ON VERGE OF REVOLUTION

Wild Scene in the French Chamber of Deputies During Debate on Recent Railroad Strike.

Paris.—The debate on the railway strike, in which the government has been bitterly attacked in the chamber of deputies, by the Socialists, took a new and dramatic turn Saturday night. During the session, which was not only the most violent in the history of the French parliament, but rivaled in disorder and turbulence the sessions of the national convention under the French revolution, Premier Briand himself was the pivot on which the drama turned, and the general verdict is that certain government victory has been changed into possible defeat.

Smarting under the repeated attacks of M. Juarez, the leader of the Socialists, and others, the premier leaped to his feet and, defending the cabinet's suppression of the strike as a revolutionary outbreak, exclaimed: "If the actual laws had been insufficient, we would not have hesitated to resort even to illegality for the purpose of preserving the fatherland."

An uproar followed these words. The Socialists jumped up and were joined by a number of Radicals. With shouts of anger they moved toward the tribune, crying, "Resign! Dictator, resign!"

Desks were banked and the chamber was a perfect bedlam with the noise of shouts and cheers. One Socialist tried to fight his way to the tribune to strike Briand. Throughout it all the premier stood calm and dignified, and for three-quarters of an hour waited patiently, but vainly, to make himself heard. Finally, M. Brisson, president of the chamber, amid cries and imprecations from the Socialists, adjourned the debate.

Hickory Supply Running Short.

Washington.—Warning that the original supply of hickory, the best American fuel wood and the most difficult to replace in case of American hardwoods, is approaching exhaustion, is given in a bulletin of the department of agriculture compiled by Anthony T. Bolson, forest assistant, and J. A. Newlin, engineer in timber tests. It shows that virgin hickory is disappearing rapidly, and that there are no foreign sources which can be drawn upon when the home supply is exhausted.

Four Men Were Killed Outright, While Two Managed to Crawl From Twisted Mass of Steel and Iron, Terribly Injured.

Montevideo, Minn.—Four stockmen from Montana and South Dakota were killed, two injured so seriously that there is slight chance of their recovery and an engineer and fireman badly crippled when section four of the Chicago, Milwaukee & St. Paul east-bound passenger, No. 6, from Butte, Mont., crashed into the rear end of a stock train as it was endeavoring to back in on the siding to let the passengers by, a mile west of here, on Sunday.

Engineer Tat Parker and Fireman Sticker of the passenger saw the tail lights of the stock caboose and jumped in time to save their lives. Both were injured. Six stockmen coming east with the train load of cattle, were asleep in the caboose when the passenger bore down upon it and four were killed outright. Two, George Raeholdt and William Bowring, managed to crawl through the mass of steel and iron, more dead than alive and are frightfully burned and injured. They are not expected to live. The force of the impact shattered the caboose, derailed the two cars of cattle ahead of it and toppled the engine of the passenger over sidewalks across the track on top of the wreckage.

Fire started and the bodies of the four dead men were burned. Two cars of cattle were also burned before the fire department from the city got to the scene. Box cars on nearby tracks were licked up by the flames, and in order to save the passenger coaches they were uncoupled and pushed back by passengers and members of the train crew. Late Sunday afternoon the charred remains of the men burned to death were recovered.

REVOLUTION IN URUGUAY.

Several Skirmishes Have Taken Place and Situation is Serious.

Montevideo, Uruguay.—The revolutionary movement is taking on a serious aspect. There are now 10,000 armed revolutionists who are gradually being concentrated. Several skirmishes have taken place, but the casualties have been suppressed.

Dr. A. Bachioli, the foreign minister recently issued a manifesto declaring that the government was unable to prevent the revolution from spreading, because, outside of the capital, the sympathies of the people were entirely with the revolutionists. It was partly because of the influence of this manifesto that President Williams requested Bachioli's resignation.

The opposition papers predict that President Williams will be forced to resign and they prophesy the hasty return of ex-President Jose Battle y Ordovez. The government is keeping the true situation from becoming public generally by aid of the censorship.

Champions of Garment Workers Mingle With Strikers and are Charged with Rioting.

Chicago.—Mounted policemen charged threatening mobs of striking garment workers and made numerous arrests in three sections of Chicago on Tuesday, only to be dumfounded when met by obdurate groups of well-known club and society women, who produced engraved calling cards at police stations in lieu of bail bonds. It was a new experience for the police and plainly confused them. A score of these women champions of the garment workers who faced the rioting were taken into custody. They were immediately released however, when their identity became known to the police.

One of them was injured when struck by a policeman's club, but her name did not become known, as she was hurriedly placed in an automobile and taken to her home.

Most of the women of prominence involved in the demonstrations were garbed as working girls and for this reason the police could not distinguish them from strikers until after arrests had been made.

Aeroplanes for the Government.

Washington.—Twenty aeroplanes at least are needed for the United States government service, says General James Allen, chief signal officer of the army, in his annual report, made public Tuesday. There was not room to pass and the car struck the bear squarely, carrying it along, growing, on the hood of the car, until a bad place in the road threw it off. In falling the bear went under the wheels.

As soon as the automobile party discovered that the bear was as frightened as they were, and was making tracks for the woods, they righted the car and proceeded to this city on their way to New York.

COW BREAKS UP AUCTION

Animal Resents Being Sold for \$73, and Dashes in Crowd, Injuring Several.

La Fayette, Ind.—A Jersey cow, an apparently docile animal, nearly caused a panic during a sale at the Guy Stockton farm, on the Dayton road east of the city.

An auctioneer had just sold the cow to the highest bidder for \$73 when the animal made a lunge into the crowd gathered in the barnyard. Dr. T. S. Motter was knocked down and his leg cut, and Georgia, the twelve-year-old daughter of Mr. Stockton, received a fractured arm. Covington. The top of the lad's head is white, but the two lower inches of hair are black. His father says the child has been getting gray since he was four years old. The boy says he's afraid to go among strangers and that when anybody comes to visit them, he runs away and hides.

Long Names Once the Fashion.

New York.—It seems that 100 years ago it was customary to christen a child with names long enough to supply half a dozen families. The following notice taken from a newspaper dated September 18, 1816, gives some idea of the cognomens usually handed out at a christening. It reads: Married—Alexander Philip Socrates Aeneas, Caesar Hannibal Marcellus George Washington Treadwell and Mrs. Carolina Sophia Margaretta Maria Julienne Worthy Montague Joan of Arc Williams.
