## GARRISON OF 600 IN SIBERIA GOES OVER TO REBELS

VLADIVOSTOK, Saturday, Dec. 27.—A garrison of 600 government troops at Shkotva, forty miles northeast of where the first American casualties in Siberia resulted May 21, mutinied and went over to the "partisan" forces last night. They murdered two officers who refused to join them, took four machine guns and all government ammunition and supplies.

The demand, which was made on December 21, was backed up by a threat on the part of General Semenov to compel the passage of the military trains by armed force if necessary. General Semenov, who recently succeeded Admiral Kolchak as head of the all-Russian forces, said in his demand that General Syrovoy, commander of the garrison, must comply. "In the event of non-compliance I shall, though with pain in my heart, move against you with all the armed forces at my disposal."

The Czech-Slovak headquarters here do not consider the threat serious. All of the Suchan district is now in the hands of the anti-bolsheviks. Only Japanese guards cover mining property and American guards along railroad to Vladivostok are keeping anti-governmental forces from complete control of the railroads in Suchan district. "Partisan" forces in Suchan district now outnumber allied troops in the district. Twelve hundred Americans of the Thirty-first infantry are guarding lines of communication between Vladivostok and the mines, the source of coal supply. In view of probability of attacks, the allied guards of the international railroads are considering means of notifying American forces that Suchan railroads be guarded for the purpose of insuring a coal supply to all Russians at Vladivostok and Vichniy, but for no particular force or faction.

### Half-Sister of New Testifies as to His Unsound Mentality

LOS ANGELES, Cal., Dec. 31.—Miss Edna Clancy, half-sister of Harry S. New, today took the stand at the trial of the latter for the murder of Miss Freda Lesser, and testified that the day before Miss Lesser was shot she advised her not to marry New, because in the opinion of the witness he was of arrested mental development.  
The testimony of Miss Clancy was in support of the position taken by the defense that the shooting was caused, if New did it, by the refusal of Miss Lesser to marry him. Two confessions to the shooting, both signed by New, have been admitted in evidence. Each confession held the statement that Miss Lesser had refused to marry him and that he had shot her because of that refusal. The state made efforts in the course of its case to establish that Miss Lesser was ready to marry New, and that the shooting was in fact due to his desire to evade marriage.

When Miss Clancy first took the stand she told of her childhood with New, who she said was eight years her senior; then she gave evidence of his mental condition on which she based the expressed opinion that he had the mind of a child of ten years. Miss Clancy said that because of this conviction, she saw Miss Lesser on July 3 last, and told her that she did not believe New was fit for marriage, and urged Miss Lesser to break her engagement. In response to a question, she said she never saw Miss Lesser after that conversation. It was the expectation of the attorneys that Miss Clancy would be on the stand all day.

### Headquarters of Wood Alcohol Whisky Found in Brooklyn

NEW YORK, Dec. 31.—United States Marshal Power announced tonight that he believed he had discovered the wood alcohol "whisky" manufacturing headquarters of John Romanelli, Brooklyn undertaker, and Samuel Saleeby, Brooklyn druggist, held here in connection with the distribution of poison liquor throughout New England. The place was a Brooklyn garage, he said.  
Receptacles and chemicals used in the manufacture of liquor and perfumes, several empty barrels which "had contained wood alcohol" and some burned sugar were found by federal officials, the announcement said. These were seized and persons on the premises were taken to the United States district attorney for examination.

PASSPORTS DEMANDED.  
VLADIVOSTOK, Wednesday, Dec. 24.—(By The Associated Press.)—A demand that trains carrying the Russian high command be permitted to pass immediately through Czechoslovak lines to Irkutsk has been made on General Syrovoy, commander of the Czechoslovak army, by General Semenov, commander-in-chief of the All-Russian forces, it was announced here today.

### Moyle Recommended as Lane's Successor

WASHINGTON, Dec. 30.—James H. Moyle of Utah, now assistant secretary of the treasury, today was recommended to the president by Senator W. H. King for appointment as secretary of the interior to succeed Secretary Lane, who desires to retire. Senator King filed a considerable number of endorsements from other western senators and representatives.  
Mr. Moyle's most formidable competitor for the appointment is Assistant Secretary of the Interior Vogelsang of California, who is thought to be highly considered as a successor to Secretary Lane because he is already familiar with the work of the interior department, and would be in position readily to take up the task where Secretary Lane left off, and he is probably the stronger because of the fact that the new appointee will have little more than a year to serve in any event.

### Berger's Seat in Congress Is to Be Contested

MILWAUKEE, Wis., Dec. 31.—H. H. Bodenstab, fusion candidate for congress in the Fifth district, special election, will contest the right of Victor Berger to take his seat. Notice of the contest was served on Mr. Berger in Chicago last night.  
The basis of the contest is that Mr. Berger is disqualified from holding office and that votes cast for him were void.  
Mr. Bodenstab stated that his contest will be brought in the house of representatives.

"The first basis of the proceeding is that a person who is notoriously disqualified and ineligible cannot be voted for and that votes cast for such a person are of no effect and that it results in effect in a negation rather than an election," said Mr. Bodenstab.  
"The second basis is that any person found guilty of a felony loses his right to vote and that in this state any person who has been deprived of his right to vote also loses his right to hold office."

### Prime Minister Hughes Returned By Big Majority

MELBOURNE, Tuesday, Dec. 30.—Returns received to date on the Australian elections indicate that Prime Minister W. M. Hughes has been returned to power with a strong majority.  
The party led by Mrs. Hughes, which was a coalition, formed with the slogan "win the war" is known as the Nationalist party. Returns are sufficient to indicate that the Nationalists have secured 38 seats in the house of representatives as against 27 won by the Labor party. In addition, ten members have been returned by the Farmers' party and these men are expected to support the Hughes' group.  
One feature of the elections was that the state of Queensland, which had been a labor stronghold, gave a majority for the Nationalists. Concurrently with the elections referendum was taken on the question of

### Deaths by Violence Increase in Salt Lake

SALT LAKE, Dec. 31.—Ninety-six deaths from violence occurred in Salt Lake during the year, according to a report by the bureau of vital statistics of the city health department to Chief of Police J. Parley White. This number is nineteen more than occurred during 1918, when seventy-seven cases were recorded.  
Suicides numbered fourteen during the year. Twelve died from injuries received in automobile accidents. Deaths caused by auto accidents decreased last year, twenty having been reported during 1918. Nine deaths from homicide occurred this year, as compared with five during 1918. Railroad accidents resulted in the death in Salt Lake of nine persons during 1919. The same number were recorded in 1918. One person was killed in Salt Lake in street car accidents during the past year, as compared with three in 1918.  
Unclassified accidents, such as acci-

dents in machine shops, mines, granite works and cement works, resulted in the majority of violent deaths during the last year. The report showed that 52 deaths occurred from these accidents in 1919, as compared with 33 in 1918. Many of the unclassified accidents occurred elsewhere and the victims died in Salt Lake.  
Of the 776 automobiles reported stolen in the city since January 1, 1919, only eighteen have not been recovered, according to Chief of Police White. Eighteen machines reported stolen to the Salt Lake police department from outside cities and states have been recovered by the local department.  
Chief White expressed the belief that most of the machines stolen were taken by juveniles for joy riding.
