Numbering the Men—Under the direction of City Recorder Walter Richey and Assistant City Attorney J. C. Littlefield, a large force of stenographers has been working on the registration tabulation. The names had to be arranged according to registration numbers on the cards, and also alphabetically. Duplicate copies had to be made, one for the federal authorities at Washington, and one for provost-marshal at Salt Lake. The cards also had to be made in duplicate. This has required a great deal of work and those in charge are rejoicing that the county list was sent in early in the week.

ELECTRIC LINE IS SUPPLIED WITH CARS

Fruit growers on the line of the Ogdens, Logan and Idaho railway need have no fear that there will be a shortage of cars to move the fruit. This was the information obtained at the offices of the company today. With berries and cherries about ready to ship to the eastern markets, it is anticipated that the farmers will need between thirty and forty cars to move these crops. As the electric line is a member of the American Railway association, they have the same rights as regards foreign cars as have the steam roads. By paying the per diem rate on cars belonging to other roads, they are entitled to the use of the cars. This being the case, when there is a demand for cars the O. L. and I. is in a position to get them. While the road has put in an order for new cars, they have been able to handle their local business fairly well. With a great deal of eastern freight being shipped to points along the line, they are able to use the cars carrying this freight for their own purposes. As soon as a car is unloaded, it is immediately loaded again and thus the local business is taken care of.

O. J. Stilwell, secretary of the Ogdens Publicity bureau, will go to Brigham City this evening to meet with members of the Brigham City commercial club and perfect plans for the organizing of a Blue's Peak Ocean-to-Ocean highway committee in that city. A similar organization will later be formed in Ogdens.

TROOPS COME DOWN FROM NORTH ON ELECTRIC CARS

The troops from Logan and Brigham, enroute to the camp at Jordan Narrows, came down over the electric line this morning. There were special cars for the horses and equipment, which were handled with practically no delay. The Ogdens boys left on a train made up of six cars, four of which were for horses. An electric engine was coupled on.

SUFFRAGISTS ARE FINED \$25 EACH

WASHINGTON, July 6.—Eleven of the 13 suffragists arrested at their Fourth of July demonstration in front of the White House were tried today and given the alternative of a \$25 fine or three days in jail. They chose to serve the three days.

The police judge who tried them offered to take their personal bonds on promise to stay away from the White House, but they refused and were taken to jail. The suffragists are: Gladys H. Griner, Margaret F. Whittemore, Vida Mitchell, Mrs. Helena Hill Webb, Iris R. Collierhead, Mrs. Frances B. Green, Elizabeth Stuyvesant, Joy Young, Mrs. Lucille Shields, Lucy Burns and Dora Lewis. Miss Hazel Hunkins who contended she did not carry a banner in the demonstration was granted a separate trial. Miss Kitty Marion, a suffragist and Charles E. Morgan, a war department clerk, charged with fighting, also are to be tried tomorrow.

TRIBE DIVORCE CASE TAKES ON A NEW FEATURE

Charges of unethical conduct were lodged against the law firm of Chee and Stine by Alvin M. Tribe late this afternoon in his answer to the divorce complaint filed against him by his wife, Mrs. Mary Tribe.

Tribe, through his attorney, Judge A. G. Horn, alleges that the firm of Chee and Stine accepted Mrs. Tribe's case at a time when Attorneys Harris and Jensen were her lawyers. This was done over the protests of Harris and Jensen, it is alleged. Harris and Jensen, however, instead of taking the matter to court, accepted a money payment from Chee and Stine for the work they had done for Mrs. Tribe, and withdrew from the case. Mr. Tribe avers in his answer that it was agreed on June 15, 1917, that he and his wife should separate, living no more as man and wife, that she was to have the custody of the children, and that there should be a property settlement. Papers signed by both Mr. and Mrs. Tribe introduced in the case show that the settlement should include a cash payment of \$95 to Mrs. Tribe, payment to her of \$75 a month for six months, beginning July 1, 1917, and the turning over to her of an automobile and the household furniture.

Mr. Tribe asserts that his wife agreed to this, but that her present attorneys, Chee and Stine, have constantly advised her that she could get more money from her husband, and that she is being led by their solicitations and were so led while the plaintiff had other attorneys. In so doing, Mr. Tribe charges that they are guilty of chicanery and maintenance. Mr. Tribe admits that he owns stock of the G. H. Tribe Investment company valued at \$6,548.36 and that he receives no more than \$125 a month in salary. He asks dismissal of the action against him.

CAVALRY KEEPING ORDER IN GLOBE

Arizona Copper Camp Quiet After Strike Disturbances Since Saturday Last.

PUMPING OUT MINES

Former Governor Hunt to Act as Mediator—Will Endeavor to Secure Truce.

BOWIE, Ariz., July 6.—Telephone messages from the sheriff's office at Globe, where operations in the copper mines have been tied up since Saturday by a strike of miners, said the city was quiet early today. Troops of cavalry were patrolling the streets and there had been no disturbance during the night.

Office employees and strike breakers continued to operate the pumps at the Old Dominion mine and striking miners who are picketing the place permitted food to pass to the men manning the pumps. Failure to operate the pumps, it was said, would result in flooding the mine within the few days and mean, perhaps, the permanent ruin of the property.

Former Governor Mediating PHOENIX, Ariz., July 6.—Former Governor Hunt, acting on the request of Federal Conciliator John McBride, now at Globe, left here this morning for Globe to act as mediator.

Between twenty-five and thirty arrests have been made at Globe, following the arrival of troops. Former Governor Hunt is acting on the matter on the direct appeal of President Wilson that he use his best efforts to bring about an agreement between the miners and the mine operators.

May Secure Truce

Before leaving Mr. Hunt said he would endeavor to secure a truce between the two factions and would urge upon the men that they commit no act that would tend to tie up the copper industry during this time of crisis, when the nation is dependent to a large extent on the copper industry.

The presence of troops at Globe has had the effect of bringing about a situation of quiet, according to word received here today. Advices from Globe also said between twenty-five and thirty of the leaders in demonstrations and acts of lawlessness that have occurred in Globe during the week are now under arrest. It is presumed here that these arrests have taken place since the arrival of the troops, as it is known county authorities were unable to cope with the situation or to serve papers prior to their arrival.

I. W. W. Vote for Strike DENVER, July 6.—Industrial Workers of the World at Jerome, Ariz., are taking a vote on a strike today in the United Verde and other copper mines, according to a telegram received by President Charles H. Moyer of the International Union of Mine, Mill and Smelter Workers. Mr. Moyer said he had advised his men to continue at work.

STRIKE IS SPREADING JEROME, Ariz., July 6.—Industrial Workers of the World today called a strike on copper mines here effective at 3 p. m. today, to enforce demands identical with those presented at Globe by men now on strike there.

In the "Good Old Days"

"When I was a humble aid to W. J. Morgan in opening up Ormand Beach as a speed course par excellence for motor racing vehicles," writes The Old Timer, in a recent number of the American Motorist, "I shared with him the odium of the critics, the Wisenheims and the Johnny-Know-It-Alls of those days when the accusation was made by them that Morgan was chaining down the Sir Thomas Dewar challenge cup when he specified that the

winning had to average at least one mile a minute for five miles straight away before he could claim the cup. "All the critics, and the Lord knows they were just as plentiful and quite as ignorant then as they are today," said Morgan was crazy or worse to demand such an impossible performance, but results proved differently. "Today any second-rater who can't do better than 70 to the hour is looked upon as something fit only to race a three-legged cow or a one-legged runner. This one-minute thing is so blamed easy nowadays that a big motor Wisenheimer at all would have assigned the senator to any place less appropriate than a lunatic asylum."
