FROM OGDEN TO HONOLULU BY WIRELESS.

Ten years ago mysterious forces were at work, carrying messages on unseen wings through space, and people wondered at the newly found power which seemed to reach on high and command an energy apart from earth.

Today the mystery is placed among the common things which serve the purposes of man.

This force, with which Marconi startled the world, and which became known as "wireless telegraphy," is now directed not only by scientific minds, but is operated by boys. Ogden has two youngsters, one 14 years and the other 12 years of age who have erected their own aerial and placed all the equipment necessary to their wireless. They "talk" at night with the ships in San Francisco harbor and occasionally they "pick up" Honolulu. These boys declare it is more difficult to communicate with Salt Lake, only 36 miles distant, than to call the operator in the "Isle of Dreams," and this is attributable to the "iron point" at the Hot Springs, north of that city.

Now and then telephone messages are caught by the wireless waves and conversations wrapped in wires are "lifted" and impinged against the aerials, and their secrets disclosed to strange ears.

NO "REDS" IN OGDEN.

When Peter Collins, the famous K. of C. lecturer, who spoke in the Tabernacle last night, was in Butte, he found that 75 per cent of his audience was antagonistic, being supporters of the "Reds" and hecklers were numerous.

In the Ogden audience last night there was not a man or woman who did not applaud his most telling points, and when he invited questions and was asked if certain associated industries was doing the right thing by Utah in attempting to disrupt the unions, his answer brought hearty applause. He said, aside from the fact that the effort to establish the open shop was a blow at unionism, the most serious feature of the movement was that it would result in driving the skilled workers from this state at a time when every large city in the United States is bidding at any price for the trained masters of their trades, and he cited certain industries in St. Louis which were offering as high as \$100 a week to get capable craftsmen.

Mr. Collins said Bolshevism is nothing more than Socialism of the Carl Marx school, which denied the existence of a Supreme Being and had a plan of action which, if successfully carried out, would destroy our present civilization based on the laws of God and the commandments given to Moses at Sinai.

As a result for present unrest and distrust, Mr. Collins urged a better understanding between labor and employers. He declared both were essential to the welfare of any community and neither side should be a law unto itself. Where there are differences, he said, there should be conferences in reaching an understanding of the problems confronting both sides.

The lecture as a whole was a masterful outline of the extreme Socialistic doctrines and a vigorous defense of Christianity as opposed to the theories of the L. W. W. and Bolshevism.

This was the second lecture in Ogden by Mr. Collins in four years. Whenever he returns, his presence will bring together another large audience, for he is no ordinary man on the platform.

A HIGHLY PROSPEROUS YEAR.

With the coming of spring, extensive plans are maturing for improvements in and around Ogden which will call for the expenditures of large sums during the construction period of 1920.

The city of Ogden alone is mapping out work which will require the outlay of approximately \$1,000,000, including the outfall sewer, extending six miles from Twenty-first street and Wall avenue to the district northwest of the city.

A contract has been let for 19 blocks of paving, which is said to be the largest single paving program ever attempted in any Utah city.

North Washington is to be paved on the east side, and the street railway is to reconstruct its line from Ogden river to the north limits of the city and meet the demands of the city's specifications as to paving.

Gardner & Co. are working on the stretch of road from the south limits of Ogden to Riverdale, and connecting with this there is to be erected, jointly by the state and the Union Pacific railroad, a viaduct at the crossing of the Union Pacific railroad so long regarded as a source of danger. A new bridge is to be built over the Weber river.

New sewers are to be constructed in the southwest part of the city.

Of all the new work to be started this spring none will be so important, as bearing on the future of Ogden, as the ordinance depot directly south of the Weber river. Government surveyors are running lines on the ground and doing the preliminary mapping of that region, where millions of dollars are to be expended in the establishing of an inner line of defense for the protection of the Pacific coast. Following the building of the ordinance depot will come other government activities, including three hard surface roads from Ogden to the coast, making this city the hub.

The big grain elevators are going ahead with their flour mills which will have a total capacity of from 5000 to 6000 barrels of flour a day.

The Union Pacific railroad is to double track to Evanston and perhaps to Granger.

With all these avenues of employment opening, the workers of Ogden should be looking forward to the most prosperous period in the history of this community.

WALES GUEST OF SAN DIEGO FOR ONE DAY

Elaborate Preparations Made by California City to Greet Heir to British Throne

SAN DIEGO, Cal., April 7.—San Diego was all smiles today to greet the prince of Wales here for a brief stop on his way to the far east on the battle cruiser Renown.

Everything possible to display to the royal visitor true southwestern hospitality, and to enable as many of San Diego's citizens as possible to express their pleasure at having him for a guest, was done. Governor W. D. Stephens, accompanied by his daughter, Mrs. Randolph Zane, journeyed here from Sacramento, to greet him on behalf of California.

Arrangements were made for the first welcome, however, to be proffered aboard the Renown. A citizens' committee, embarked in launches, met the Renown off the entrance to the bay of San Diego to tender this greeting. A visit to the American navy, as represented by the superdreadnought Idaho, flagship of the Pacific fleet, was next. There Vice Admiral Williams, commanding the fleet in the absence of Admiral Rodman in Washington, had arranged a luncheon with the prince as guest of honor.

British subjects here and a special committee of citizens prepared a reception for the prince after the luncheon, to be followed by a drive through the city and environs in automobiles. In the evening, according to plans perfected by wireless before the prince arrived, he was to address citizens at the stadium.

Tonight a formal dinner in honor of the prince and a ball at which he again will be honored, will be given by Mayor Wilde, Mrs. Wilde and their daughter. The program provides for special entertainment for the enlisted men of the Renown and a variety of affairs have been arranged for the battle cruiser's officers.

Don't Spoil Your Hair By Washing It

When you wash your hair, be careful what you use. Most soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is Mulsified coconut oil shampoo, for this is pure and entirely greaseless. It is very cheap and beats anything else all to pieces. You can get it at any drug store, and a few ounces will last the whole family for months.

Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.—Adv.

Four New Schooners For Alaska Trade

SEATTLE, Wash., April 7.—Four auxiliary schooners, the Thrasher, Tyee, Hellenic and Silver Wave, are being fitted here this spring for trading along the Siberian and Alaskan coasts of the Arctic ocean. They are being sheathed in iron bark to protect them in bucking the ice fields. The Thrasher, the largest, will lead the little fleet north. The Thrasher replaces the historic old trader Belvedere, which, after more than thirty years in service, was crushed in the ice off Siberia last fall.

The Tyee and Hellenic will work along the Siberian coast and ascend the rivers. The Hellenic plans to remain five years in the Arctic. The Silver Wave will work from Nome, Alaska.

Everyone should take a cleansing, purifying laxative Remedy this month. Follister's Rocky Mountain Tea is a great Spring Cleanser—fizzik. A. R. McIntyre Drug Co.—Advertisement.

Pulp and Paper Mills For Alaska Proposed

KETCHIKAN, Alaska, April 7.—Officials of the government forest service are making every effort to induce paper manufacturers to establish pulp and paper mills in Alaska's forests, according to C. H. Flory, forest supervisor.

Baby Chicks need Dr. Hess Poultry PAN-A-CE-A

START your chicks right and make them grow right along without any setback by feeding Dr. Hess Poultry Pan-A-Ce-A. It is a tonic and blood-builder that will help you get them safely past all such little chick ailments as gases, leg weakness, indigestion and diarrhoea.

If Pan-A-Ce-A does not give you stronger, better chicks, more rapid growth and larger fowls, the dealer will refund your money.

Dr. Hess Instant Louse Killer kills lice on poultry and stock. Dust in feathers occasionally and keep it in the dust bath. Guaranteed.

For keep use Dr. Hess Remedy

For sale by all dealers in poultry supplies

Electric VACUUM CLEANERS

\$5.00 DOWN MONTH

SPECIAL OFFER

CLEANLINESS — With Ease and Comfort

A FEW minutes a day with the electric vacuum cleaner will keep your home always clean and comfortable. It will pull dirt and dust from their deepest hiding places and it will pick every thread and raveling from the surface of your rugs and carpets.

The electric vacuum cleaner is economical to buy and operate. It is easy to handle and makes possible hours and hours of time for recreation.

The service of the electric vacuum cleaner is not limited to your floors. Equipped with simple attachments at a slight additional cost, it will keep your curtains, draperies, mattresses and upholstery always clean and fresh.

Come in early—the special offer is on any style or size vacuum which we carry.

Name Utah Head for Public Works Drive

LaFayette Hanchett of Salt Lake has been made chairman of the Utah committee joining with eastern states in conducting a campaign for the transformation of the historic character of the department of the interior by establishment of a national public works department, according to a statement received here yesterday from Adolph Lewis, chairman of the national association.

Among other active supporters of the movement in Utah are said to be Richard R. Lyman, of the school of mines and engineering of the University of Utah. The undertaking has also been endorsed by the Utah Society of Engineers.

GRAND ISLAND VOTES FOR SUNDAY SHOWS

GRAND ISLAND, Neb., April 6.—Grand Island voters today decided in favor of Sunday theatres and amusements by a vote of 2613 to 864. Proposals for the issuance of bonds for a city ice plant and the purchase of a public school athletic park were given an equally large majority.

Velox Hard Wheat Flour manufactured for those who are willing to pay a little more and get the best. All leading grocers sell it.

FIND OUT JUST WHAT CAUSES YOUR RHEUMATISM

Then You Will Be Able to Treat It Intelligently.

The medical profession has not yet fully determined all of the causes of Rheumatism, though they are pretty well agreed on two points.

The first is, that the disease is more than a mere local trouble, that the pangs of pain come from a source that is far below the surface, and therefore it is not reasonable to expect any rational relief from a treatment that is locally applied and reaches only the surface.

When you realize the logic of this conclusion, you will see that you are really wasting your time and money if you are expecting any permanent relief from the use of liniments, lotions, and other locally applied treatment, which can only reach the surface, and have no effect whatever upon the origin of your trouble.

Any disease should be treated at its source, and especially one that causes as much suffering as Rheumatism. The only treatment worth while is one that will show progress toward getting at the source of the disease, and freeing the victim from its shackles.

The other point that the medical profession has agreed upon, is that some forms of Rheumatism

are caused by a tiny disease germ in the blood, which multiplies by the million, and until these germs are routed from the blood, you can see how futile local treatment will be. In fact, you can use liniments by the gallon and never hope to reach the cause of your trouble.

So many people have found real permanent relief from their Rheumatism by the use of S. S. S. that its use is justified in practically every case. Certainly if your Rheumatism is due to a germ in the blood, as so many thousands of cases are, you should lose no time in beginning the use of S. S. S., because you can rely upon this fine old blood remedy to do you more good than any other treatment.

S. S. S. is beneficial in Rheumatism because it is such a thorough blood medicine. It cleanses the blood of all impurities, and eradicates the germs which cause Rheumatism. The wonderful results it has accomplished in other cases is proof of its great merit. S. S. S. has been on the market for more than fifty years and is sold by all druggists.

You are invited to write our medical department for full information and advice about the treatment of your own case, for which no charge is made. Address Chief Medical Adviser, 11 Swift Laboratory, Atlanta, Georgia.

High Priests Meet at Weber on Sunday

The high priests of the Weber stake will meet in their regular quorum capacity Sunday morning in the Weber Normal college at 10:30 o'clock. A full attendance is desired. President T. S. Browning will have charge of the meeting and in addition to regular business an address will be delivered by a special speaker.

HOAN IN LEAD.

MILWAUKEE, April 6.—Mayor Hoan, socialist, led Williams, non-partisan, for mayor of Milwaukee, by 2,901, according to returns from 126 precincts out of 199. Hoan's vote, 26,611; Williams, 22,710.

Money on Deposit or Due Must Be Entered

In the rules and instructions issued by the state board of equalization for 1920, occurs the paragraph:

"Money, whether in possession or on deposit, either within or without the state, and due the person to be taxed, is to be entered at full value. No deduction or offset on account of indebtedness is to be made."

Intimation of this ruling is being sent to all county assessors by the board with the reminder that:

"We respectfully demand that you carry out these instructions in assessing this class of property coming within your jurisdiction."

Just wishing to succeed in the world won't get you very far. But take a good habit into partnership with you, and you'll be better off at once.

The Daily Dime Saver

Put a dime in every day this month and watch your dollars grow!

1	2	3	4	17	18	19
5	6	7	8	20	21	22
9	10	11	12	23	24	25
13	14	15	16	26	27	28
29	30	31				

Begin by saving a sum too small to be missed and the good habit will grow. The Daily Dime Saver will help you to get started.

Make it a rule never to spend your dimes. When making necessary purchases use other coins. Accumulate all of the dimes you can.

After you have formed this daily habit, you will not be satisfied until you have increased your savings account by saving additional amounts. An extra ten, five, two or one dollar bill deposited with your dimes will increase your capital rapidly.

We want to have a real share in helping you on the road to success, and the first step is to show you what you can accomplish by saving a dime every day. Join the Daily Dime Savers Club today.
