

That our American forests abound in plants which possess the most valuable medicinal virtues is abundantly attested by scores of the most eminent medical writers and teachers. Even the untutored Indians had discovered the usefulness of many native plants before the advent of the white race. This information, imparted freely to the whites, led the latter to continue investigations until to-day we have a rich assortment of most valuable American medicinal roots.

Dr. Pierce believes that our American forests abound in most valuable medicinal roots for the cure of most obstinate and fatal diseases. It is clearly shown in a little book, in confirmation of this conviction, he points with pride to the almost marvelous cures effected by his "Golden Medical Discovery," which has proven itself to be the most efficient stomach tonic, liver invigorator, heart tonic and regulator, and blood purifier known to medical science. Dyspepsia, or indigestion, torpid liver, functional and even valvular and other affections of the heart yield to its curative action. The reason why it cures these and many other affections, is clearly shown in a little book of extracts from the standard medical works which is mailed free to any address by Dr. R. V. Pierce, of Buffalo, N. Y., to all sending request for the same.

Not less marvelous, in the unparalleled cures it is constantly making of woman's many peculiar affections, weaknesses and distressing disorders, is Dr. Pierce's Favorite Prescription, as is amply attested by thousands of unsolicited testimonials contributed by grateful patients who have been cured by it of catarrhal pelvic drains, painful periods, irregularities, prolapsus and other displacements caused by weakness, ulceration of uterus and kindred affections, often after many other advertised medicines, and physicians had failed.

Both the above mentioned medicines are wholly made up from the glyceric extracts of native medicinal roots. The processes employed in their manufacture were original with Dr. Pierce, and they are carried on by skilled chemists and pharmacists with the aid of apparatus and appliances specially designed and built for this purpose. Both medicines are entirely free from alcohol and all other harmful, habit-forming drugs. A full list of their ingredients is printed on each bottle wrapper.

Constipation
Baked sweet apples, with some people, bring prompt relief for Constipation. With others, coarse all-weather bread will have the same effect. Nature undoubtedly has a vegetable remedy to relieve every ailment known to man, if physicians can but find Nature's way to health. And this is strikingly true with regard to Constipation.
The bark of a certain tree in California—Cascara Sagrada—offers a most excellent aid to this end. But, combined with Egyptian Senna, Slippery Elm Bark, Solid Extract of Prunes, etc., this same Cascara bark is given its greatest possible power to correct constipation. A toothsome Candy Tablet, called Lax-ets, is now made at the Dr. Shoop Laboratories, from this ingenious and most effective prescription. Its effect on Constipation, Biliousness, Sour Stomach, Bad Breath, Sallow Complexion, etc., is indeed prompt and satisfying.
No griping, no unpleasant after effects are experienced, and Lax-ets are put up in beautiful lithographed metal boxes at 5 cents and 25 cents per box.

EPH HUGHES GRADUATES.

A little more than six weeks ago Mrs. Hannah Hughes left Spanish Fork for Philadelphia to witness the graduation exercises of her son, Ephraim G. Hughes, who graduated from the Jefferson Medical college June 3, 1907. This was a very suitable occasion for mother and son to meet and partake of the spirit and share the honors of the day. After the exercises were over, George Hughes of Wilkes Barre entertained in honor of Dr. Hughes at the Hotel Walton, one of the largest hotels in America. The guests were Mrs. Hannah Hughes, Dr. E. G. and Mrs. E. G. Hughes, J. Russell Hughes and Joseph Hughes. During the absence of Mrs. Hughes she visited, in company with her son, Joseph Hughes, New York, Wilkes Barre, Scranton, Carbondale, Kingston, Warrior's Run, Pa., and Youngstown, Ohio. In all the above places they visited in the neighborhood of 200 relatives. In every instance they received a warm, hearty welcome, the folks in every place pleading a longer stay. In fact, from the beginning to the end it was one continuous round of pleasure.

Mrs. Hughes had perfect health during her absence; although past 70, she walked and rode hundreds of miles in visiting the beautiful parks, gardens, places of historical value, such as Independence Hall, Carpenter's Hall, Betsy Ross' home, Grant's tomb, Delaware river, Hudson river, Lehigh valley, Wyoming valley.

In going east she traveled over the Union Pacific, following the old pioneer trail of '47. Returning home she came over the Pennsylvania to Chicago, Burlington to Denver, and D. & R. G. to Springville. The principal places of interest along this route are Pittsburg, Youngstown, Chicago, Burlington, Council Bluffs, Omaha, Lincoln, and Denver.

Mrs. Hughes and her son reached home Saturday, June 8th.

No Fear of War With Japs.
London.—"Such a contingency as an outbreak of war between the United States and Japan is regarded by educated Japanese as almost inconceivable," cables the correspondent of the Times at Tokio. "If the Progressives are inclined to stir up agitation for the defense of Japan's treaty rights it will be aimed solely at discrediting the ministry and in the interests of party politics. The Progressives themselves would take the lead in denouncing such a war if there was any real danger thereof."

Seattle.—C. T. Takahashi, who represented the Japanese of the northwest at the conference with Viscount Aoki in Washington, continues to deny absolutely the truth of the reports crediting him with attacking the conduct of the Japanese ambassador at Washington and of being involved in a combination against the present Japanese ministry, and says: "It is evident that these false reports are continuing to be given to the press by some of the disappointed people who want to gain influence by it."
