## A RAILROAD HORROR.

### Fatal Collision Between a Passenger and Freight.

#### AWFUL SCENES AT THE WRECK

The Cars Take Fire and Many Persons are Burned to Death—A Little Waife.

YOUNGSTOWN, O., January 14.—The passenger train for New York on the New York, Pennsylvania & Ohio Railroad, running fifty miles an hour, this morning struck a freight train near Tallmadge, O. Both engines, both firemen and eight passengers were killed. Fourteen passengers were badly injured. The freight train was trying to make a siding, and had sent out a flagman, who failed to signal the passenger.

Reported killed—Engineer Huntington, Fireman Walters, Brakeman Bashford, Express Messenger Landy, Mary Lyon, a 6-year-old child, of Cherry Tree, New York, and three Ohioans. The names of the six injured are not learned.

A few minutes after the accident, flames began to shoot out of the baggage car and smoker. Passengers and train people immediately began to work

#### RESCUING THE INJURED

and dead. The coach in the rear of the smoker was badly damaged, and the end of the baggage car was crushed far into the smoker. As soon as the injured and dead were removed from the coach, which was also on fire, the two sleepers were detached and pushed back by hand out of reach of the flames. None of the passengers in the sleepers were injured. All persons who escaped death were placed in the sleepers, and the east-bound train was coupled to them and proceeded to Leavittsburg. It is reported that twelve persons were injured.

#### LATER ACCOUNT.

CLEVELAND, O., January 14.—A frightful wreck occurred on the New York, Pennsylvania & Ohio Railway near Maumee, Ohio, this morning. A passenger train colliding with one section of a freight which had broken in two. Nine persons were killed and twelve injured. The list of the killed is as follows: Robert Huntington, of Gallion, O.; Passenger Engineer William Walters, of Gallion, O.; Passenger Fireman J. F. Rashford, of Gallion, O.; Freight Brakeman William Landy, of Salamanca, N. Y.; Express Messenger Roy Chisholm, Mary Ann Lyon, of Idaho, aged 6; ticketed second-class to Cherry Creek, N. Y.; four of the injured are in a serious condition. The *Leader* in a special from Akron gives the

#### FOLLOWING PARTICULARS OF THE WRECK:

At 1:17, this morning, as train No. 8, east bound, was rounding a sharp curve one and a half miles east of Tallmadge, directly on the curve met freight train No. 10. There was a dense fog, and this conspired with other things to make the accident beyond human power to avoid. Engineer Huntington had just time to reverse his engine when the dreadful crash came. He was instantly killed. The freight was a heavy one, and while climbing the hill a coupling parted about the middle of the train. It was decided to resort to the common expedient of

#### DOUBLING UP.

Flagmen were sent out, one east and another west, to warn any approaching train. Brakeman Bailey was sent ahead to flag the westbound passenger, which was about due. Meantime, the first part of the broken freight train was taken to Pulmag station. The engine was then taken to the second part. A signal was given to some men back of the flagmen stationed at the east. Flagman Bradley took it to be for him also, and started back to the freight. The engineer saw no real whistle was sounded, but, anyway, Bradley heard it and went back. The freight had just got into motion when the express came along and struck. The momentum of the fast train was somewhat broken by the reverse, but

#### THE CONTACT WAS TERRIBLE.

The freight engineer and brakeman jumped and escaped serious injury or damage. The freight engine reared up and stood almost on its end. The engineer and fireman of the express were terribly crushed. The brave engineer was dismembered, his head crushed and his limbs broken and doubled up. The passenger train consisted of a combination of baggage and express car and smoker, a common coach and two sleepers. The greatest horror came when the baggage car and smoker, which telescoped with the common coach took fire. Engineer Jones, of the Kent Yard engine, five miles off began to be uneasy, and looking down the track, saw there, the glare of the burning cars. The telescoped coaches appeared as one and from the shattered and burning cars came

#### THE GROANS AND SHRIEKS

of the unfortunates. Then came a scene of terror; the strong struggling to escape a horrible death by fire, the weak and helpless praying for succor from the flames that were fast enveloping them. One man, George Shaw, who was pinned in by the wreckage, managed by superhuman efforts to release his lower limbs, and escaped out and brained. In the smoker were eight Chinamen; five were pulled out alive, but half dead from fright, but the other three were never seen after the crash, and bones and bits of charred flesh scattered up in a bag were all that was found of them. One of the most pa-

thetic of all the scenes were that attending the death of

#### LITTLE MARY LYON.

an orphan, who was being sent through from Idaho on a second class ticket, to her relatives in Cherry Creek, N. Y.; Edward Peltzer, a passenger going to New York, tells this story of her death: I noticed a little girl, she appeared to be all alone; I learned she had been ticketed as a second class passenger. She was a sweet faced child and every time I visited the smoker I interested myself in her. She said her parents were dead and she was going to Cherry Creek to live with some relatives. When the crash came she was in my berth in the sleeper and received only a slight shock. My first thought was of little Mary and I rushed out of the car, and,

#### TO MY HORROR

saw the smoker all in flames. I went outside opposite the part of the car where the little one had sat, and found she had been wedged down by a seat which had fallen upon her. The flames were already surrounding her, and finding she could not be rescued I fled from the spot. The passengers in the rear Pullman sleeper were only partly aroused by the concussion.

#### THE LONDON "TIMES."

Correspondence Between a Buffalo Man and a Detective.

BUFFALO, January 13.—The *Courier*, this morning, created a sensation in Nationalist circles by publishing a number of letters and telegrams, written by special detectives from Scotland Yard, sent in the interest of the London *Times* to procure evidence to implicate Parrell in the Phoenix Park murders. It appears that in August last, a mechanic residing at Black Rock, being out of work and money, conceived the idea of making something out of the London *Times*. He wrote to the publisher, stating in effect that he knew two Irishmen who were in possession of evidence, that would prove the letters, on which the *Times* relied in the present investigation, to be genuine. He soon received advices from the *Times* that a detective would be sent.

THE DETECTIVE DULY CAME, and corresponded with the mechanic from New York. He said he was authorized to see the mechanic and others willing to give proofs, and if necessary go to England and testify, being well compensated and protected. He wanted the mechanic to go to New York, and the latter went to a hotel in Buffalo. The mechanic was equal to the occasion, for on the arrival of the detective here he notified him the game had been discovered. The detective and his female companion thereupon went to Toronto, from there to Montreal and thence to Chicago, where he made his headquarters with George Harvey & Co., LaSalle Street, all the time imploring the Buffalo man to hasten his proofs and paying him several sums of money, in all amounting to \$500. Writing from Chicago, November 5th, he began

#### TO SHOW SUSPICION,

and declared he would not pay another dollar until he could see the papers in his own hands; besides that he had got so much evidence so that he could well afford to do without them; still, he was willing to give \$100 for them. On December 1st he wrote announcing his intention of proceeding to Niagara Falls. In the course of his wandering after proof he went to Key-Newton, where he said his son-in-law lived; thence he wrote offering to give the Buffalo man \$500 and the same to the other two, if success was made certain. There was of course, no evidence whatever of the nature sought.

#### Model Way of Curing a Cold.

A. A. Averill writes from Salem, Essex County, Mass., February 11, 1885: "About ten days ago I took a severe cold, which settled in my chest and back and caused me much suffering. I immediately procured three ALCOCK'S PLEURAL PLASTERS; two I applied to my chest and one to my back. In a few hours my pains sensibly abated, and in three days I was entirely well. I take great pleasure in recommending ALCOCK'S PLASTERS."

PERHAPS no local disease has puzzled and baffled the medical profession more than nasal catarrh. While not immediately fatal it is among the most distressing, nauseous and disgusting ills the flesh is heir to, and the records show very few or no cases of radical cure of chronic catarrh by any of the multitude of modes of treatment until the introduction of Ely's Cream Balm a few years ago. The success of this preparation has been most gratifying and surprising.

THE great popularity of Ayer's Pills as a cathartic is due no less to their promptness and efficacy than to their coating of sugar and freedom from any injurious effects. Children take them readily. See Ayer's Almanac for this year, just out.

The activity of the Navy Department in preparing three or four cruisers for sea service with a marked disposition on the part of the Secretary of the Navy not to tell what their service was to be, is believed by gentlemen who have been watching Samoa affairs to indicate that a naval force will be sent to Samoa, and that Germany is not to have notice in advance of the departure of the ships. The Navy Department is more prompt than the State Department was in the dispatch of marines to Panama in April 1885 and Whitney is more favorable to a spirited foreign policy than Bayard is.

#### Stanley's Whereabouts.

#### Jefferson Davis.

VICKSBURG, Miss., January 14.—Jefferson Davis arrived here last evening. To-night, in response to a serenade, Davis feelingly referred to the Mississippi boys, for whom, he said, he had lived and suffered. We have no hesitation in recommending Hall's Vegetable Sicilian Hair Renewer as a sure cure for dandruff, and to restore the natural color of the hair.

#### No Crisis Feared.

PESH, January 14.—Memset says he does not consider that the political situation here justifies the fears of a parliamentary crisis.

#### Be of Good Courage.

It is impossible to any when diseases of the respiratory system are past remedy. Medical examinations are not conclusive in such cases. Whatever the physicians may say, there can be no harm in trying HALL'S HONEY OF HOREHOUND AND TAR and there may be infinite good. One thing is certain that no cough, cold or bronchial affection can resist the salutary action of this wonderful preparation, unless consumption has actually set in. Sold by all druggists. The large size is the most economical for general use. Pike's Toothache Drops cure in one minute.
