Washington, April 25.—Secretary Daniels late today instructed Rear Admiral Howard to bend every effort for the protection of the American consuls and their families and all foreigners on the Pacific coast of Mexico. The last line of Admiral Howard's directions reads: "Consider these instructions first duty of your fleet at this time."

Washington, April 25.—Secretary Daniels, at the request of Secretary Bryan today ordered Rear Admiral Howard, commanding the naval forces on the Pacific coast, to give either asylum or passage on his vessels to any American consul desiring to leave Mexico by way of the west coast. Like orders have been given Rear Admiral Badger concerning consuls who may leave through Mexican gulf ports.

Admiral Howard reports from the west coast of Mexico that General consul at Mazatlan is extending his friendly offices to get the steamer City of Sydney to take away all foreigners at Mazatlan. He reports a demonstration in front of the American consulate at that place last night and that the governor has made all possible preparation and that a guard of federal soldiers is now protecting the consulate.

An appeal for government guns to arm citizens of Bisbee, Ariz., to repel any invasion from Mexican territory was laid before Secretary of War Garrison today by Senator Ashurst. Governor Hunt, in a tele-

BRYAN DENIES RESIGNATION TALE

Insurgent General Wires Matamoros Headquarters of Attack and Expected Victory.

Washington, April 25.—Secretary of State Bryan today emphatically denied widespread and persistent reports that he would resign from the cabinet. When informed of published reports that he would relinquish his post should war be declared against Mexico, Mr. Bryan said: "The subject of my resignation has never been discussed with anybody nor thought of by me."

White House officials pointed to the general denial issued a few days ago of the story that Secretary Bryan would resign, saying that statement was sufficient to cover all rumors of cabinet dissension. Outside of the White House there has been considerable discussion of the individual views known to be held by members of the cabinet on the present situation. None of these is said to be serious or approaching any breach in the president's official family, but there have been natural differences of opinion as to what aggressive measures would be pursued.

President's Attitude. The president himself, it is said, has invited the widest range of suggestions from his advisers and has steered a middle course between those who favor a quickly aggressive policy and those who believe war can be best averted by patient observation and carefully deliberated action. Officials point out that the war department is naturally anxious to take every reasonable precaution with its forces and the navy is bending its energies likewise to perfect its arrangements for actual warfare. They say also that the state department, which is trying through diplomacy to prevent aggressive movements which might aggravate action by the Constitutionalist, and the Mexican people as a whole, is occupied in friendly repression of the war spirit of its allied departments. All the cabinet secretaries denied that there is any serious division.
