## UTAH STATE NEWS

The price of coal delivered to residences in Salt Lake City has been reduced from \$5.75 to \$5.00 a ton.

Seven thousand people witnessed the opening of the bicycle racing season in Salt Lake City on Monday, May 31.

A three-day session of the second annual Episcopal convention of the district of Utah was held in Ogden last week.

Two boys, while playing in a hay barn at Scofield, started a fire which destroyed the barn and several tons of baled hay.

The state pure food commissioner is getting busy in Ogden with those accused of violating the law in selling impure milk.

Utah's receipts for May amounted to only \$41,438.10, while the expenditures were \$198,499.28, according to the state treasurer.

Twenty-three new residences have been built at Green River this spring, and yet the demand for houses greatly exceeds the supply.

David Latham, who fired three shots at a policeman in Salt Lake City recently, has been sentenced to three years' imprisonment.

There were 140 graduates from the eighth grade in the public schools of Summit county, the exercises being held at Park City last week.

A strike of structural iron workers is on in Salt Lake City, non-union men having been given the places of the strikers, and considerable friction resulting.

Two eastern men are building a boat, expecting to navigate the Green and Grand rivers between Green River and Moab. Gasoline will furnish the motive power for the present.

Frank Huston, aged 30, a waiter in one of Salt Lake City's leading cafes, was found dead in a bathroom, one day last week. It is believed he fell backward into the tub, breaking his neck.

A large acreage will again be planted to cantaloupes in the vicinity of Green River this year. The frost missed most of the fruit in the valley, and quite a little fruit will be marketed.

It is the opinion of the Ogden police that the three men arrested in Omaha for the robbery of the Overland limited are the same men who held up the White Elephant gambling house in Ogden.

While switching cars at Ogden, Tim Featon, a Union Pacific switchman, fell between the cars, the wheels passing over his hands, cutting off all of his fingers, but leaving the thumbs on both hands.

Whitney Rynders, aged 20, an employee of the Deseret News, fell underneath a street car in Salt Lake City, in attempting to alight from the car, and was so seriously injured that death resulted a few hours later.

The city council of Hyrum has decided to remodel the electric light plant which is owned by the people of Hyrum, so that the service will not only be better, but it will be able to supply light for the town of Wellsville.

William Clayton, formerly employed in a gambling house in Ogden, attempted suicide near Layton, on June 2, cutting his throat with a pocket knife. He is now in a hospital, with the chances for his recovery rather against him.

Salt Lake capitalists have purchased the property of the Utah Marble company, near Logan, which has been inactive for some time because of lack of capital, and will open up the property, which furnishes some excellent marble, at once.

That dry farming in Cedar valley has proved a success is demonstrated after three years of experiments. There are over 1,000 acres of promising grain now surrounding the little town of Fairfield, with every indication of a bounteous yield.

Gustavus Perry, son of Dan Perry of Willard, met with a painful accident last week while riding a wild horse. The animal became frightened, ran away and left on the little boy, breaking his left leg between the knee and ankle in two places.

Elaborate preparations are being made for the entertainment of the old folks in Salt Lake City on June 29, when the annual convention will be held, all over 70 years of age being carried to the capital city by the different railroads free of charge.

Mrs. Lillie Huston, whose husband, Frank Huston, met death in Salt Lake City last week as the result of falling backward into a bath tub, breaking his neck, attempted suicide the following day after the tragedy, but was saved by prompt medical assistance.

Judge Henry Perry Henderson, president of the Salt Lake City board of education, and one of the best known lawyers in the state, died on April 3, at the age of 65, from an attack of pneumonia. Judge Henderson was born in New York state and came to Utah in 1886.

## NATIONAL BANKS ARE PROSPEROUS

### Figures Just Made Public Show an Enormous Increase of Business for the Current Fiscal Year.

Since May 14 There Has Been an Increase of 105 in the Number of National Banks—In Oklahoma, 71 Withdrew From the National System.

Washington.—During the current fiscal year the national banks of the country have received in deposits \$4,826,060,384—more than a billion and a half dollars in excess of the entire outstanding money supply of the United States, according to figures made public June 6.

The year has been one of exceptional prosperity for national banks. Since May 14, 1908, there has been an increase of 105 in the number of national banks. Of the number that went into liquidation, 71 were in Oklahoma and withdrew from the national system to reorganize under the state law to take advantage of the state guaranty law. Notwithstanding the unusual number of banks withdrawing from the national system, the aggregate capital, surplus and profits of the banks reporting on April 28, 1909, amounted to \$1,729,057,010, or an increase of \$58,586,428 in the year. Loans and discounts increased \$434,763,993; deposits, \$513,403,584, and total resources \$774,261,145.

## BALLOON ROUTE IN FRANCE.

### Regular Passenger Service Through the Air to be Established.

Paris.—The French Aerial league has perfected plans for lines of dirigible balloons from Paris respectively to Nancy, Lyons, Pau and Rouen. Five dirigibles will be employed in this service. Their length will be between 60 and 80 meters. Two will have a capacity of 4,500 cubic meters, one of 5,000 and two of 7,000 cubic meters. All will be capable of an average speed of 31 miles an hour. One of the dirigibles, which has been named "Wille Nancy," has been constructed, and the Paris-Nancy line, with a daily service stops will be made at Meaux and Rheims.

## PARALYTIC BURNED TO DEATH.

### Carelessly Dropped Match Causes Awful Tragedy.

Butte, Mont.—Fred Bachman, a paralytic, is dead from burns received as he lay on a couch smoking a pipe. Lighted ashes or a carelessly dropped match lighted a curtain, and Bachman, unable to move or utter a sound, was slowly enveloped by the flames which covered him from head to foot and burned the bedding from under him.

In an adjoining room lay Bachman's mother, also suffering from paralysis and unable to move hand or foot to save her son. The fire department extinguished the flames. Bachman was a well known bricklayer and a pioneer resident of the city. He was stricken with paralysis a week ago.

## Packing Company Pays \$82,000 Fine.

Topeka, Kan.—That the Cudahy Packing company has paid \$82,000 to the government, this being the amount due under the indictments secured against the company for alleged violation of the internal revenue laws is announced by United States District Attorney H. J. Bone. Indictments on 695 counts are now pending against the company. The company was charged with putting a one-fourth cent revenue stamp on oleomargarine that required a 10-cent stamp.

## Compliments Magoon and Barry.

Washington.—President Taft transmitted to congress with a special message on Saturday the report of Chas. E. Magoon, who served as provisional governor of Cuba during the last American occupation. The president takes occasion to congratulate Governor Magoon warmly and gives high praise to Major General Thomas H. Barry, who was in command of the United States forces. The president said: "I am glad to express the hope that the new government will grow in strength and self-sustaining capacity under the provisions of the Cuban constitution."

## Torpedo Exploded on Mn's Head.

Denver.—A railroad torpedo, used to stop trains when the tracks are blocked, effectually stopped Claude Hackney. Riding on the rear platform of a special train carrying an Eagles' picnic crowd from South Platte to Denver, Hackney became embroiled with Tom Brennan, who seized a trainman's lantern and struck Hackney over the head with it. A torpedo attached to the lantern struck Hackney's forehead and exploded, tearing out one eye and injuring him so badly that recovery is doubtful.

## Successful Airship Flight.

East St. Louis, Ill.—H. M. Seeler, a mechanic, made a successful inaugural flight on Saturday in a new dirigible balloon invented by W. H. Smith of this city. The balloon shot up into the sky and traveled at a tremendous height. The ascent was made from Edgemoor, Ill. Seeler guided the craft nine miles toward Belleville, Ill., and then returned in a zigzag course. As he descended the steering apparatus fouled a chimney and was broken, but Seeler brought the airship to earth without mishap.

## MANIAC DYNAMITES HOME CAUSING DEATH OF THREE

### Oregon Farmer Blows Up His Own Home, Killing His Wife, Daughter and Himself.

Oregon City, Ore.—In a fit of insanity, Bert Garrett placed a charge of dynamite under the kitchen of his house, twenty miles from here, and blew himself, his wife and daughter, aged 5, into eternity.

Another daughter, Villa, aged 16 years, who was in the upper portion of the house, was perhaps fatally injured. The tragedy took place when Mrs. Garrett and her little daughter Beulah were inside preparing breakfast. The little girl was instantly killed, as was Garrett, who was blown thirty feet from the house against a tree, almost tearing off his head. The force of the explosion was so great that Garrett's body was blown twenty feet beyond the tree. Mrs. Garrett was so badly injured that she died in an hour. The effect of the explosion was felt for a great distance.

Garrett had acted strangely of late and had inquired the quickest means of self-destruction, but never intimated that he wanted to kill the members of his family.

## FRANCE HONORS SAN FRANCISCO.

### Presents Medal to Commemorate Rehabilitation of City.

San Francisco.—Citizens of two republics commemorated anew on Saturday the reconstruction of a city practically annihilated a little over three years ago, and San Francisco received from the diplomatic representative of France a great gold medal, bearing a sister republic's acknowledgment of a heroic achievement, when Jean Jules Jusserand, ambassador of the French republic, handed to Mayor E. R. Taylor the splendid token of a nation's appreciation. The enthusiasm of the multitude reached a high pitch when the mayor, in response, paid tribute to the activities of Lafayette and other French allies of the American revolution. The presentation ceremony brought out one of the most brilliant assemblages since the earthquake of April 18, 1906.

## MILLION FOR HERO FUND.

### Carnegie Extends His Operations to France, America's Only Ally.

Paris.—Andrew Carnegie's letter to Premier Clemenceau, donating \$1,000,000 to the "hero fund," was made public Saturday. Mr. Carnegie writes that the success of the fund in Canada, America and England induced the desire to extend the benefits to France, "the only ally America ever had." After expressing his gratification that an era of peace and good will between France, Great Britain and America now is established, Mr. Carnegie said: "War between these three powers is inconceivable. They are marching together, toward the suppression of the world's worst evil—the murder of man by man, as a means of settling international disputes."

## IMPROVING NATIONAL FORESTS.

### Thousands of Dollars to Be Spent on Roads and Trails.

Washington.—Six hundred thousand dollars will be spent during the fiscal year 1908-1909 for the construction of roads, trails, telephone lines and other permanent improvements on the national forests. Congress has appropriated the same amount for this purpose during the fiscal year of 1909-1910.

In order that the forest rangers may cover the large area contained in the district, it is very necessary that a system of trails be constructed along routes which give the best control of the areas to be patrolled.

## Health Officers Want Government to Protect Living from the Dead.

Washington.—That danger lurks in the transportation of the bodies of those who have died from infectious diseases was made evident at Saturday's session of the annual meeting of the conference of state and provincial boards of health of North America. The committee appointed to report on the subject found fault with the present system of shipping bodies from one state into another, and pointed out the necessity for changes in the present regulations, adopted twelve years ago.

## Hold-up Knocked Out.

Ogden, Utah.—Deliberately feigning drunkenness to allow a supposed highwayman, who was shadowing him, to overtake him and go through his pockets and then handing the hold-up man a knock-out punch under the chin, was the method employed by Neils Larsen in capturing a "bad man." Policeman Dan Martin being summoned after the highwayman was down and out from the punch delivered by his victim. The highwayman gave the name of Clyde Irvin and the "hold-up" took place on Washington avenue.

## New Ships for Russia.

St. Petersburg.—The council of the empire has adopted the marine budget restoring the appropriation of \$1,700,000 rejected by the duma. This amount is to go toward the construction of four new battleships authorized in 1908, but as yet the work of construction has not begun. Keels of the first two battleships will be laid July 18 and August 3. Vice Admiral Birlioff, ex-minister of marine, in his speech on the subject of new ships of war, advocated the sale of all old vessels of the navy which have become useless.

## JURY INDICTS NEVADA MINERS

### Prominent Men Are Charged With Making False Reports to State Bullion Tax Collector.

United States Senator Oliver of Pennsylvania and Senator William Flynn of Pittsburg Are Connected With the Property Being Investigated.

Goldfield, Nev.—Forty-six indictments were returned by the grand jury on June 4 against officers of the Pittsburg-Silver Peak and Florence-Goldfield Mining companies of this state, charging that false reports had been made by them to the state bullion tax collector in connection with the output of properties. The names of those indicted were not made public and will be withheld until the persons named are served to appear.

The action of the grand jury is viewed with great interest, because of the fact that many prominent men are connected with the companies in official capacities. United States Senator Oliver of Pennsylvania and Senator William Flynn of Pittsburg are connected with the Silver Peak mine, while A. D. Parker, vice-president of the Colorado Southern railroad, and Thomas Lockhart, a millionaire of Reno, Nev., are interested in the Goldfield-Florence.

## MAY NOT VISIT WEST.

### Illness of Mrs. Taft Will Cause Postponement of President's Trip.

Washington.—President Taft on Friday sent Senator Guggenheim of Colorado, who has been active in urging the president to visit the west this summer and informed him that owing to the continued illness of Mrs. Taft he would be unable to make his western trip as early as he had expected and would have to postpone it until some time in the fall. The president had planned to go west in August to attend the Grand Army encampment at Salt Lake City, August 10; Trans-Mississippi congress at Denver, August 16; formal opening of the Gunnison irrigation project, August 19; and important meetings at other western cities.

He also had considered extending his visit to Alaska. His change in plans will make it necessary to give up these engagements which, however, had been made but tentative. The president expressed much regret that he would be unable to carry out his original program and that he would have to disappoint so many friends and organizations from whom he had received invitations.

## SAVED EXPENSE OF TRIAL.

### Montana Murderer Ends His Own Life in a Lonely Spot.

Kalispell, Mont.—The badly decomposed body of Edward Finley, who murdered James Rafferty in cold blood, shooting him down without warning in a saloon here on the night of December 3, and disappearing in flight before the officers arrived, was discovered by Mrs. Paul Raller in the dense underbrush in a coulee two miles southeast of this city last Friday. The ghastly cadaver lay on its back clutching the stock and trigger of a Winchester rifle, the same weapon with which death had been dealt to Rafferty, because of alleged short change by the bartender. The entire top of the skull was blown off.

## Bartender a Good Marksman.

Bingham, Utah.—Pete Bogdan shot and instantly killed George Donich in the Berkeley Club saloon here at 2 o'clock Saturday morning. Donich entered the saloon about half an hour before the shooting occurred, and began to swear at Bogdan, the bartender. He finally became so enraged that he pulled a revolver from his pocket and shot at Bogdan. The bullet went wild and entered a post supporting the building. Seeing Donich again preparing to shoot, Bogdan brought his own revolver into play and killed the man.

## Denverites Capture Railroad.

Denver.—The control of the Argentine Central railroad, operating from Silver Plume, Colo., to the top of Mount McClellan, has passed to a syndicate of Denver capitalists. The road, which was built by E. J. Wilcox to transport ore from the Waldorf mine on Mount McClellan to Silver Plume, is eighteen miles long. It is the intention of the Denver syndicate to extend the road three and a half miles to the top of Gray's peak, where a summer hotel will be built. The altitude attained will be 14,441 feet.

## Lumbermen Lose Strike.

McCloud, Cal.—The striking lumbermen have reduced their demand for an increase of 50 cents a day to 25 cents; which, however, the McCloud Lumber company refused to accede to. President Queal declaring that rather than yield to the strikers the company would close its plant indefinitely if it was found impossible to get workmen to replace the strikers. Convinced that the strike is lost, many of the lumber hands are preparing to leave. More than \$200,000 is said to be in the company's bank to the credit of its employees.

## SOUTH HONORS ANNIVERSARY OF BIRTH OF JEFF DAVIS

### Memorial Park in Kentucky Town Purchased by Admirers of Confederate Chieftain is Formally Dedicated.

Fairview, Ky.—Among the trees which have grown up about the birthplace of Jefferson Davis since the year, early in the nineteenth century, when the Davis family removed to Mississippi, the Jefferson Davis Memorial park was dedicated on Thursday. Northeast across the state is Hodgenville, near which Lincoln was born eight months after his great opponent.

In September, 1907, when the gray ranks of Kentucky's famous "Orphan brigade" met in Glasgow, Ky., at the grave of General Joseph H. Lewis, their commander, former Governor Buckner of Kentucky, broached the plan of the Jefferson Davis Memorial association. Subscriptions were started, the women of the south aiding ably, and when all but \$4,000 had been raised to purchase seventeen acres at Fairview, General Bennett H. Young, commanding the Kentucky division, United Confederate Veterans, advanced that sum and made the memorial possible.

Oratory, music and flowers made the day notable. A basket dinner and a barbecue were provided by the people of Todd and Christian counties, which share equally the town of Fairview.

General Young, a former lieutenant of the gray, wrote the chief address of the day, and it was read by Colonel Milton. General Young asserted that every southern state should rear a shaft to Jefferson Davis, whose character and sufferings he dwelt upon. He paid high tribute to Lincoln, saying that the time had come when men might speak kindly and truly of the past.

The plan is to raise \$30,000 more with which to build a memorial temple to contain all the records of the confederacy and to remodel a two-story residence on the Davis farm to house the widows of confederate soldiers.

## LEPERS ARE CURED.

### But Years of Their Lives Are Wasted and They Are Left Desolate.

Honolulu.—After some of them had spent twenty years of their life in the leper settlement on the Island of Molokai, ten of eleven lepers who were returned here at the instance of the territorial legislative committee for re-examination have been found free of the disease. Of these, two are boys of six and seven years, but the others vary in age from 27 to 79, and some of them have spent many years in the settlement.

A pathetic feature of the re-examination is the probability that some of the older patients will petition to be returned to the island, as they have been shut off from the world and their friends so long that they have no place else to go. A few of the patients were sent to the settlement before the bacteriological test for leprosy was discovered, and it is believed that in some cases a natural cure has been effected.

## Held Prisoner by Indian Police.

Los Angeles.—Ralph Rogers, a banker of this city, has just reached Los Angeles from Palm Springs, Riverside county, and relates a thrilling story of how he and his son, Leslie Rogers, were attacked by two Indian police from the Agua Caliente reservation, (to whom they surrendered after being shot at several times. The Indians then handcuffed them together and held them in the hot sun on the desert for eight hours with the temperature at 115 degrees. The trouble arose over a question of land ownership.

## Floods in Idaho.

Spokane, Wash.—According to reports received from Lewiston, Idaho, the Clearwater river is a raging torrent and is rapidly reaching the high water stage of 1894. The Commercial Trust company's bridge at Lewiston is liable to go. The Snake river is seventeen feet above low water, and one foot below the highest record. Several houses on the lowlands are flooded. At Kamiah, one stone pier for the new steel bridge has been washed away. At Freer, a rise of another foot will block the railroad.

## Boy Causes Wreck.

Alpina, Mich.—Discovering a Detroit & Mackinac railroad locomotive standing unguarded, with steam up, Joseph Jeskonski, 12 years old, climbed into the cab, pulled the throttle wide open and jumped to the ground again, as the engine went spinning down the tannery sidetrack toward a standing freight train. The low locomotive and several freight cars were demolished in the resulting crash. The damage amounted to \$3,000, and the boy, who was slightly injured, was arrested.

## Bigamist Commits Suicide.

San Francisco.—Overcome by remorse and unable to bear the reproaches of his bride of less than twelve hours, to whom he had confessed that he had another wife living, William Graham ended his life Thursday by swallowing crude carbolic acid. He was married to Miss Hannah E. Carroll Wednesday night, and after the wedding festivities confessed to her, though withholding the name and whereabouts of his other wife. His bride upbraided him, when he ended his life.

## SERIOUS RIOTING RESULT OF STRIKE

### Attempts of Street Car Company to Run Cars With Non-Union Men Results in Fierce Battle.

### Over One Hundred Men Injured During Conflict, the Strike-Breakers in a Number of Cases, Deserting Their Cars.

Philadelphia.—The attempt of the Philadelphia Rapid Transit company to run its cars with non-union men resulted Wednesday night in a number of serious riots. It was the first effort to operate the lines at night, and after several futile efforts to get the cars through the mobs they were sent back to the barns. At least one hundred men were more or less seriously injured in the rioting.

In the Kensington district, where many mills are located, feeling ran high. Mobs of men, women and children pulled the motormen and conductors from their cars and beat them severely. In many instances cars were set on fire. The police were powerless to control the strike sympathizers. When they charged a mob it separated only to form again in the vicinity of another car. Several policemen were injured.

In West Philadelphia dynamite cases were placed on the tracks and crowds stoned the non-union workmen when they attempted to bring out cars, forcing them to return to the barn. In the downtown section conductors and motormen were pulled from their cars and their clothes torn off by mobs of strike sympathizers. In some cases the terrified men had to be taken to private houses and guarded by police to save them from harm.

The imported crews proved a disappointment to the company, many of them deserting their cars at the first sign of trouble and leaving them standing in the street at the mercy of the mob.

## LANDSLIDE IN IDAHO.

### Roosevelt Flooded as Result of Slide Three Miles in Length.

Boise, Idaho.—A special to the Statesman from Roosevelt, Thunder Mountain, May 31, via Smiths Ferry, June 2, says:

"A landslide three miles in length and 200 feet wide, that piled up along Mule creek to a depth of 100 feet, occurred here today. The creek was forced out of its bed, the back waters flooding Roosevelt until, as this word is sent, most of the buildings in the town are floating.

"The placer property of Caswell & Curran is destroyed, the giant machinery and pipe being buried. No lives were lost and no one was injured so far as known.

## CASE POSTPONED.

### Prominent Men to Testify in Celebrated Panama Les Majeste Trial.

Indianapolis.—Judge Anderson on Wednesday continued till October 11 the hearing of the case growing out of the publication of the Panama graft charges. This was done on the government's contention that such delay was necessary in order that the witnesses might be heard.

Prominent financiers, politicians and government officials must testify in the criminal libel case of the government against Delavan Smith and Charles R. Williams, owners of the Indianapolis News.

## Strikers Overpower Deputies.

Sisson, Cal.—The power-house and lighting plant at McCloud were captured by the striking shingle mill employes on Wednesday and the town was in darkness Wednesday night. Between 300 and 400 armed strikers marched on the plant in a body late in the day, drove off the twenty-five deputy sheriffs on guard and took possession, compelling the men at work to quit. The deputies deemed it useless to attempt resistance, and left when ordered to do so. Not a shot was fired. Troops have been ordered to the scene of the trouble.

## Woman Was Probably Murdered.

Los Angeles.—As a result of the exhuming of the body of Mrs. Eugene Bennett, it is learned that strychnine was found to have been the cause of death. This announcement has been made by the district attorney's office Harper E. Bennett, a real estate man husband of the woman, is being held for preliminary examination. Bennett had brought suit for \$50,000 damages against a local grocery firm, alleging that his wife had been killed by poisonous poisoning, due to eating canned chile con carne.

## May Be Treasure Ship.

Chester, Pa.—Government officials are agitated over the discovery of an obstruction in the Delaware river in the vicinity of Fort Mifflin, which they think may prove to be a treasure ship. While a government boat was working there, the suction pump brought up several helmets such as were worn by the English soldiers and other equipment. This discovery has led to the belief that it is one of the boats of the English government which brought gold to this country to pay its soldiers during the war of 1812 and was sunk at this point.
