the judiciary and great financial msti tutions and corporations, and publication of such acts by the masses, gravel threaten the future of the country. He pointed to the lessons taught by the fall of the ancien. Roman repub-lic, the Reign of Terror in France, and the disasters which befell Russian arms in the recent conflict in the far east, all of which, he said, were due to pal-liated dishonesty.

Hears Rumbling from Aftar.

"I hear voices from the east and voices from the west," he said; "ill-boding voices, voices from the pu pit and the divine, voices from the college and the educator, voices from the bench and the bar, voices from the press and its sages, the voice of the president himself, denouncing in ringing tones and deploring the universal spread of selfishness in its meanest and most r_pulsive form—the form of dishonesty. They bewait one universal carnival of dishonesty. Alas, the voices are not unconfirmed."

The man who imposes a duty, or leads another, with or without a bribe, to impose a duty in order to fill his pockets, is dishonest, and all the more baneful is his dishonesty because he extracts his plunder from the poorer classes, who cannot resist. He does the deed of a high wayman with the air of a saint, and poses before his fellow citizens with a self-satisfied mein and surrounds his head with a self-created halo." Organizing for Reform.

In conclusion, Mr. Simmons said: While the situation that confronts us undoubtedly serious, we cannot meet by adopting pessimistic views. We

A Remedy Which Has Revolutionized the Treatment of Stomach Troubles.

The remedy is not heralded as a won-derful discovery, nor yet a secret patent medicine, neither is it claimed to cure anything except dyspepsia, indigestion and stomach troubles with which nine

and stomach troubles with which nine out of ten suffer.

The remedy is in the form of pleasant tasting tablets or lozenges, containing vegetable and fruit essences, pure aseptic pepsin (government test), golden seal and diastase. The tablets are sold by druggists under the name of Stuart's Dyspepsia Tablets. Many interesting experiments to test the digestive power of Stuart's Tablets show that one grain of the active principle contained in them is sufficient to thoroughly digest 2,000 grains of raw meat, eggs and other wheat

gan is so much abused and overworked as the stomach.

This is the secret, if there is any secret, of the remarkable success of Stuart's Dyspepsia Tablets, a remedy practically anknown a few years ago and now the most widely known of any treatment for

According to government officials, both prisoners have confessed to having robbed the home of Mr. Lloyd, where the woman was employed and was apparently a perfect servant. Hundreds of dollars worth of diamonds and silver confiscated by the government when Hoffman and Mrs. Schiller were arrested has beeen practically identified by Mr. Montgomery as having been taken from the Lloyd home in New York. At the time of the Lloyd burglary articles to the value of \$30,000 are said to have been taken. Another charge which may be placed against the accused is that of robbing the Ansonia hotel in New York of thousands of dollars worth of jewelry and clothing.

Mrs. Schiller is known as an expert impersonator of men. Silk hats and various other articles of men's attire were found in her rooms. According to the government officials, Mrs. Schiller seems willing to accept all blame, so that Hoffman may be cleared. Hoffman admits that he met the woman near the Lloyd home, staggering under a load of valuables she had stolen. He also said that he had aided her in escaping. About 270 diamonds were found in the possession of the couple when they were arrested.

Previous to the Lloyd robbery, Hoffman and Mrs. Schiller are alleged to have been in London. They are said to have committed a robbery similar to that in the Lloyd home, and Hoffman is said to have confessed that he buried the plunder beneath a tree. Later the woman, disguised as a man. dug up the treasure. She was later joined by Hoffman, and the two field to the federal grand gury by United States. Mr. Smoot has been advised by telegram from J. Ross Clark to keep a list of the late applicants and preserve them, as it is possible the senator will want to extend them the courtesies of the road after his return from Europe. Among those who will be unable to go are John T. Caine, President Joseph F. Smith and nearly a dozen others who erossed to Callegram or want with the Las Vegas pio-

James Johnson yesterday filed in Judge Whitaker's court a suit for \$272 against the Portland Cement company, and the Maryland Casualty Investment company, amounting to one-third of a year's wages at \$68 a month. Johnson alleges that the defendant companies have an agreement whereby the cement company withholds 2 per cent of its employes' wages and pays the amount to the insurance company which in return insures the cement company against damages for injuries to employes. In his case, Johnson alleges, he lost a hand and arm on June 5, 1905, and is thus entitled to four months wages, or \$272, which has not been paid.

MESSENGER BOY LURES RURAL VISITOR INTO GIVING HIM HALF-DOLLAR FOR MISTAKE

According to one of the occupants of the McCornick block a messenger boy wormed a smooth half-dellar out of a rural visitor with little effort a day or two ago.

The country cousin had had business on one of the upper floors and, as he supposed, had rung the bell for the elevator. Instead of pushing the bell button he turned the handle on one of the messenger.

"What is wanted, sir? You rang for a messenger."

"Me?" replied the astonished countryman. "Guess you must be mistaken. I want to go down stairs and rang the bell for that gol darn holster machine that brought me up to come and get me. "It's you and not me that's mistaken." replied the kid. "You called a messenger and here I am. The rules require me to collect 30 cents and I can't go back without it."

Down the hall a short distance a messenger boy was figuring out the address on a message that he had to deliver and he was quick to see that the visitor had made a mistake. Quietly stepping up and tipping his cap he said:

Just then the elevator made its appearance, but the boy clung to the now thoroughly muddled visitor, who finally down onto his pocket and handed out the half dollar with the remark:

"Well, I don't want to see you stuck for my mistake; here's your money."
