

DAIL CABINET PICKS LEADERS

Imported Decisions Are Expected at Meeting Next Saturday

DUBLIN, Sept. 7.—(By the Associated Press.)—Knowledge regarding the rumored arrest of Eamon de Valera or the wounding of Erskine Childers was denied today by the publicity department of the Irish government here.

The dail cabinet Wednesday night discussed the filling of the offices made vacant by the deaths of Arthur Griffith and Michael Collins and the resignation of George Gavan Duffy. It is understood decisions were reached which will be made public at Saturday's meeting of the dail.

The political constituent of the Freeman's Journal says the meeting on Saturday will constitute "an important step toward consolidating the freedom won under the Anglo-Irish treaty."

It is expected that a vote will be taken which will in effect be a vote of confidence of the government and a further ratification of the treaty.

WIRE LINES BLOCKED.

LONDON, Sept. 7.—(By the Associated Press.)—Interruption of telegraphic communication between London and Cork and reported interruption between Dublin and Cork led to the belief by some of the London newspapers today that events of great moment are happening in the Cork region, especially since fighting was reported there during the night.

POISONING RUMORS.

Rumors in Dublin that a doctor and two nurses had been arrested on suspicion in connection with the death of Arthur Griffith, are devoid of foundation, according to the Exchange Telegraph correspondent in the Irish capital. He adds that the story has been circulated in Dublin for the last week.

(Note—A Dublin dispatch to the Associated Press on Sept. 1 said the rumors that Mr. Griffith was poisoned which were prevalent at the time of his funeral, again were being circulated. The physicians who attended the dail cabinet, however, stated positively that he died from natural causes, probably from heart disease.)

TO SIMPLIFY GOVERNMENT.

LONDON, Sept. 7.—The Dublin correspondent of the Times says that there will be fewer members of the new Irish cabinet, the machinery of which will be simplified by closer coordination of officers. The probable make-up of the cabinet is given as follows:

Chairman and minister of finance, William Cosgrave.

Defense, Richard Mulcahy.

Local government, Ernest Blythe.

Home affairs, Kevin O'Higgins.

Labor and trade, Joseph McGrath.

Agriculture and economics, Patrick J. Hogan.

Education, Finian Lynch.

Postoffice, J. J. Walsh.

Publicity, Desmond Fitzgerald.

The correspondent says Ireland retains its confidence in the movement but is discouraged and alarmed over the continuance of disorders. The government, he adds, is expected to make a firm statement of policy and announce a definite program of protection, construction and reform.

BABY SON IS BORN TO MRS. BILL HART

LOS ANGELES, Sept. 7.—Mrs. William S. Hart, wife of the motion picture actor, gave birth to a son at Santa Monica, near here, Wednesday. It was announced that the boy would be named William S. Hart, Jr.

Mr. and Mrs. Hart separated several months ago and Mrs. Hart has been living at the home of her mother.

MAIL ROUTES REPORTED.

WASHINGTON, Sept. 7.—The post-office department announced that Utah now has 60 rural free delivery routes which cover 1463 miles Idaho has 216 routes of 5776 miles and Wyoming has 30 routes covering 940 miles.

DEATH LAID TO WOMAN'S MATE

A. E. Caviness of Boise Denies Guilt When Held For Murder

BOISE, Ida., Sept. 7.—A. E. Caviness was Wednesday formally charged with the murder of his wife, Maude Ethel Caviness, who died Monday afternoon as a result of injuries received when she was beaten over the head as she laid asleep in her bed early last Friday morning.

A coroner's jury after hearing evidence for several hours returned a verdict that the woman came to her death from blows "in our opinion inflicted by her husband."

Mrs. Caviness had filed suit for divorce charging cruelty and the two were to have separated within a few days. The husband contends that he was awakened from his sleep by his wife's screams and that he saw a shadow disappear through the front door. He declares that he found his wife sitting up in her bed with blood oozing from her head, but maintains that he is unable to throw any light on the crime.

Following the finding of the coroner's jury a warrant for murder was sworn out by Henry Griffiths, chief of police, and served on Caviness, who had been held in the city jail for investigation. He was arraigned in justice court on the charge, to which he pleaded not guilty and was held for trial, being taken to the county jail.

Asking to see his wife before being taken away, Caviness kissed the dead woman's lips and wept bitterly. In reference to the charges filed he said: "If there is any justice I will be freed."

Ten thousand species are in the grass family, and of these 1,300 are indigenous to the United States.

TURK CAVALRY ROUTS GREEKS

Grecian Losses Estimated At 50,000 Since Campaign Began

PARIS, Sept. 7.—(By the Associated Press.)—The Turkish advance guards are no less than 30 miles from Smyrna, according to the latest official advices reaching Paris from Ankara. The nationalist cavalry is reported making a dash for the coast at Smyrna.

The Greek losses since the opening of the campaign are estimated in the Ankara advices at 50,000. Of these, 15,000 represent prisoners and the remainder killed and wounded.

Ankara also reports the capture of an entire Greek army corps of the southern group, which was encircled in the region of Salihli and surrendered the cities of Halikessi and Sandir have been occupied by the nationalists.

U. S. ORGANIZES RELIEF

CONSTANTINOPLE, Sept. 7.—The 200,000 Greek and Armenian refugees from the interior of Asia Minor who are pouring into Smyrna presents a tremendous relief problem. The first steps for preventing epidemic and wholesale starvation were taken today at a conference of Armenian relief agencies presided over by Rear Admiral Mark L. Bristol, U. S. N., at which the Smyrna emergency relief committee was organized.

The relief committee besieged with appeals to ship immediately all available supplies of medicines and foodstuffs and experienced relief workers to Smyrna. The messages picture the deplorable plight of the refugees who are forced to abandon everything for a trek of several days under a broiling sun.

GREAT AREA ABANDONED

SMYRNA, Sept. 7.—(By the Associated Press.)—The Greek government is determined not to evacuate Smyrna, War Minister Theotokis assured a deputation of officers which waited upon him Wednesday.

The rapidly advancing army of the Turkish nationalists is now reported to be less than 40 miles from Smyrna. The city will soon be the only remaining outlet for the stream of refugees fleeing before the approach of the enemy, as the Greeks are evacuating the districts of Batramich, Ez-Ine, Alivadik and Biglia, on the Asiatic side of the straits.

These districts comprise the entire Mount Ida peninsula from Panderma on the sea of Marmora to Alivadik on the Aegean sea, which has been strongly fortified.

The evacuation means the abandoning of six hundred square miles of territory and more than one-third of the short line of the Dardanelles and the Marmora and Aegean seas held by the Greeks.

RESCUE CREWS FAR FROM GOAL

Caved-in Tunnels and Solid Rock Bar Way of Both Parties

JACKSON, Cal., Sept. 7.—The eleventh day of unceasing effort to bore an underground tunnel to reach the 46 entombed Argonaut miners found rescue crews still far from their goal, with indications that the task must go on for at least several days.

Crews battling and drilling through earth and rock from 2600 foot and 3900 foot levels of the Kennedy mine which adjoins the burning Argonaut, progressed between 20 and 30 feet Wednesday night. It was estimated officially today. Experts said "several days" would be required to break through the remaining wall of earth, rock twisted iron and huge timbers which still separated the rescuers and the imprisoned miners.

Kennedy crews burrowing through the 3900 foot level have cleared approximately 650 feet and still must tunnel 135 feet more through a cavernous tunnel to attain a 142 feet wall of solid rock. Then the wall of rock must be penetrated to admit of entrance on the 4600 foot level of the Argonaut.

Argonaut rescue workers have approximately 300 feet of caved-in tunnel to clear in the 3600 foot Kennedy level in order to reach a point 29 1/2 feet from the Argonaut 4200 foot level where the fellow Argonaut employees are thought to be held prisoners. This 29 1/2 feet is solid rock and engineers estimate that it can be drilled in 36 hours after the tunnel is cleared. Steps connect all levels in the Argonaut gold workings, and in the event the Kennedy workers attain their objective first on the 4600 foot level it is believed the entombed men can be reached as soon as the tunneling is completed.

BOY SCOUTS WILL HELP SAFETY WEEK

NEW YORK, Sept. 7.—Twenty thousand Boy Scouts and 2000 scout masters will aid the Safety Institute of America in the campaign to prevent public accidents which will be inaugurated with a Safety Week in October, it was announced by Elbert H. Gary, chairman of the Institute of Public Safety committee. The appointment of Frank D. Roosevelt, chairman of the Boy Scouts' committee of the public safety committee was announced.

NEWS BRIEFS

ATHENS, Sept. 7.—(By the Associated Press.)—According to the newspaper Eleutheris Tipos, the organ of the Venizelos party here, there is no possibility of former Premier Venizelos returning to Athens unless he receives a "solemn call uttered by the united will of the Greek people."

FORMER GOVERNOR DIES.

BYFIELD MAKES PUBLIC APPEAL

Friends Sympathize But There's a Difference in Their Attitude

ATLANTA, Ga., Sept. 7.—Request that the public suspend judgment on the charges growing out of their voyage to Europe this summer with Walter T. Candler, is made by Mr. and Mrs. Clyde K. Byfield in an article which the Atlanta Constitution published today.

Mrs. Byfield has brought suit for \$100,000 damages against Mr. Candler, charging an attempted attack on her, and Mr. Candler has initiated proceedings to prevent Mr. Byfield from releasing on a \$20,500 note which the banker gave Mr. Byfield after the incident in Mrs. Byfield's stateroom on the steamship Berengaria.

"The hardest thing I've experienced though, has been to reconcile myself to the attitude of my friends," Mr. Byfield was quoted as saying.

"That hurts—hurts like everything. You see lots of them have been to me, assured me of their confidence and their sympathy and have tendered me their services in this trouble. And still with mighty few exceptions, I can see and feel a difference, leaving in no doubt the determination of the department of justice to pursue the course adopted.

Dividing interest with that development in the rail situation today were continued reports of secret negotiations looking to some sort of separate strike settlement with individual roads.

Despite the effort of the shopmen's strike, freight loadings on all the country's railroads during the week

CAR LOADINGS INCREASE.

WASHINGTON, Sept. 7.—Attorney General Daugherty's announcement of the government's plan of procedure in connection with its injunction suit against the striking railway shop-crafts was viewed here today as a reply to labor leaders and others who have assailed the injunction as a violation of constitutional rights, leaving in no doubt the determination of the department of justice to pursue the course adopted.

SARAH WINCHESTER DIES ON WEST COAST

SAN JOSE, Cal., Sept. 7.—Winchester, widow of William Winchester, son of the founder of Winchester Arms company, died here Wednesday. She had lived a quiet, secluded life for about 30 years. For many years she had aided financially the management of the Connecticut state hospital devoted to the treatment of tubercular patients, and was interested in other charitable activities.

DAUGHERTY YIELDS ON INJUNCTION

(Continued From Page One)

as other leaders of the shopmen's unions, had been in Baltimore.

Officials of the Baltimore & Ohio railroad, of which Daniel Willard is president, and which is included in the group of roads from which strike leaders hope to obtain separate agreements, deny the knowledge of any conference with Jewell or his associates.

With the issuance of the call for the policy committee meeting Mr. Jewell was reported to be en route to Chicago.

The meeting of shop crafts leaders was called for the same day on which Judge Wilkerson set for hearing the government's application to make the Daugherty injunction permanent.

Attorney General Daugherty announced at Washington that the government would "consider in due time what proceedings would be taken against the few misguided labor leaders who made incendiary speeches" in connection with the industrial situation. Union leaders denied that Mr. Jewell and his associates had been purposely avoiding the serving of writs.

IMPEACHMENT DEMANDED.

Meanwhile labor leaders in the east joined in demands for the impeachment of Attorney General Daugherty and Judge Wilkerson because of the injunction.

Samuel Gompers, president of the American Federation of Labor, and his executive council, meeting at Atlantic City, prepared for a court battle to vacate the injunction.

The Nebraska State Federation of Labor, in calling upon union men to contribute to the aid of the striking railway men, adopted resolutions declaring for the amalgamation for the various unions in each industry. "So that there shall remain but one union for each industry."

This proposal frequently advanced by various labor leaders, is part of the program of William Z. Foster, radical leader of the steel strike in
