THE TWO SIDES OF HISTORY.

Some Pertinent Observations Made by Writer Evidently Not Fond of Subject.

History is a running account of how King Somebody-or-other either did or did not get to a certain place, which nobody ever heard of, before King Somebody-else got there.

Like nearly everything else, history has two sides. The history of the Garden of Eden depends upon whether it is related by a man or a woman.

When a person has used coffee for a number of years and gradually declined in health, it is time the coffee should be left off in order to see whether or not that has been the cause of the trouble.

A lady in Huntsville, Ala., says she used coffee for about 40 years, and for the past 20 years was troubled with stomach trouble.

"I have been treated by many physicians but all in vain. Everything failed to perfect a cure. I was prostrated for some time, and came near dying. When I recovered sufficiently to partake of food and drink I tried coffee again and it soured my stomach.

"I finally concluded coffee was the cause of my troubles and stopped using it. I tried tea and milk in its place, but neither agreed with me, then I commenced using Postum. I had it properly made and it was very pleasing to the taste.

"I have now used it four months, and my health is so greatly improved that I can eat almost anything I want and can sleep well, whereas, before, I suffered for years with insomnia.

"I have found the cause of my troubles and a way to get rid of them. You can depend upon it I appreciate Postum."
