

COLD SNAP STILL WITH THE EAST

Floating Ice Has Almost Suspended Navigation.

SOME HARBORS FROZEN UP

WEATHER MODERATING IN THE WESTERN STATES.

New York, Feb. 4.—More than a score of sound steamers, tugs and other craft are caught in the ice pack off Whitestone, L. I., last night, and held fast for many hours, affected their release this afternoon and all reached their destination uninjured.

Washington, Feb. 4.—The reports to the weather bureau show some very unusual meteorological conditions throughout the country, particularly the development of an abnormal cold spell in the north central states despite the absence of any general storm, and this extreme cold has spread through most of the United States during the past four days.

A great contrast also has developed between the two sides of the Rocky mountains. West of that range rains have developed to a remarkable degree. The semi-arid regions of Arizona and southern California have been visited with almost as much rain in the last sixty hours as they ordinarily receive in a year. The coldest weather of the year has prevailed in the central and eastern states in the last twenty-four hours the snow and sleet has extended almost to the coast line of the east gulf and south Atlantic states.

The forecasts do not indicate any decided change to warmer weather during the next thirty-six hours.

ICEBOUND HARBOR.

New York Conditions Worse Than For Ten Years.

New York, Feb. 4.—Pilots of many years' experience said today that there was more ice in New York harbor today than at any previous time during the last ten years. In many portions of the bay the water was completely frozen over. The Narrows were full of immense ice cakes and most of the bay on the Jersey side below Liberty Island was frozen over completely. Both the North and East rivers were full of heavy floating ice.

At one time today nine sound steamboats, a dozen tugs, several barges and many craft of other descriptions, making in all about thirty vessels, carrying between them probably more than 1,000 passengers, were held up for hours by the ice flows opposite Whitehall. In the vicinity of City Island the ice was impassable to sailing vessels for several miles east of Execution light and steam craft can navigate the channel only with difficulty.

Warming Up a Little.

Kansas City, Feb. 4.—The weather today in Missouri and Kansas had moderated, while lower temperatures were recorded in Oklahoma, Indian Territory, Arkansas and Texas. While the temperature at Kansas City was 8 degrees below zero and at Concordia, Mo., 12 below zero, it is expected to rise several degrees by noon with prospects of still warmer weather by Sunday.

Less Frigid in Wisconsin.

Superior, Wis., Feb. 4.—The backbone of the cold wave which has been blowing off the lakes in a relentless grip for sixty hours seems to have been broken. The temperature remained stationary at 5 below zero throughout the night and today the local forecast announced that the rise in the mercury probably would continue during the next twenty-four hours.

Harbor Impassable.

Providence, R. I., Feb. 4.—Providence harbor and Narragansett bay were today practically impassable to all sailing craft and only the ocean steamers and large tugs could make their way up because of the ice. The embargo has been forming for about two weeks.

Sound Frozen Over.

Woodshole, Mass., Feb. 4.—Vineyard sound is entirely frozen over for the first time within the memory of the residents of this section. Ice has filled the harbor at Vineyard Haven, the great sheltered port of the island of Martha's Vineyard, for a number of days and today solid sheets of ice stretches for miles from the island.

No Sign of Abatement.

Omaha, Feb. 4.—The severe cold of the last few days in Nebraska shows little sign of abatement today. Sixteen degrees below is the official reading at

THE VALUE OF CHARCOAL

Few People Know How Useful It Is In Preserving Health and Beauty.

Nearly everybody knows that charcoal is the safest and most efficient disinfectant and purifier in nature. But few realize its value when taken into the human system for the same cleansing purpose.

Charcoal is a remedy that the more you take of it the better; it is not a drug at all, but simply absorbs the causes and impurities always present in the stomach and intestines and carries them out of the system.

Charcoal sweetens the breath after smoking, drinking or after eating onions and other odorous vegetables. It improves the complexion, it whitens the teeth and further acts as a natural and eminently safe skin cleanser.

It absorbs the injurious gases which collect in the stomach and bowels; it disinfects the mouth and throat from the poison of catarrh.

All druggists sell probably the best charcoal and the most for the money is in Stuart's Charcoal Lozenges. They are composed of the finest powdered Willow charcoal, and other harmless antiseptics in tablet form, or rather in the form of large, pleasant tasting lozenges, the charcoal being mixed with honey.

The daily use of these lozenges will soon tell in a much-improved complexion, sweeter breath and purer blood, and the beauty of it is, that no possible harm can result from their constant use, but on the contrary, great benefit.

A Buffalo physician, in speaking of the benefits of charcoal, says: "I advise Stuart's Charcoal Lozenges to all patients suffering from gas in stomach and bowels, and to clear the complexion and purify the breath, mouth and throat; I also believe the liver is greatly benefited by the daily use of them; they cost but twenty-five cents a box at drug stores, and although in some cases a special preparation, yet I believe I get more and better charcoal in Stuart's Charcoal Lozenges than in any of the ordinary charcoal tablets."

the weather bureau this morning. At Norfolk, in the central part of the state, 23 degrees below zero is reported.

Farmer Badly Frozen.

Topeka, Kan., Feb. 4.—Following a temperature of 17 degrees below zero last night, today has been near zero with a light snow. It is now below zero again tonight. William Jeffries, a farmer near Abilene was so badly frozen he cannot recover. There are now seven inches of snow on the Kansas wheat fields. This places the crop in excellent condition to withstand the winter.

Winnipeg and St. Paul.

St. Paul, Feb. 4.—The cold weather is about disappearing from the north-west except at Winnipeg, where the thermometer registered 34 degrees below zero today. In St. Paul it registered 13.3 below at its lowest, but is gradually going higher.

Above Zero.

Pittsburg, Feb. 4.—Milder weather is being experienced here today, the mercury rising 22 degrees to 15 above. The broken gas main in West Virginia has been repaired and mill and manufacturing plants which were compelled to close down for lack of gas have resumed operations.

Locked in by Ice.

Portland, Me., Feb. 4.—The Maine coast as far east as Mount Desert Island is completely icebound today, except an occasional passage way available only for steamers.

Navigation Suspended.

Newport, R. I., Feb. 4.—Ice in the harbor was so thick today that navigation was practically suspended.

Twenty-five Below.

Saratoga, N. Y., Feb. 4.—The thermometer registered 25 below zero at daybreak today.

BOUGHT UNDER ALIAS

Land Said to Have Been Thus Acquired by J. M. Stone—Suit to Recover.

Judgment was rendered for the plaintiff by Judge Lewis yesterday in the case of the Union Trust company against Frank H. Clark, administrator of the estate of Martha Reeves and Elizabeth Reeves, deceased, and against John M. Stone, alias John M. Stout, by which title to several pieces of real estate passed to the plaintiff.

The bill of complaint filed by the plaintiff sets forth that Oct. 5, 1903, in the United States district court for the northern district of Virginia John M. Stone, under the name of J. M. Stone, was adjudged a bankrupt. A few days later the plaintiff was duly appointed and qualified as trustee in bankruptcy of his estate.

The allegation was also made that during 1903 and before the adjudication of his estate John M. Stone was temporarily admitted to the state of Missouri, took the name of John M. Stout or J. M. Stout, and purchased and acquired title to the following tracts of real estate: Part of lot 1, block 56, plat B, Salt Lake City survey; lot 1, block 150, plat D, Salt Lake City survey; the east half of lot 1, block 52, plat D, Salt Lake City survey; part of lot 4, block 29, plat F, Salt Lake City survey.

It was alleged that Frank H. Clark, as a administrator of the estate of Martha Reeves and Elizabeth Reeves, while the real estate designated. The plaintiff asked judgment for the recovery of the title to the above described real estate, and title be taken from John M. Stone, alias John M. Stout, and vested in the plaintiff as trustee in bankruptcy of the estate of John M. Stone, and for applying the property in settling his just debts.

The order of court vesting title in the plaintiff was read yesterday in the case of John M. Stone, alias John M. Stout, of his right to hold or sell it.

CHINAMAN SENT TO ASYLUM.

Low Sang was Adjudged Insane and Committed.

The Chinaman who was arrested two weeks ago on the charge of assaulting a little girl, was tried yesterday in the district court before Judge Armstrong, was found to be demented and was ordered committed to the state mental hospital at Provo.

The name under which he was tried and ordered committed is Low Sang, but the name on his certificate entitling him to admission to the United States and to remain in the country is Leo Wing Sam Hong. Various names have been given this Mongolian by the officers of the law since his arrest, for the crime with which he was charged, among them Ah Lew, Ah Lung and Wing Bong.

Court Notes.

Judge Morse yesterday granted Robert E. Quay a divorce from Amy Belle Quay by default, on the ground of desertion. They were married at Denver Sept. 10, 1891, and she left him Dec. 20, 1898, to return no more.

The hearing of the case of Mrs. William T. Hooley of Murray, charged with insanity, was continued yesterday by Judge Armstrong without date. She is in the custody of the sheriff, and is alleged to be so violent in her demeanor that it is necessary to restrain her.

Christian Rodas, a former resident of Finland, was made a citizen of the United States by Judge Morse in the district court yesterday.

Receiver Robert R. Anderson of the defunct private bank of B. H. Schettler, was yesterday granted permission by Judge Morse to amend his complaint in suit brought by him against Ernest F. Schettler and others upon behalf of the creditors of the bank.

The charge of embezzlement against D. A. Markell was dismissed yesterday in Judge Armstrong's division of the district court, upon condition that Markell pay the costs.

The suit of the Highland Boy Consolidated Mining company against the Minnie Mining & Milling company, in which it was sought to determine title to the Minnie mining lode in the West Mountain district, was dismissed yesterday by Judge Armstrong made an order of final settlement of the estate of Lucy Decker Young, deceased.

Honry F. Heath was appointed administrator of the estate of Clara F. Heath Skinner, deceased, in bond of \$1,500.

George H. Barrows was appointed administrator of the estate of Edward Barrows, deceased, his bond being fixed at \$4,000.

Heber M. Wells was appointed guardian of Heber D. and Mary Beatrice Wells, minors, in bond of \$1,000 in each case.

Card of Thanks.

On behalf of myself and family, I wish to thank the Knights of the Macabees for their kindness and sympathy at the time of the sickness and death of my beloved husband, James F. Jackson, Dec. 24.

The prompt manner in which the Supreme Tent, Knights of the Macabees, has paid the insurance of \$2,000 to me this day.

MARY F. JACKSON.

Jan. 30, 1905.

RAIN DESCENDED AND FLOODSCAME

Continuous Downpour in Southern California.

WASHOUTS IN THE DESERT

TRAINS TIED UP ON ALL THE ROADS.

Los Angeles, Cal., Feb. 4.—Although the rain has ceased and the sun is shining brightly in Los Angeles this morning, reports from other points in southern California show a continued downpour and further damage from the floods. All railroads out of Los Angeles are tied up and there will be no trains on either of the transcontinental lines in or out of the city today. Interurban traffic is also hampered, but all of the lines are open.

The Los Angeles river, which last night reached the highest stage recorded in several years, is subsiding this morning. There are reports of overflow and some damage all along its course, but nothing of a serious nature. The damage to the streets of this city, which were converted into torrents of water last night for several hours, will reach about \$300,000. Quantities of oil were carried down into the main part of the city from the surrounding highlands, where the oil district is located, covering the streets with oil and sidewalks with black petroleum.

The southern Pacific tracks are washed out at El Casco, near Beaumont, south of San Bernardino. Here a torrent of water came down a narrow mountain canyon, carrying out 100 feet of track and roadbed and cutting a broad ditch thirty feet deep through the right of way. All eastbound Southern Pacific trains from Los Angeles have been stalled for today. The westbound trains, both passenger and freight, are being held at Indio. The washouts on the line between Los Angeles and San Francisco above Ventura were repaired this morning, and trains are moving both ways. It will probably be two days or more before the damage to the roadbed at El Casco can be repaired and the train schedule resumed.

Santa Fe Tied Up.

The Santa Fe trains, both east and westbound, are tied up. Serious washouts are reported on the Arizona division near Kingman, and it will probably be twenty-four hours or longer before traffic can be resumed. Westbound trains Nos. 1 and 2 are being held at Ashfork, and No. 3 at Kingman, Eastbound No. 8 is at Needles, No. 4 at Mojave and another eastbound train at Barstow. The track and roadbed is carried out in short stretches in many places near Kingman, and several bridges are being washed out. All of the bridges, however, are safe, and it is expected that temporary repairs sufficient to permit the resumption of train schedules will be made by tomorrow. Small damage to the company's roadbed has been reported from several California points.

The rain ceased in Los Angeles this morning at 2:30. Over an inch fell from 5 o'clock the previous evening, making a total for the present storm of 2.56. Reports from Colton and Indio, and Palm Springs state that rain was still falling at those places this morning. The residents of Tequite Arroyo are along the river bottom in Riverside county have been driven to the higher lands by the rising floods.

A dispatch from San Bernardino says that reports from Beaumont indicate fearful havoc to Southern Pacific property between there and El Casco, the river bottom in Riverside county was washed out for a distance of two miles, while for miles the tracks are under debris washed down from surrounding hills. Two bridges east of El Casco have gone down.

Redlands Isolated.

Officials at San Bernardino report that traffic cannot be resumed for three days at least. The Southern Pacific is completely cut off from Redlands.

The Santa Fe is open between San Bernardino and Barstow, east, but floods between there and Needles have washed out the track, and the line is running on slow orders, as landslides are occurring constantly along the route.

It is reported from Ocean Park that a heavy storm at sea there early today caused considerable damage to the water front. About 100 feet of the pleasure pier there was demolished.

FLOOD IN THE DESERT.

Phoenix, Ariz., and the Surrounding Country Under Water.

Phoenix, Ariz., Feb. 4.—Phoenix and the surrounding country are again ex-

posed by the flood conditions. Today the Salt river is again very high and fears are being expressed for the safety of the Gila river bridge on the Maricopa & Phoenix railroad.

This forenoon the flood water swept across the country from a point where the Cave creek mouth is lost in the desert, by Glendale, across irrigation canals, as it did in the flood three weeks ago, over farms, leaving the water three feet deep in some houses and across Capitol addition in the west end of Phoenix. Many residents there have been forced to leave tents and temporary abiding places. Water surrounds the territorial capitol building a few inches in depth. A Santa Fe train started out this morning, but only got a few miles and had to return as the cross-desert flood runs against its grade, which forms a dam that turns the water toward Phoenix. News from Globe says that the Gila Valley, Globe & Northern railroad between Globe and Bowie, is badly washed out.

After the indictments were returned, Levy Mayer, counsel for Mr. Wheeler, said:

"This matter is five years old. As the result of Mr. Wheeler's refusal to submit to be blackmailed by a dishonest attorney, he is indicted. Once in 1902 and twice in 1904 the attorney made a similar charge before different justices of the peace, and in each instance the indictments were returned. The report of the testimony taken at one of the hearings showed that the attorney swore that he (the attorney) caused a change to be made in the council proceedings, and that if he knew it was criminal, and that if he had been paid the money which he had from time to time endeavored to extort from Mr. Wheeler he would not have instituted the prosecution."

Wheeler promptly furnished bonds of \$5,000.

SOCIALISTS HAVE DOUBTS

Want Guarantee From German Government Before Returning to Work.

Berlin, Feb. 4.—Hans Hue, a socialist member of the reichstag, speaking to a miners' assemblage at Recklinghausen, Westphalia, yesterday, said the strike was as good as won, but that the workmen could not act on the expressed desire of the government to return to work immediately, in view of the expectation that a law regulating work in the mines in accordance with the workmen's desires could be adopted. He added that the strikers required some guarantees.

The so-called Christian unions and the socialists, who have acted together throughout the strike, appear to be separating again. The Christian unions favor going to work, relying on the government's promises to legally recognize the miners' unions, which the socialists were standing out for active results, and distrust the general promises of the industrialists. Interior Minister Von Hammerstein and Commerce and Industry Minister Moeller are in the strike region personally investigating the situation.

The strike in Silesia is not spreading. The miners are disposed to wait and see what happens in the Lithuanian districts.

HAVE YOU

Ordered a copy of Polk's Salt Lake City Directory for 1905? This work will soon be in press. Better order now, as the edition will be limited to actual subscribers. Price \$2.00 each copy. A map of the city goes with each book.

W. P. COOPER, Secretary and Manager, 617-620 Dooly Building.

SPOKE FOR THE STATEHOOD BILL

Long of Kansas Favors the Measure as It Stands.

REMARKS LONG DRAWN OUT

BAILEY GAVE NOTICE OF A MOTION.

Washington, Feb. 4.—Mr. Long occupied most of the time given by the senate today to the statehood bill with a speech in support of the bill as it stands. He gave especial attention to the portion of the bill providing for the union of Oklahoma and Indian Territory as one state, and urged the importance of giving self-government to the people of that section.

There was an extended debate over a provision in the agricultural bill relating to forest reservations, in which

Messrs. Gorman, Proctor, Fulton, Clay, Hansbrough, Heyburn, Patterson, Teller and Platt of Connecticut participated.

At 2 o'clock the consideration of the appropriation was suspended in order to permit the joint statehood bill to be taken up, but before that authority the senate adopted a resolution calling upon the secretary of the interior for information as to the reasons for postponing the opening of the Utah reservation in Utah.

Mr. Long spoke at length on the statehood bill. He devoted his attention especially to Oklahoma's claims to statehood, saying by every test and standard, it is entitled to admission to the Union.

Mr. Long described the conditions in Indian Territory as most unwholesome, saying there were no fewer than 60,000 white children in that territory who had no school facilities.

Mr. Long also advised the consolidation of New Mexico and Arizona into one state. When Mr. Long concluded Mr. Bailey gave notice of a motion to strike out the provision prohibiting the abridgment of the right of suffrage on account of race, color or previous condition of servitude as unnecessary. He also gave notice of other amendments which he intended to offer. The authority of congress over the proposed states. One of these eliminates the provision making Guthrie the capital of Oklahoma

until 1910. In a brief speech he said he did not favor the union of Oklahoma and Indian Territory, but he recognized the probability of that result, and he believed the state would be one of the richest in the Union.

The senate went into executive session at 4:45 p. m., and adjourned five minutes later.

WITHDREW HIS MOTION AND WAS SENT TO JAIL

Denver, Colo., Feb. 4.—William C. Lyons, convicted of being an accessory to illegal voting at the November election, today withdrew his motion for a new trial and Judge Frank T. Johnson sentenced him to jail for six months. Lyons was a clerk in the city auditor's office.

Guy G. Wheeler and Charles R. Reeve, election officers, were convicted today of breaking the seals of ballots and were sentenced to jail for six months each, the sentences to be co-incident with those which they are now serving in violation of the supreme court's injunction.

CAUGHT BY THE GRIP-- RELEASED BY PE-RU-NA.

La Grippe Is Epidemic Catarrh.

IT spares no class or nationality. The cultured and the ignorant, the aristocrat and the pauper, the masses and the few, are all caught in the grip of a terrible monster. Grip is well named. The original French term, la grippe, has been shortened by the busy American to read 'grip'.

Without intending to do so, a new word has been coined that exactly describes the epidemic which has gripped the world. It has been coined by a man with a terrible grip who had clutched us in its fatal clasp. Men, women, children, whole towns and cities are caught in the baneful grip of a terrible monster.

Have you the grip? Or, rather, has the grip got you? If so, read the following letters.

These testimonials speak for themselves as to the efficacy of Peruna in cases of la grippe or its after-effects.

Saved by Pe-ru-na.

Hon. James R. Guill is one of the oldest and most esteemed men of Omaha, Neb. He has done much to make it what it is, serving on public bodies a number of times. He endorses Peruna in the following words:

"I am 68 years old, am hale and hearty and have been this way for many years. Two years ago I had la grippe—my life was despaired of. Peruna saved me."—J. R. Guill.

A Relative of Abraham Lincoln.

Mr. Silas S. Lincoln, who resides at 813 F street, N. W., Washington, D. C., is a relative of Abraham Lincoln. He writes:

"I had la grippe five times before using your medicine. Four years ago I began the use of Peruna, since which time I have not been troubled with that disease.

"I can now do as much work at my desk as I ever could in my life. I have gained more than ten pounds in weight."—S. S. Lincoln.

Per-na Not Only Cured La Grippe but Benefited the Whole System.

Miss Alice M. Dresler, 1312 N. Bryant Ave., Minneapolis, Minn., writes:

"Last spring I suffered from la grippe and was partially cured, but the bad after-effects remained through the summer and somehow I did not get strong as I was before.

"One of my college friends who was visiting me asked me to try Peruna and I did so and found it all and more than I had expected.

"It not only cured me of the catarrh but restored me to perfect health, and built up the entire system."—Alice M. Dresler.

Thousands of Testimonials.

We have on file thousands of testimonials like those given above. We can give our readers only a slight glimpse of the vast array of uncollected endorsements Dr. Hartman is constantly receiving for Peruna.

Address Dr. S. B. Hartman, president of the Hartman Sanitarium, Columbus, Ohio.
