The rehearsal of the coronation ceremony in Westminster abbey this afternoon was the most largely attended and elaborate one which has yet been held.

The king and the queen and other prominent personages who were not present were represented at the proceedings by substitutes. Even the servants were drilled in their duties connected with the robing arrangements and the pages carried out theoretically their functions of coronet carrying and train bearing.

Although the religious and musical features of the ceremonies were omitted this afternoon, the instructions and repetitions by those who are not perfect in their parts caused the rehearsal to occupy about the full time planned for Saturday's ceremonies.
