

"JUNIOR JUNIOR."

A Personal Talk About the New City Officials.

From Democrat—A day or two ago you had in your Ogden department a list of the new committee of the City Council.

Now, what kind of a government are we expecting to have? We are, in the following lines, finding no fault with any person either for political or personal reasons.

There are some better informed members of the P. P. P. in Weber County than the gentleman. He is an experienced engineer, a thorough mathematician, and what he does not know about sewer works can be found in the supply files of the Ogden Junction of 1874.

Joseph Clark, at the head of the License Committee, gives promise of a fair square deal. He is possibly the most popular, though he may not prove the most efficient, member of the Council.

The most efficient, I venture to state right here and now, notwithstanding opening degrees, will be John Keyes, a gentleman whom one might turn and kick with as much ease as the Rock of Gibraltar.

Joseph Clark, at the head of the License Committee, gives promise of a fair square deal. He is possibly the most popular, though he may not prove the most efficient, member of the Council.

There is nothing to attract my attention of desecrating your graves, unless it be the finance department, at the head of which I again see the deservedly honored name of John A. Boyle, a name that would make a loyal Liberal almost feel as if he were redeeming features in a bill of P. P. P. Mr. Boyle could have, had he wanted to, run on an independent ticket, although he is religiously a Mormon.

One word and I'll have done. The chairman of the Committee on Public Buildings is a practical builder, but I doubt whether he has ever had a square in Evanston, Wyoming, even on straight ticket.

OGDEN BRIEFS. Charles D. Hays keeps the best tin shop in town. Call on him and get relief, even if the Liberal ticket didn't get there.
