STEAM SHOVEL AT THE CACTUS

Moved 25,400 Tons of Rock During May, Demonstrating Its Utility.

WORK FINE AT BINGHAM

IN THE MOUNTAINS OF COPPER-BEARING PORPHYRY.

CORAM'S NEW COMPANY.

Is Designated Most Important Copper Promotion This Year.

Saturday's Bosion News Bureau contains a column and a half of a write-up of the recently organized Davis-Daly Estates Copper company, the formation of which was wired from the east last week. It is described as being the most important property of the proper proper.

GRADUALLY DRAWING OUT.

General Manager of Bingham Con. Will Soon Be Footloose.

Captain Duncan MacVichie is trying to arrange matters so that he can leave for a trip to the properties of the Balak-laic Consolidated company, in Shasta county, California, tomorrow. The task of thoroughly sampling the Ohio Copper company's property has not yet been company's property has not yet been makes it inconvenient to make rapid progress in the task. Gradually Captain MacVichie is retiring from active charge of the Binsham Consolidated, and one of these days he will have secured his complete freedom from the cares of its managent. For many months he has been working to that end in order that he might escape the nerve-wrecking drudgery that the bringing out of the mines of that corporation has entailed. That

he will continue to serve the company in a consulting capacity is quite certain, but once free of the detail work that the active management of such propositions entail, he promises himself that no company shall ever tie him down again. Captain MacVichie has made a record to be proud of with the Bingham company, and his wide knowledge of milling and smelting, coupled with his ability as a mining engineer and expert, will command for him a broader, more congenial and just as lucrative a field in which to display his 'falents.

The Herald has not been authorized to say that Captain MacVichie is leaving the Bingham Consolidated company, but his friends have been aware of the fact that he has been shaping his affairs to that end for many months. It is known also that he has many engagements ahead that will require his attention as an expert and consulting engineer, so this reference to his gradual weaning from the duties that have so long held him captive to the Bingham properties is made in order that gossip will have less to talk about when it is finally realized that the captain is no longer with the company. ized that the captain is no longer with

UNION PACIFIC SUPPORTED

MONEY SITUATION CAREFULLY WATCHED.

New York, June 6.—The realizing of profits was rather more conspicuous in today's stock market than the new buying of stocks but the metalizing o today's stock market than the new buying of stocks, but the speculative party which is conducting the largest share of the operations in the present market did not relinquish the efforts to hold prices against this realizing by support of special stocks. There were fewer of the stocks among the influential standard is sues chosen for that purpose today and more of the less conspicuous low grade influstrials. Most of the supporting efforts centered upon St. Paul and were carried over later into Union Pacific. Outside of these there was a miscellaneous list of specialties which rose from time to time and suplemented only slightly the sustaining effect of the leaders.

There was a decided shrinkage in the ing of stocks, but the speculative party

slightly the sustaining effect of the leaders.

There was a decided shrinkage in the volume of the market. The character of the trading was but little changed, and news developments were little regarded and in fact were not of great importance. General outside interest in the market was pronounced to be still a negligible quantity. Monday's buying was professionally based to some extent on an assumption that an early adjournment of congress was probable. The selling today, which was based on professed disappointment over a revised prospect of an extended session of the law-making body, probably came from the same professional sources. The easy tendency of the local market for money continued and extended to rates for time loans carrying over the end of the year. The amount of business done was reported to be small.

"It is going to take another year to get things moving and make a camp of Ely, as it looks to me though it would be several months yet before the railroad is completed to camp. Prospectors and representatives of men seeking investments are to be encountered in the most remote corner and out of the way places and it seems to me that it will not be leng till there is much doing in some of the older camps and new country as well. I saw much interesting mineral country and was only sorry that I could not have stayed out longer."

Mining Notes.

A message from Willard F. Snyder interesting as the London market, with spot quoted at 23 40639.50.

Copper was unchanged to a shade higher in the London market, with spot quoted at 23 40639.50.

Copper was unchanged to a shade higher in the London market, with spot quoted at 25 lbs for spot and 284 ITs 6d for futures. Locally the market was firm, with lake quoted at 18.75@19.00; electrolytic. 18.374@18.75, and casting, 18.25@19.375.

A message from Willard F. Snyder in-dicates that he will be back from the east early next week with important informa-

Three cars of ore from Tintic, two from Stockton, two from Alta and one from California were reported at the Taylor & Brunton sampler yesterday.

Manager M. J. McGill of the New York Bonanza company's properties, came down from the Park last night for the regular monthly meeting of directors that will

rants in the English market. Locally iron was unchanged. No. 1 foundry northern is quoted at 18.75@19.00; No. 2 foundry northern and No. 1 foundry southern at be held this evening. There was released from the Taylor & @18.00.
Brunton sampler yesterday twelve carloads of ore from Tintic, three from Bingham, four from California, four from

Bingham, four from California, four from Nevada and two from Colorado.

Manager W. C. Alexander of the Black Diamond and Southport companies' properties at Stockton, has returned from camp well pleased with what is being accomplished at each. Under the direction of David Lemon the Southport is rapidly developing some fine shoots of ore close to the surface and from which some healthy shipments will be made during the present season.

GARDNER DAILY STORE NEWS.

You would like to be a patron of the swellest merchant tailor in the country—but you balk at his prices.

Then why not come to the Gardner store and try on one of our new models.

They have the style you covet, and the prices are tempered with justice.

"I want the best," is often heard nowadays from gentlemen who come in to look at our Clothing.

A look and a try-on of a Gardner Quality Suit invariably results in a prompt purchase.

They are priced at \$12, \$15, \$18, \$20 and up to \$35, and are much—but we prefer to have you answer.

Our assortment of Soft Shirts represents the latest creations in Shirt styles, 75c,

Shirts in pleated and plain soft tront, stiff front, short or full length —at 50c.
