NUMBER 185

AMERICAN ARMY EMBARKS, CUBAN INVASION BEGUN

Long-delayed Movement to Free Cuba Is Now a Reality.

FORCES AT VARIOUS GULF PORTS BOARDED TRANSPORTS YESTERDAY

There Will Be Four Separate Expeditions, to Land at Four Different Points.

Washington, May 30.—The military invasion of Cuba has begun. Unless the orders of the war department have miscarried, at an early hour this morning the troops that have been gathered at the gulf ports began to break camp and march aboard the transports waiting to carry them to the enemy's territories. About 25 of these ships, the biggest and fastest that could be obtained suitable for the purpose, had been gathered, ready to receive the troops. They will accommodate about 20,000 men, for in a short voyage like that from one of the gulf ports to Cuba it is possible, with safety and comfort, to carry a much larger number of men aboard ship than would be admissible on the coast of a cruise to the Philippines, for instance.

How many troops started this morning, where they took ships, or whether they are bound to the quarters while the directing spirits of the campaign refuse positively to answer. They have no desire that the Spanish should have opportunity afforded them to see the forces to attack our soldiers as they land.

Therefore nothing of the details of this first movement is to be known. There is a suspicion that the start will be made from Tampa and Mobile, and in such cases the fleets of transports will converge at Key West, to pass under the escort of the warships which Admiral Sampson has provided to ensure the safety of the troops during the passage across the Florida straits, to protect them against attack at the hands of some stray Spanish cruiser or gunboat.

FOUR EXPEDITIONS.

It is probable that there will be no less than four separate military expeditions, and that these will be landed at four different points. Whether Porto Rico is one of these points or not cannot be learned. Before the entire force which it is proposed to use in Cuba can be landed, the transports must make four separate voyages across the straits.

Arrangements have been made to utilize the services of the insurgents to the largest possible extent. The government already has sent expeditions to a large number of points on the island, and landed arms for the insurgents. Most of the parties succeeded perfectly in their object, and it was said at the war department today that the efforts of the insurgents have been armed to constitute a very effective support for the troops as they land.

A WAR CONFERENCE.

A war conference was held at the White House at 2 o'clock this afternoon between the president and his two war secretaries, Alger and Long, and Major General Miles, in command of the army. Vice President Hobart, who accompanied the president to Arlington and returned with him to lunch, was present. The conference was held in the study of the president, and the participants were seated around a table. The president presided, and the conference was held in a friendly and confidential manner. The participants discussed the military situation in Cuba and the plans for the invasion. The president expressed his confidence in the military leaders and their ability to carry out the mission. The conference ended at 4 o'clock.

TROOPS ORDERED TO MOVE.

Naturally, those who participated in the conference, and the extent of the discussion, it was stated, however, in an authoritative quarter that the discussion had covered the entire range of military and naval operations, and that the view to the achievements about to begin.

General Miles brought with him a memorandum, and the extent of the discussion, it was stated, however, in an authoritative quarter that the discussion had covered the entire range of military and naval operations, and that the view to the achievements about to begin.

Washington, May 30.—The military invasion of Cuba has begun. EXCITEMENT AT CHICKAMAUGA

Eight Regiments of Volunteers Ordered to Tampa. Chickamauga, National Park, Ga., May 30.—The greatest excitement prevailed in Camp Thomas today over the rumor that a general order has been issued to all troops in camp here to proceed at once to Tampa. Every man seemed to be glad, and there was a general hustling about in the various camps, each man acting as though he expected to be ordered to pack his traps on the instant, to be ready to move to the front.

The rumor, which traced to its source by the Associated Press, proved to be only partly true, only eight regiments being affected by an order from the war department to proceed to Tampa. The regiments are: First Ohio, One Hundred and Fifty-Seventh Indiana, Third Pennsylvania and First Illinois, to be commanded by General Lewis H. Carpenter. Second New York, Sixty-ninth New York, Fifth Maryland and First District of Columbia, under command of Brigadier General Lewis H. Carpenter.

These regiments are ordered to proceed at once to Tampa, and the work of preparation began tonight. It is understood that the first of the regiments will leave tomorrow and the other four on Wednesday.

The regiments ordered out are regarded as the best equipped and most thoroughly prepared of any in the army. This order is regarded by the officers and men as an indication that speedy forward movement is to be made on Cuba and Porto Rico, and as a consequence, there was great rejoicing among the volunteer soldiers as there was among the regulars when Tampa was named as the point of departure.

With these regiments that arrived today, the troops at the park number 45,000. The regiments ordered away number 6,000.

The First Michigan Infantry arrived today. It comprised 12 companies, 1,024 officers and men, in command of Colonel L. H. Kendall. The Second Arkansas arrived this afternoon. It is composed of 12 companies, 1,024 officers and men, in command of Colonel Virgil V. Cook. The Fifty-second Iowa arrived this morning. The regiment is composed of 12 companies, 1,024 officers and men, in command of Colonel William H. Humphrey. All the men were uniformed but only partly armed.

Troops F and L of Grigby's cowboys, arrived this morning, 150 men and 104 horses, commanded by Major James H. Montith, completing the full complement of the Third United States Independent Cavalry.

RUMORS AT TAMPA.

Impression Prevails That the End Is Not Far Off.

Tampa, Fla., May 30.—The impression prevailed among headquarters today that the end is now not far off, and that definite orders for breaking camp and getting on board the transports are waiting will soon be given. All kinds of rumors were afloat. It was reported on what appeared to be good authority that the troops were to be ordered to break camp and get on board the transports at once. It was also reported that the troops were to be ordered to break camp and get on board the transports at once. It was also reported that the troops were to be ordered to break camp and get on board the transports at once.

A special train with 216 members of the Chicago naval reserves, in command of Lieutenant Prity and Ensigns Hunt and Hewitt, arrived at Port Tampa today. They will go to Key West tomorrow. Decoration day was celebrated today.

SPANIARDS WILL NEVER GET HOME

Schley Is Now Master of the Situation.

SANTIAGO CONDITIONS REMAIN UNCHANGED

Americans Are Watching and Waiting in Broiling Weather.

Temperature Is 110 In the Shade, and the Turrets Are Like Furnaces.

Belief at Key West That Schley Will Enter the Harbor—Has Three Battleships and Two Cruisers—Spain's Third Fleet Includes an Old Hulk Without Guns.

Included One Old Hulk Without Guns or Engines.

London, May 30.—A dispatch to the Daily Chronicle from Barcelona, referring to the Spanish announcement of the formation of a third Spanish fleet, including the Numancia, is headed, "A Resurrection Ship," says:

"The Numancia is here, her hullworks battered, her anchors and chains rusted with rust and her paint all gone. Apparently she does not carry a single gun, and she is a mere hulk. She certainly has no crew. A small gang of men are hammering and painting and painting and hammering to do the work of patching up."

"Though official announcements say the reserve fleet, including the Numancia, is to go to the Philippines, the orders for the 2,000 men who were to have gone with it are now definitely countermanded."

"The Numancia is here, her hullworks battered, her anchors and chains rusted with rust and her paint all gone. Apparently she does not carry a single gun, and she is a mere hulk. She certainly has no crew. A small gang of men are hammering and painting and painting and hammering to do the work of patching up."

told of the reasons which led Cervera to Santiago, and of the way in which he was hemmed in. It is now known that when the Spanish admiral sailed for the West Indies he expected to enter San Juan de Puerto Rico for coal and supplies. On touching at Curacao for news, his plans were upset by the receipt of dispatches telling him that Rear Admiral Sampson had bombarded the San Juan fortifications, and was still in the neighborhood of Porto Rico. Thereupon Cervera sailed for the south coast of Cuba. Why he endeavored to enter the harbor of Santiago is not known, but the American commanders were inclined to think the Spaniards would go to the latter port.

It is certain that Cervera could not have escaped from Santiago without being discovered, for the American scouts had been prowling about the port for ten days, and other scouts had not been far away. Practically Santiago has been blockaded that length of time. Cervera's coal ship, which followed him from Curacao to Santiago, was captured last Wednesday, and at the very moment when the queen recent was swarming and painting the coils were tightening about him.

The belief here is that all other movements in the West Indies will be held in abeyance until the Spanish squadron is disposed of. In case Santiago is attacked, the news of the battle will be sent from Mole St. Nicholas and Kingston, and the prisoners and wounded will be sent to Key West.

His plans have been fully matured with that end in view, and the only question on which the departure of the army from Tampa rested was that of Cervera's indisputable presence at Santiago, with an American fleet outside of sufficient power to prevent his escape and to destroy him if he attempted to reach the open sea.

In the transports at Tampa, in addition to the large quantities of supplies needed by the army, whatever its destination, there have been stored a number of powerful siege guns, which will be effective for shelling the entire basin in which the harbor and city of Santiago lie, when mounted on the place as the quick and most effective method of dealing Spain a crushing blow.

WILL BESIEGE SANTIAGO WITH HEAVY LAND FORCE

General Miles Will Assist Schley In Destroying the Spanish Squadron.

PURPOSE OF THE ARMY COMMANDER TO DEAL SPAIN A CRUSHING BLOW

General Miles Will Sail Tomorrow On a Fast Cruiser, Bound For Santiago.

New York, May 31.—A special to the Tribune from Washington says: The president told some callers tonight (Monday) that he expected Commodore Schley to attack Cervera within 24 hours.

General Miles made no secret before leaving Washington, of the immediate departure of the army from Tampa, though he declined to encourage any speculation as to its destination, for obvious military reasons. It is known, however, that ever since the first reports announcing the arrival of the Spanish squadron at Santiago last Saturday night, he has been thoroughly alive to the practically prohibitive dangers which would have to be encountered by an American fleet in fighting its way past the elevated batteries and up the narrow and tortuous channel to that harbor to force a battle with the Spaniards, and has steadily urged upon the authorities the necessity of a land attack on the place as the quick and most effective method of dealing Spain a crushing blow.

His plans have been fully matured with that end in view, and the only question on which the departure of the army from Tampa rested was that of Cervera's indisputable presence at Santiago, with an American fleet outside of sufficient power to prevent his escape and to destroy him if he attempted to reach the open sea.
