ANOTHER STRIKE

Northwest on the 1,700 Level This Time.

RUNS HIGH IN GOLD

PRESIDENT M'INTYRE MAY YET SELL CONTROL.

A strike of great importance was made in the Mammoth mine yesterday and the news was telephoned in to Manager McIntyre, who was at the mine the day before. The strike was made on the 1,700 level in the northwest drift about 200 feet from the shaft.

Discussing it immediately afterward Mr. McIntyre said the cliute encountered was undoubtedly the same as that not long since opened on the 1,800 and 1,900 levels and therefore proved its continuity for at least those 200 feet. On both the 1,800 and 1,900 levels it had

On both the 1,800 and 1,900 levels it had proved up good and strong and as the chute was all in virgin territory he felt very much glatified at the results following his determination, several months ago, to prospect that particular portion of the property.

On the 1,800 level, Mr. McIntyre said, a great deal of the ore would run eignt ounces in gold, while boulders of highgrade copper occurred in the vein and a very rich streak of copper clung to the casing on the hanging wall.

On the 1,900 the showing was also a remarkably fine one and very rich ore was being taken out of the raise recently started. The mine as a whole, he said, was giving a good account of itself, but during the time a new boiler was being installed the production was being installed the production was comewhat retarded. A few days, however, would see everything running

ide open again.
President McIntyre was questioned President McIntyre was questioned closely regarding the story that he had given some kind of an option on his holdings in the property and a modification of his previous declarations on the subject was secured. He practically admitted that an arrangement existed between himself and parties who had urged that no publicity be given the matter, whereby his holdings of more than 200,000 shares would be delivered at a certain figure within a livered at a certain figure within a given time, but he declared he had not been given the least intimation for whom the stock was sought—that the Bingham combination had not yet been named as the syndicate seeking the property.

property. From the tone of his explanation it is plain that should the Grand Central deal go through, the same people will be given the refusal of the Maminoth, also, and that appears to have been the plan from the beginning. When asked if \$3 a share was the figure agreed upon Mr. McIntyre did not deny it, though he could not be persuaded to admit it.

U. S. AND CENTENNIAL-EUREKA

President Evans Admits That Latter's Contract Has Been a Burden.

United States mining people state that they have never made overtures for the Grand Central or King William properties recently secured by the Bingham company. They say that they are well satisfied with their present properties, which are showing up so

President Robert D. Evans says:
"The Centennial-Eureka as a proposition is big enough and good enough without uriting with any other property. The contract with the American Smelting & Refuing company expires about next January and with the expiration of that contract we should save about \$200,000 per annum. This contract has been somewhat burdensome, but was made for the purpose of enabling the immediate payment of dividencis. The Centennial-Eureka is earning more money than ever before and its ore reserves are larger. We are pushing new development and the indications are very favorable for the opening up of additional ore bodies.

"Developments may come up in the President Robert D. Evans says

"Development's may come up in the near future regarding the Smelters company contract which may very greatly benefit both the Centennial." Eureka and United States Mining

The United States Mining and Centennial-Eureka companies are more closely allied through stock ownership than ever before. When the Centen-nial-Eureka stock was placed on the market it was well scattered, but brokerage house holdings and other float the present management. Blocks of 10,000 and 15,000 shares are held by United States Mining directors.

All the blocks of United States Mining stock held by the brokerage houses have been absorbed by the "insiders" with the exception of a block of 10,000 shares and \$18 per share has been offered for this block and refused.

MARTHA WASHINGTON LOWER. Talent Was Not Impressed With the Showing in the Mine.

As a result of the inspection made at the Martha Washington early in the week, when half a dozen operators took a run out to size up the new strike on the 350-foot level, the shares went whizzing down the tobuggan yesterday without a halt until the 16c mark was eached. The day closed on that figure, but open declarations were made that it would be given another shove today. The low mark Thursday was 24c.

Assay figures were not given out by Assay figures were not given out by the management, but Secretary Snow said that the ore was of a grade that would make a carbad lot bring about \$1,000 and that a shipment would be made within the next few days. In company with President Bartch he expected to go out to the mine last night. If the Martha's new strike of thirty inches of ore will hold out and furnish carload tots worth \$1,000, the flad is certainly important enough to comcertainly important enough to com-

CON. MERCUR'S CLEAN-UP.

Nearly 22,000 Tons of Ore Treated in

February. Assistant Manager George H. Dern of the Consolidated Mercur was at his desk again yesterday after having witnessed the reduction of last month's accumulated cyanides to gold bullion and stated that during the short month within a few hundred pounds of 22,000 tons of crude ore had been treated and that the extraction had been excellent, though under the rule of the company he was not at liberty to give the figures. There is hardly a shadow as ures. There is hardly a shadow of doubt that a dividend of goodly proportions will be announced early in the

MORGAN COUNTY MINES.

Mining Company Organized Yesterday to Develop Them.

With a capital of \$50,000, in 10-cent shares, the Croft-Pembroke Mining Company was organized to the company to the company was organized to the company was organized to the company was organized to the company to the compan shares, the Croft-Pembroke Mining company was organized in this city yesterday with W. H. Croft as president; John Croft, vice president; H. Perrbroke, sceretary and treasurer, and S. J. Fembroke and E. R. Pembroke as the other directors and shareholders. The company's property con-

sists of the Sunshine, Highland Dell, Shanrock, Pembroke No. 1, Pembroke Extension, Croft No. 1, Dickinson, Lady Victor and Lady Victor No. 2 mining claims, situated in Arbuckle canyon, Argentine district, Morgan county, Utah.

CHIHUAHUA MINES SOLD.

Guadalupe Properties Go to New Yorkers for \$2,500,000.

Fort Worth, Tex., March 22.-T. E. Levy announces that he has closed the sale in New York of the Guadalupe mines in southwestern Chihuahua, Mexico, owned by R. S. Tinnin of San Aatonio and G. S. Holmes of Guadalupe. The purchasers were New York capitalists. The consideration was \$2.590,090. Haif a million dollars is to be invested in machinery at once.

Ore and Bullion.

Ore and bullion settlements in this city yesterday amounted to \$72,470, as

T. R. Jones & Co.-Ores, \$16,090; bul-McCornick & Co.—Silver and lead ores, \$24,300.

Bamberger & McMillan.—Silver, lead and copper ores, \$24,670.

Metal Market.

Silver, 6014c per ounce. Copper, 15%c per pound. Lead, A. S. & R. Co.'s price, \$4.00; New York exchange, \$4.2714; New York brokers', \$4.00.

MINING STOCK EXCHANGE.

Trading Covered a Wide Range of Securities Yesterday.

Securities Yesterday.

Of the twenty different stocks appearing in the active list at yesterday's call on the mining exchange, eleven of them showed an advance in price, four held an even keel and five drifted to leeward a little. Ajax was in good form at from \$1.9% to \$1.10, and Consolidated Mercur did a lively business at \$3.35 down to \$3.33. Daly dropped to \$2.13, while Eagle & Blue Bell stepped up to \$8 cents.

Grand Central continued its upward movement and sold at \$7.34½ and \$7.30, while Mammoth followed suit by doing business at \$2.50.

Lower Mammoth registered a further decline and sold at \$4.19½, while May Day stood still at 55 cents. Little change was noticeable in Northern Light and Ingot sold for 3% and 3½ cents. Petro and Sacramento were steady, as was also Silver Shield.

Ben Butler was lively and stronger by far than it has been for a week. It sold for 3%, and 3½ cents, against a high mark of \$½ cents on Thursday.

Tosora was Hvely at \$9 to \$1½ cents, and Star was off a little. Joe Bowers continued in favor at 2½ to 2½ cents, and Marhattan dropped 35.000 at 7c.

Martha Washington was eased down from 23½ to 29½ cents, and Yankee Consolidated moved up to 19½ cents.

Daly-West stood at \$3.50 asked and Ontario was offered a. \$11.60. with \$10 bid.

The session developed the sale of \$9,910 shares for \$15.184.12, and classed on the following quotations: Of the twenty different stocks appearing

work upon the Nicaragua route, which has been most carefully 'bored' from six fathoms below water on the Atlantic to six fathoms below on the Pacific, and wherever there is to be a lock. The last parties are about coming in, and with their return will be made up the complete information to be embodied in the report.

"On the Panama route we have made careful examinations, but we have in part utilized the work of the French ex. cineers, found to be very full and very accurate. We have proved it and adopted the verified French data.

"We hope to be able to complete our full report by June and to submit it to the state department at once. I am sorry that provision was not made for printing it at once, as I fear that the holding it back for submission to congress until next December, with the ingress until next December, with the in-evitable delays incident to the issue of a work filled with plans, maps and charts, will prevent the reading of the report for possibly two years."

CONTROL ALASKA TRADE. Pacific Coast Steamship Companies

san Francisco, March 22.—The Post Says this afternoon. A combination has been formed by most of the companies engaged in the Alaskan for the purpose for the purpose of preventing profit-less competition. A uniform scale of prices will be adhered to and the com-panies of San Francisco, Scattle, Cape Nome and Dawson will be on an equal

footing.

Five companies so far have been Five companies so far have been drawn into the union and it is expected that others will follow. Those that have already signified their intention to abide by the rules of the agreement are the Alaska Commercial company and Alaska Exploration company, of this city; the North American Transportation & Trading company of Seattle; the Ames Mercantile company of Cape Nome and the Seattle-Yukon Trading company of Seattle and Dawson. They represent the bulk and Dawson. They represent the bulk of trade with these points in the

of trade with these points in the Alaskan territory.

The formation of the union is the result of negotiations which have been under way for several weeks. Representatives of Seattle and other places have visited San Francisco for the purpose of reaching an understanding with the officials of the local companies. These overtures have borne fruit, and it is now announced that the combination has been formed and the agreement entered into, although the agreement entered into, although the plans for the practical working of the enterprise have not been consummated.

The North American Commercial company of this city, did not enter the union as its business in alternati union, as its business is almost en-tirely confined to the coal trade at Dutch Harbor. The Wild Goose Mining & Trading company, in which Charles D. Lane is principally interested, is also excepted, for the reason that the company's trade is restricted to the Lane properties in Cape Nome.

Arrested and Set Free. Arrested and Set Free.

"Dr. J H. Hanaford says in the Western Plowman: If the first cough is properly treated the first step in the direction of consumption arrested, the lungs developed, the breath set free, we need not fear consumption." Kemp's Balsam for the Throat and Lungs is the proper treatment for the first cough. No other remedy has saved so many from consumption. Large bottles, 25c. and 50c. For sale by Godbe-Pitts Drug company, Salt Lake City, Utah.

The Centennial-Eureka company was in the market yesterday with ten cars

J. H. Burfield, the well known metal-lurgist and engineer, returned from a fifteen days' round-up of some of the PRICES QUITE STRONG

HEAVY DEALINGS IN RAIL-ROADS.

New York, March 22.-There was a great variety of movements in the stock market today, under the shifting opera-tions of speculative pools. The opening

great variety of movements in the stock market today, under the shifting operations of speculative pools. The opening was quite strong, the most potent influence being the more cheerful tone in the foreign markets on the agreement reported between Great Britain and Russia over the dirficulty at Tien Tsin. The Eries seemed to have appealed to the favor of the foreigners, in response to the late notable upward movement here yesterday, and they enjoyed a good share of the opening strength, but profit-taking sales were particularly directed against them afterward, and their reaction had a large influence in bringing about the subsequent depression in the general market.

The local municipal stocks were under decided pressure and apparently a very large line of speculative holdings of all the principal members of the group were liquidated, making heavy inroads upon their prices. Attempts were made to hold the market by advancing individual stocks here and there, but they were only indifferently successful, serving simply as a cover for continued realizing.

The heavy tone in Burlington since the first of the week has had a marked influence on the general market, so that it was picked out as an effective railying point and was bid up within a quarter of last Monday's high level. It fell back 2½ points, nowever, and closed with a net gain of only a fraction. Among the leading railroad stocks the only really substantial strength was shown by the trunk lines and by the Wabash issues. Pennsylvania led the former group with an extreme advance of two points.

Reports of a traffic so large as to tax facilities and of higher rates to come on grain were the grounds of the advance. Pennsylvania was the only member of the Wabash stocks was on a very heavy scale, and all otherings were confidently absorbed. The preferred was carried up an extreme 2%, closing at the top, and the common gained 1½. Nothing definite is known as to the source of the buying, but the belief continues that the property is destined to absorption by anoth

Inc.
The bond market continued irregular.
Total sales, \$5,425,000. United States bonds
were all unchanged on the last call.

MAY FAVOR THE

PANAMA ROUTE

New York, March 22.—A special to the Times from Washington says; Rear Admiral Waiker, retired, chairman of the Isthmian canal commission, in an interview, is quoted as saying that the report that the commission in making its full report "may present the points in favor of the Panama route is quite within the limits of reason and possibility"

"The commission," he said, "was named to ascertain the facts concerning all proposed routes across the isthmus, and to do so in detail. In the preliminary reports made to congress, the advantages of the Nicaraguan route, as then known to the commission, were pointed out, although our information about Nicaragua and Panama routes was not complete. The facts obtained were presented, and it was expected that the commission would have the privilege of supplementing its report by the use of further information.

"We have still some 600 or 700 men at work upon the Nicaragua route, which has been most carefully bored from six fathoms below water on the Atlantic to six fathoms below water on the Atlantic to six fathoms below on the Pacific, and wherever there is to be a lock. The last parties are about coming in, and with their return will be made up the complete information to be embodied in the report.

"On the Panama route we have made"

Stocks at London.

New York, Marth 22.—The Commercial-Advertiser's London tinancial cabegram says: Activity is growing on the stock market here. On good business today the tone hardened considerably. The report of the Anglo-Russian understanding was the greatest help. American shares were buoyant all day on buying by professionals, who were eager and not at all discriminating, the only feature being the sharp spurt upward of the Denver issues and Grank Trunk common. The jump in Grand Trunk was a smart one, and it started a theory that New York was buying for control.

Money was tight. Two millions were taken out of the market for the payment of the first installment on the local loans. Call loans were 3% per cent; bills, 3%@ 3%. Stocks at London. The Bank of Bombay has reduced its rate from 8 to 7 per cent.

Condition of the Treasury. Washington, March 22.-Today's stare-

ment of the treasury balances shows: Available eash balance, \$154,213,195; gold, \$93,434,321.

Metal Markets.

Metal Markets.

New York, March 22.—An improvement in speculative circles of the aboard today caused an advance of 10s in that market, to £113 Its 63 on spot and £111 Its on futures. The local market was sympathetically higher, but trading was contined chiefly to supplying immediate requirements, with the close firm at 25.60.

Copper in London recovered the loss of yesterday on some slight buying orders, and closed steady at £68 Its 6d on spot and £69 Its 6d for futures. The local situation was entirely destitute of any new features, prices remaining nominally on the basis of 17.09 for Lake Superior and 16.62½ for casting and electrolytic.

Speiter was a shade lower today, but trading at the decline was small, with the final tone weak at 3.853.39.

Lead continues dull and unchanged.

Domestic iron markets were quiet and, in the absence of business, prices were more or less nominal. Pig iron warrants, 9.50/10.50; northern foundry, 15.00/216.50; southern, 13.00/215.50.

GRAIN AND PROVISIONS.

Chicago, March 22.—News on hand before the tap of the opening gong was against bulls in wheat, and May started out with a decline of 1/20/4 to 3/20/4, selling simultaneously at 70/4 and 75/4. Liverpool was easy and the war scare seemed to have become a thing of the past. Argentine shipments were very heavy, northwest receipts were liberal and the weather distinctly spring-like. May declined during the forenoon to 75/2. The cash situation was reported improved and the Modern Miller said a few gloomy words concerning the ravages of the Hessian fly during the afternoon, and the market rallied under cevering by shorts to 75/4. The close was steady, 3/6/3/c under yesterday at 76.

Corn opened easy and declined early in sympathy with wheat and bearish news. Support by a leading operator checked any pronounced weakness, and during the afternoon a good outside demand sprang up and a Jocal bull made large purchases. The close was firm, a shade higher at 41/4/6/13/2 for May.

Oats were tarly active and firm. May closed a shade higher at 24/2/25.

Provisions were very irregular, following a steady opening on light receipts. Atter opening unchanged, Armour sold May pork heavily through brokers and bought ribs. The close was steady, 35 cents lower for ribs and 2/4 cents lower for lard.

The leading futures ranged as follows:

Week Shows Increased Activity in Retail Operations.

COLLECTIONS PROMPT

EVERYTHING POINTS TO A GOOD SPRING BUSINESS.

New York, March 22.-R. G. Dun & Co.'s

weekly review of trade tomorrow will say The position of general business is satis-The position of general business is satisfactory, being marked this week by increased activity of retail operation throughout the west and in some Atlantic scabboard cities, which is considered the foreruner of a generally good spring trade. New enterprises are reflected in the largest demand for many months for builders hardware and general materials and contracts for prompt delivery of all structural goods are very difficult to place. Collections are prompt and railroad formage is well maintained Earnings of all tail gods for the month of March to discuss the season of the golds are very difficult to place. Collections are prompt and railroad formage is well maintained Earnings of all tail gods for the month of March to discuss the season of the south of the season of the season of the season of the south ecountry. The textile industry alone does not improve Short time has been adopted by Fall River cotton mals and there are reforts that some of the southern weather, milis are about to curtail production. But this has been without special effect upon demand for either print cloths or heavy brown cottons.

Quotations of pig from and finished steel tend toward a higher level. There is still the wholesome element of conservatism which prevents violent fluctuations and keeps the advance at a moderate rate, but the tendency of the market is undentably toward better things. The most conspicuous strength is apparent in Bessemer pig, which now commands \$17 at Pittsburg, while steel billiets have sold for \$24 and high carbon billets reached \$30. Steel bars are \$1 pers ton higher and structural shapes are firmly maintained. While these quotations show moderate gains, much higher rates are paid for immediate delivery and in small amounts. A short time ago it was expected that new ore prices would be much lower but the remarkable strength of products will tend to sustain values of the raw material. New high records are constantly established for coke in the Connellsville region and prices are firm. Among the minor metals factory, being marked this week by in-creased activity of retail operation throughout the west and in some Atlantic scalboard cities, which is considered the

stocks are by no means exhausted, and preparations for the new crop promise an enormous acreage.

Footwear is firmly maintained for staple lines, although high-priced grades are easier. Some decrease in demand does not disturb producers, as factories are busy on contracts that will require months to fill. Buyers who left Boston recently are now sending in orders freely. Especially is this noticed in the local market for patent and enamel shoes.

Hides at Chicago have declined steadily for two months, the net fall in the average of ten grades amounting to 7.2 per cent. Leather prices are unchanged. Despite the weakness in domestic lines, foreign hides are tending upward.

Special reports telegraphed this week indicate that the winter wheat crop is in good condition and an unusually heavy acreage was planted at the southwest, while ravages by Hessian fly have been exaggerated.

Fallures for the week numbered 224 in the United States against 183 last year, and thirty-three in Canada against twenty-seven last year.

ON THE STOCK EXCHANGE. War Talk from Far East Had Effect

on the Market. New York, March 22.-Bradstreet's Fi nancial Review tomorrow will say: Great strength and activity, fully up to the re-

nancial Review tomorrow will say: Great strength and activity, fully up to the recently established standards of the market, were seen during the week. I rices advanced in the early days of the week and the steel industrial stocks fairly shared honors with the railroad list. In both departments of the market new records as to quotations were made and, authorigh there was a considerable amount of man-pulation, outside participation increased.

London showed little interest in the market, and the tone of speculation there was unfavorably affected by the rumors that a collision between Russia and England in China was possible. In fact, the stories, that an actual clash between the forces of the two powers at Tien Tsin might occur, unsettled the money and stock markets abroad, and on last Wednesday produced a selling movement and a set-back in prices here.

This movement, however, was apparently due in any event, and the liquidation was by no means severe. Fresh buying made its appearance and the news on Thursday was that Russia and England were again in accord, thus removing any ground for fear that the money market would be uniavorably affected by foreign positical compilications. A stronger tone thereupon reasserted itself, and the upward movement in prices, based on the favorable crop and business outlook, the increasing earnings of railroad properties, their good dividend prospects and the reany striking success of the street deal, all combined to sustain a buoyant tone in speculation.

BUSINESS OF THE BANKS. Clearings for the Week as Reported

by Bradstreet's Agency. New York, March 22.-The following ta ble, compiled by Bradstreet, shows the bank clearings at all principal cities for the week ended March 21, with the per-centage of increase and decrease, as com-pared with the corresponding week last year:

***** WHY?

There is a reason for the steadily increasing sale and consumption of

GOOD HOUSEKEEPERS having once used it always use it, and never use any other.

Iron Founders and Machinists.

Manufacturers of all kinds of Mining tion paid to all kinds of repair work.

WEAK MEN DR. MCLAUGHLIN'S ELECTRIC LELT

know they are in need of such a remedy. It makes men strong; it removes the effects of early habits, indiscretions, excess, over-work, and all abnee of the laws of nature. It helps nature mend, and makes manhood perfect. PAY FOR IT WHEN CURED After you are cured you can pay me, and then the price will be only half what is asked for the elestyle belts, which have been blistering and burming
the backs of their wearers for the last thirty years.

WRITE ME TO-DAY

Write to-day for my beautiful 80-page book. It is
sant free, scaled, and is full of truth for weak mess.

Address: Dr. M. B. McLaughin, 351
Sixteenth Street, Denver, Colo.

NATURE'S WEAPON

For Fighting All the Nervous Ailments and Weaknesses of Men and Women Is Electricity—Where It Is Properly Applied There Are No Doubtful Results; the Cures Are Perfect and Permanent.—Dr. Bennett, the Electrical Authority, Guarantees His Electrical Belt to Cure in Every Case, and His Belt Will Not Cost You a Cent Unless It Does Cure You—His Valuable Book Given or Sent Free, Postpaid, for the Asking.

My method of applying Electricity for the cure of all the aliments and weaknesses of men and women is a safe, sure and speedy remedy and never falls; that is why I am enjoying a success never before experienced in the annals of medical or electrical treatment. My Electric Belt is the result of years of deep study and experiment upon my part, and the United States Government has rewarded this study by giving me the exclusive use of my method. Of course, there are many electric beits before the public, but mine is entirely different and must not be confused with them. There is not a case of Nervous Weaknesses which unfit one for

Weakness, Lost
Vigor or Vitality in either sex—those
wasting weaknesses which unfit one for
the duties of life—which Electricity, as
applied by my belt, will not cure. I
guarantee the cure. You take no chances.
I do not want your money if my Belt will
not cure you.

As a duty, every person should read
my book concerning Electricity, and
which explains just why Electricity will
cure. This valuable book is sent free,
postpaid, to anyone.

Dr. Honnett's Electric Delt
