Ohio is seriously interrupted owing to the high winds and heavy rainstorms.

At Wooster, Ohio, the top of the Lutheran church tower was blown off. The residence of M. K. Hard was wrecked by falling timbers. Several other residences were also wrecked.

### ROCK ISLAND TRAIN ROBBERY

**Baggagemaster Watts Arrested for Complicity in the Crime.**

CHICAGO, Feb. 12.—Newton Watts, baggagemaster of the Rock Island train, robbed near Morris, is under arrest for alleged complicity in the crime. He has been missing since Tuesday night, but not until yesterday afternoon was it known that he had been taken into custody Wednesday. He was conveyed to Morris by a detective, in company with the Joliet chief of police. Two brakemen and Henry Schwartz, visited the jail. They remained in the cell with Schwartz three hours, during which there was much stormy talk. Watts was extremely vigorous in his denials of certain statements said to be made by Schwartz's mistress and corroborated by Schwartz. The baggage-master paced the floor excitedly, and claimed the whole proceeding was an attempt to ruin him. Schwartz, the Mahew woman and the detective were repeatedly branded by him as falsifiers. The whole matter ended by Watts being returned to Chicago, where he is now closely confined. There is no longer any secret made that Mrs. Mahew is also under arrest.

### BULGARIAN BLUE BOOK.

**England Inextricably Entangled in the Eastern Question.**

NEW YORK, Feb. 12.—*Star's* London: The Bulgarian Blue Book has aroused angry discussion. The Liberal press, with scarcely an exception, denounces the policy of the Government as interpreted through these official documents, as mischievous and foolish and calculated to drag the country into a senseless war. Printed papers, together with what is known to have taken place at unofficial interviews, are held to prove that Iddesleigh, influenced by Salisbury (the latter acting as a willing tool of the Court), has committed the country to an entanglement, the consequence of which no living man can foresee, but which clearly enough involves a liability to be called on

TO TAKE UP ARMS AT AN HOUR'S NOTICE

Against Russia on two continents. The difficulty in the East centers on the need and possible dangerous phase showing that the crisis is now rapidly coming to a head. Turkey, acting herein as agent of Russia, proposes to the Powers to compromise the Bulgarian Regency matter on the basis of the agreement arrived at with the Zankoff party in Constantinople. This agreement aims at effecting the very thing Austria has been working against, the recognition of the Russian element in Government.

Under the circumstances the advice of the Budapesth *Journal* to Austria to attack Russia without further ceremony and make sure before it is too late of enlisting Bulgarian, Roumelian and Servian armies on her side, looks not so unreasonable as it would have done weeks ago.

### IN SENATE AND HOUSE.

**The Dependent Pension Veto—The Midland Right of Way.**

**The Senate.**

WASHINGTON, Feb. 12.—In the Senate yesterday Stanford introduced a bill to provide mortars and heavy guns for the armament of forts and coast defences and vessels of the United States. Referred.

Manderson, from the Committee on Indian Affairs, reported the bill granting the Salt Lake & Fort Douglas Railway Company the right of way across the Fort Douglas Military Reservation in Utah. Calendar.

The Eads Tehuantepec bill was laid aside temporarily.

The Senate bill to authorize the Billings, Clarke's Fork & Cooke City Railway Company to construct and operate a railway through the Crow Indian Reservation was passed.

The Senate then proceeded to consider the Postoffice Appropriation bill. The House bill was amended by inserting an item providing that no boxes for the collection of mail matter by carrier shall be placed inside of any building except a public building, or a building which is freely open to the public during business hours, or a railroad station. The amendment as to the transportation of the South American mails was not taken up for consideration, as it was expected to lead to debate, and the bill was laid aside till to-day.

The Senate bill for the negotiations with the Shoshone and Bannock tribes of Indians for the relinquishing of the title to so much of the lands of the Fort Hall reservation as is required for the uses and purposes of the Utah & Northern Railway Company and the Oregon Short Line Company, was passed.

The House bill to divide the Western Judicial District of Arkansas into two divisions, was passed with amendments.

The House bill empowering the Fort Worth & Denver City Railway Company to construct and operate a railway through the Indian Territory, was passed.

A motion to reconsider the vote passing the bill was entered by Mr. Platt, so that he might have time to examine it.

Cameron, from the Committee on Naval Affairs, reported back with amendments the bill (introduced by him yesterday) to increase the naval establishment, and gave notice that he will call it up on Monday.

**The House.**

WASHINGTON, Feb. 12.—At 3:45 p. m. the President's private secretary was announced. He presented a message from the President transmitting without his approval the Dependent Pension bill. The reading of the message was followed with an attention more strict than is generally accorded to such a document.

At its conclusion, Matson of Indiana, moved that the bill and accompanying message be referred to the Committee on Invalid Pensions, providing that they would be reported back within the coming week. The motion was agreed to, 137 to 27.

**The Long and Short of It.**

DES MOINES, Iowa, Feb. 12.—The board of railway commissioners to-day rendered a decision in the case in conformity with the new Inter-State Commerce law, prohibiting discrimination in long and short hauls. The C. B. & Q. had been charging the State $11.80 per ton for carrying coal from Lewis county to Glenwood for use in the Asylum for the Feeble and Sick, and $1.25 per ton for coal from the same place to Council Bluffs, twenty miles further, for use in the Deaf and Dumb Asylum. The commissioners recommended that the railroad charge no more for short than for long hauls, and say that provisions to that effect will be grafted in the State Legislature.

**A Disabled Steamer.**

LONDON, Feb. 12.—The National Line steamship seen at sea disabled was the Holland. She left London January 25th for New York.

LONDON, Feb. 12.—The steamer Holland, from London to New York, reported yesterday morning to Queenstown with the loss of her propeller, was towed past Kinsale this morning.

**Knights' General Headquarters.**

PHILADELPHIA, Feb. 12.—The Knights of Labor have purchased property on North Broad street for $65,000, and it will be fitted up with offices to be occupied as General Headquarters of the Order in the United States and Canada.

**British Cabinet Meeting.**

LONDON, Feb. 12.—The Cabinet held a session this afternoon to consider the proposed bill for the government of Ireland.

### TELEGRAPHIC BREVITIES.

The Sobranjane will meet on the return of the Bulgarian deputation to Sofia.

Francis Laurent, the historian and publicist is dead.

The British War Office Committee has decided to recommend the Lt. O. Barton magazine rifle.

The French Government is purchasing timber in Bohemia for the purpose of constructing barracks.

The London *Times*, commenting on the vote on Parnell's amendment, says: The united forces of the Separatists only succeeded in showing that they are in a hopeless minority.

**Agents Wanted.**

To sell our Standard Holiday Subscription publications, the "World's Wonders," Peerless Parallel Family Bibles, "The Home Beyond, or Views of Heaven and Its Relations to Earth," "Wealth by the Wayside, or the Secrets of Success and Happiness," "The Heroes of the Plains," by J. W. Buel, also for Gaskell's "Compendium of Forms," "The World's Historical and Actual," the Splendid Albums, and last but not least, Rev. Sam Jones' book of sermons illustrated. The only book of this character ever published. Prospectuses of the same only $2.75. Agents, Rev. Sam Jones is coming to this coast. Now is the time to secure your outfits and territory, and take your choice. The best terms and exclusive territory given. For full particulars, terms, etc., apply by letter to the

## SWEPT BY THE FLOOD.

### The Business Portion of the Town of Lyons, Michigan, Washed Away.

### The Great Strike in New York Ended, and Business Assuming Its Normal Condition.

### Belgium Making Great War Preparations—Mobilization of Troops on the French Frontier.

**Belgium's War Preparations.**

BRUSSELLS, Feb. 12.—It is announced that all the forts in Belgium along the frontier of France have received complete war armaments. Preparations have even been carried to the extent of mobilizing troops. King Leopold will be commander-in-chief of the Belgian forces, with General Brialmont as chief of staff. The Count of Flanders, brother of the King, will command the first army corps, and General Vandersmais the second.

The Ministry will probably make the adoption of obligatory military service a Cabinet question.

### PEACE REIGNS ONCE MORE.

**The Great Eastern Strike Has Come to an End.**

NEW YORK, Feb. 12.—The *World* says: The Executive Board of District Assembly No. 49 last night declared the great strike at an end. Its reasons for doing so are contained in the following statement issued by the Executive Board:

A committee of dissatisfied men employed on the Reading Railway called on Austin Corbin at his Philadelphia office yesterday morning and informed him that they would strike at noon if terms were not made satisfactory to No. 49. The men said it was impossible to hold to the so-called agreement if it was not made more definite. Mr. Corbin consulted with McLean, receiver of the coal company, and it was decided to open the Elizabethport works in a week. He gave as a reason for not opening them immediately that it would take at least three or four days to get coal from the mines. He also promised to pay the highest wages. If differences arise they are

TO BE SUBMITTED TO ARBITRATION,

One arbitrator to be chosen by the company and one by the men, and one to be called if the two fail to agree. After a conference between Mr. Corbin and the committee, a meeting of Knights of Labor was held and it was decided to accept in the interest of commerce and the industries of the State of New York, and to recommend to all of those who support the employees of Mr. Corbin to return to work by Monday. And should there be any discrimination against our people by any corporation, the fight will be continued in our own way. It was resolved that all coal handlers, except those at Hoboken, Port Johnson, Weehawken and Perth Amboy, shall return to work.

NEW YORK, Feb. 12.—Following the declaration of District Assembly No. 49 that the strike was off, there was a general rush of longshoremen and freight-handlers along the whole river front this morning, to get back to work. At some piers along East river the strikers had not even waited for orders from headquarters, but had gone back to work on the best terms they could make. As early as 6 o'clock, gangs of strikers were seen around the piers waiting to catch the foremen and superintendents as they came to their respective piers. At the Main Steamships Company's pier all the old hands had returned. At the Clyde, Mallory and Ward piers also many old hands had found their way back, but in no instance were they recognized as Unionists. By Monday it is expected the business of the companies will have resumed its normal shape.

### THE GREAT FLOOD.

**The Business Portion of the Town of Lyons Swept Away.**

DETROIT, Feb. 12.—The rising waters at Lyons have shut out all communication with the outside world by wire. The *Evening Journal* correspondent sends the following special from Muir, on the opposite side of the river, that place being reached by a circuitous route. The flood continues, the water rising one foot an hour. The grand ledge of ice reached here this morning, forming a jam thirty feet deep above the bridge, causing the river to leave its bed, and rushing with mighty force through the business portion of Lyons, swept everything before it. Twenty buildings were carried away and as many more were moved from their foundations. Several business fronts also were broken in by the ice and floating timber. A portion of the bridge was lifted from the abutments, and went down with the ice.

**Heavy Snow Storm in Canada.**

MONTREAL, Feb. 12.—Owing to a very heavy snow storm outgoing trains were all cancelled, and many visitors were forced to remain another day.

**Parnell's Amendment Rejected.**

LONDON, Feb. 12.—Parnell's amendment to the address in reply to the Queen's speech was rejected—345 to 246.

**Fawkes Patent Spring Motor.**

A very ingenious little machine has been placed on exhibition in one of C. H. Parson's show windows, used for running sewing machines, window displays, small lathes, etc. The power is obtained by a series of springs, the secret of the invention being that any number of springs may be attached to one shaft, thereby obtaining the united power of all at the same time, while the speed may be changed from fast to slow or vice versa, at will, by means of an air governor. The representative of the Fawkes Manufacturing Company of Chicago, who manufactures these machines, will remain in town a few days looking after the interests of the above firm.

CATARRH is a constitutional disease. Hood's Sarsaparilla is a constitutional remedy. It cures catarrh. Give it a trial.

**After Diphtheria.**

Diphtheria is a terrible disease, requiring the greatest medical skill to effect a complete cure. Even when its power is broken, it clings to the patient with great persistency, and often leaves the system poisoned and prostrated. Just here Hood's Sarsaparilla does a vast amount of good, expelling impurities from the blood, giving it richness and vitality, while it renovates and strengthens the system.

Brie, Neufchatel and Petaluma cheese just arrived at C. B. DURST'S.

### PHANTOM HORSE AND RIDER.

**Stonewall Jackson Riding Through the Grounds of a Military Institute.**

Much excitement exists at the Virginia Military Institute at Lexington over an inexplicable phenomenon.

On the night of the 28th ult., shortly after 12 o'clock, as the sentinel was walking his beat, his attention was attracted through the sally port to the front of the barracks by a slight sound resembling the rustling of leaves. Instantly between the two large forty-six-pound siege pieces there appeared a soldier dressed in a Confederate uniform and mounted on a large gray horse. His sword was drawn, his horse tightly reined up, and two white plumes floated above his head. The sentinel, at first almost paralyzed with terror, gazed upon the object but an instant when the horse started through the sallyport into the courtyard at a round trot, crossing the sentinel's beat and making no audible sound, although he was passing over a solid brick pavement. The sentinel challenged with a loud voice:

"Who goes there?"

The rider did not heed the challenge, but passed on at the same pace until arriving at an abrupt, dangerous and impassable precipice in the rear of the barracks, he vanished.

The sentinel promptly called his corporal who informed the lieutenant of the guard and officer of the day. The guard was immediately turned out, and though a close and minute search was instituted, no trace of horse or rider could be found.

On the next night a similar phenomenon was witnessed by a party of cadets and citizens. This time a sentinel was stationed in the center of the sallyport to await the appearance of the horse and man. At the same time as the night before, preceded by the same sound, the horse and rider appeared and started through the sallyport at a quick pace. The sentinel commanded:

"Halt! Who goes there?"

The horse approached nearer and nearer to the sentinel until within two feet of the point of the bayonet and vanished, only to reappear just in the rear of the sentinel. Then he passed on in the direction he had taken the preceding night, again disappearing at the edge of the precipice.

An old veteran present recognized the form of the rider to be none other than that of General Stonewall Jackson. So far no explanation can be given.

**The Art of Mixing Liquors.**

"Oh, yes, it is a good deal of an art to mix drinks properly," said the barkeeper as he set the cocktail on the mahogany and put 15 cents in the drawer. "Some barkeepers make big wages, too, because they can mix a drink in a fancy shape; but that's nothing compared with what some men make that can mix the liquors themselves. Almost any man can mix a little Angostura and syrup and whisky and shake it up, but when a man can put some raisins and pure spirits and a few drugs in a barrel and make pretty good liquor he's an artist and a dandy. Those fellows come high, but the wholesalers have to have 'em. I know one big liquor house in Chicago that pays a man $10,000 a year to make liquor for them. The other houses have tried to get him, but his firm won't let him go. You take a man that can have the head of the house say to him at supper: 'Casey & Curacoa want 100 barrels of '78 Maryland rye right off,' and can go and make up the whole order out of the raw material and get it barreled by 6 o'clock in the morning, and he's the life of the business. Ten thousand a year ain't much for him. —*Detroit Journal.*

**Mark McKimmins' Livery Stable,**

Main Street, north of Walker House. A first class, fully equipped establishment in every particular.

SPANISH CLIPPINGS for sale at Sam Levy's cigar manufactory at 50 cents per pound, superior to any tobacco in the market.
