THE KNIGHTS OF LABOR.

Bradstreet's of the 19th inst. gives a synopsis of an elaborate article written by Mr. C. D. Wright for the Quarterly Journal of Economics on the rise and progress of the Knights of Labor organization. It was founded in 1879 in Philadelphia by Uriah S. Stephens, with six garment-cutters as associates.

BI-METALISM.

Alexander Hamilton, in his report on the Mint in 1791, said: "To annul either of the metals as money, is to abridge the quantity of circulating medium, and is liable to all the objections which arise from a comparison of the benefits of a full with the evils of a scanty circulation."

The two moneys have co-existed since the origin of human society. They exist, because the two together are necessary, by their quantity, to meet the needs of circulation."

about by a decline in the silver and gold mines of Spain and Greece. Columbus led the way in the career of renovation; when he spread his sails across the Atlantic he bore mankind and its fortunes in his bark.

TRADE PROSPECTS.

Latest advices from London tell of a slight appreciation in the price of silver. The state of uncertainty with regard to war matters interferes with business, and has, temporarily at least, seriously affected all speculative ventures.

Whether "his best to follow our endowments to their logical ends, and to hold them superior to all tattered testaments; Or, to let the polygamist hulk go down with a dull thud, to darkness and to Hades. But who from public crib can be cut off. And like wild asses feed on east wind?"

Outfank Kolob's god or pale John Taylor's gills? But then, the dread of something after sweating. That new discovered country—the Pen—the stripes! Thus conscience doth make cowards of us all. To swear or not to swear, that is the question.

There is a striking contrast between the affected hilarity of the Herald in connection with the presumed enactment of the Tacker-Edmunds law, and its nervous desire that it be voted by the President. Its varying moods, "from grave to gay, from lively to severe," give variety to its otherwise soporific columns.

Dr. FLYN'S HEART REMEDY will prolong life by preventing those sudden deaths from heart disease which bring untold grief to families, often plunging them into poverty, because of the untimely decease of the breadwinner. At druggists, \$1.50. Descriptive treatise with each bottle, or address J. J. Mack & Co., S. F.

Mark McKinnin's Livery Stable, Main Street, north of Walker House. A first class, fully equipped establishment in every particular.

The Worth System. Mrs. Puffer will give instructions in the celebrated "WORTH SYSTEM" of cutting and fitting. For terms and further particulars apply to 358 West First South St.

MISCELLANEOUS.

Home Evidence. No other preparation has won success at home equal to Hood's Sarsaparilla. In Lowell, Mass., where it is made, it is now, as it has been for years, the leading medicine for purifying the blood, and toning and strengthening the system.

People of Lowell. Mr. Albert Eaton, living at 28 East Pine Street, Lowell, for 13 years employed as book carpenter by J. W. Bennett, president of the Erie Telephone Company, had a large rooming room on his lot, which troubled him a year. When he began to take Hood's Sarsaparilla, the sore soon grew less in size, and in a short time disappeared.

Praise Hood's Sarsaparilla. Mrs. C. W. Martin, wife of the First Assistant Fire Engineer of Lowell, says that for 16 years she was troubled with stomach disorder and sick headache, which nothing relieved. The attacks came on every fortnight, when she was obliged to take her bed, and was unable to endure any noise. She took Hood's Sarsaparilla, and after a time the attacks ceased entirely.

Hood's Sarsaparilla. Sold by all druggists, \$1.50 per box. Prepared by C. L. HOOD & CO., Apothecaries, Lowell, Mass. 100 Doses One Dollar.
