CLARA KIMBALL YOUNG "EYES OF YOUTH"

Chorus—  
Gazing in the future,  
Through the eyes of youth,  
Wondering what awaits  
Behind the mystic gates  
Will she find a bluebird  
When she learns the truth,  
Or will the years  
Bring sadness and tears  
To the eyes of youth?

The best of life and the worst—in a story so great it couldn't be told in words.

A picture that will send you home with a feeling of glowing satisfaction that you have seen a worth-while picture. A vivid, vital story of human hearts, told on the screen in scenes of marvelous variety. Driving ahead with action that grips and holds. Softened with humor so true that it laughs with all mankind, so deep that it starts the tears.

# FURIOUS FIGHTING IN INDIA

## British Casualties Are Heavier Than in Entire 1897 Campaign

MANDANNAKACH, India, Monday, Dec. 22.—(Via London, Jan. 2)—The fiercest fighting ever experienced on the Indian frontier has been in progress during the past three days in which the British casualties have been heavier than those in the entire campaign in the Tirah district in 1897, while the hill tribesmen suffered as never before.

The Mahajads displayed the utmost in opposing the operations of the British expeditionary forces, resulting in the most stubborn manner the British attempts to advance. The British column consequently was compelled to remain encamped in the Padozia plain.

An unnamed fugitive boy of the Thirty-fourth Native Pioneers showed notable heroism in the course of hand-to-hand fighting. Left with only a few comrades, he seized a machine and fought the tribesmen until they retired, when he returned to camp laden with trophies.

# 1920 CENSUS ENUMERATION BEGUN; BE READY TO ANSWER QUESTIONS

The fourteenth decennial census is on. Sometimes during the next two weeks Ogdien citizens will be called upon to reveal their identity.

Ladies, don't be backward about telling your ages to the census enumerators, who are the only men in the United States who will be required to do the same thing.

It will not be a matter for common gossip, but merely information required in telling to the world how big our country really is.

Be prepared to inform the enumerator as to the following questions:

Sex.  
Color or race.  
Age at last birthday.  
Whether single, married, widowed or divorced.  
Place of birth of person enumerated and of father and mother, giving names of both country and province or foreign born.  
Occupation, specifying trade or profession, also industry in which employed. Whether attending school.  
Whether able to read.  
Whether able to write.  
Whether able to speak English.  
Whether home is owned or rented, and if owned whether home is free of encumbrance or is mortgaged.  
Profession of foreign birth will be asked questions concerning these additional points:

Year of immigration to the United States.  
Whether naturalized, and if so the year of naturalization.  
Mother tongue or native language.  
Every Farm Visited.  
Census enumerators will also call at every farm in this community to secure the information necessary to fill out the questions contained on the agricultural schedule.

Each farmer will be asked questions concerning the acreage and value of his farm; whether he owns, rents or partly owns and partly rents the land; the value of the buildings, machinery and implements belonging to his farm; the quantity of all crops raised on his farm during the year 1919; and many other questions which cover all possible farm operations.

An absolutely accurate and complete census vitally concerns the welfare of this community and of every person living in it. The official population for the next ten years will be determined by the census of 1920.

Be ready with your answers when the census man calls at your house.

Still A Few Vacancies

Supervisor George Rooney, Jr., stated this morning that 155 enumerators were assigned to districts and started their work this morning. There are still several vacancies, but examinations are being held and the census taking will be in full swing in the first district Monday or Tuesday of next week.

Schedules for industrial, mining, irrigation, drainage, and manufacturing plants are being sent out today, so that the work of census taking in these concerns may be simplified and speeded up.

Superintendent W. Karl Hopkins, of the city schools, is in receipt of a letter from the census bureau at Washington, asking for the co-operation of the schools in simplifying the work of census taking. This letter asks that publicity be given the work by the children in their homes.

## Operators Accused of Trying to Break the Miners' Union

INDIANAPOLIS, Ind., Jan. 2.—John L. Lewis, acting president of the United Mine Workers of America, today said he had reports of operators of mines in the bituminous fields discharging workmen with a view to breaking up the union.

The action of some of the operators in discharging men is regarded by the miners as bad faith, Mr. Lewis said, because under the agreement with the federal government by which the miners returned to work, the status of October 31, the day before the strike, was to obtain.

Mr. Lewis will go to Columbus, O., tomorrow to attend the reconvened convention of the United Mine Workers next week.

## Escaped Enemy Alien Found at Silverton and Placed in Jail

W. agitator, who made a sensational escape from the federal internment camp at Fort Douglas on Christmas eve, 1918, by slipping the high-charged electrical wires which surrounded the camp, was arrested in Silverton, Colo., a month ago and brought to the Denver county jail shortly afterwards, according to an announcement made today by department of justice officials. State's Attorney Maclay Hoyle, under whose direction the roundup of suspected radicals was made, declared that the prosecution will proceed under a new state law against syndicalism and independently of the department of justice.

Hoyle charged last night that Attorney General Palmer after promising assistance had called off his men at the eleventh hour and asked that the radicals be postponed.

None of those arrested has been arraigned in court.

## FORMER CHINESE PRESIDENT DIES AT HIS HOME

PEKING, Jan. 2.—Baron Feng Kuo Chang, whose death is announced from Peking, was elected vice president of the Chinese republic in November, 1916, and was appointed acting president by President Li Yuan Hung when the latter resigned the post July 1, 1917. Later when Li Yuan Hung declined to resume office after an unsuccessful attempt at General Chang Hsun, a military leader, to reestablish the monarchy, President Feng Kuo Chang retained his place as chief executive, holding it until he was succeeded in September, 1918 by Shu Shih Chang, who was regularly elected.

For his military exploits against revolutionists in China, the most conspicuous of which was the suppression of a rebellion in the summer of 1913, he was made a field marshal.

On the establishment of the republic and the promulgation of a constitution in 1912, he was appointed chief of the president's military council. Prior to that he served as director of the military council of the board of war, was a director in chief of the general staff and commanded the first imperial army. In this latter capacity he succeeded in suppressing a revolutionary uprising at Han Yan in November, 1911, for which he was rewarded with the rank of baron of the second class.

## Senate and House Managers Discuss Railroad Problems

WASHINGTON, Jan. 2.—In resuming conferences today on the railroad reorganization legislation senate and house managers met their first wide difference over the house provision authorizing the interstate commerce commission to establish minimum rates for transportation partly by water and partly by rail. The question was passed over temporarily and provisions regarding state and federal rate regulations taken up.

The house conferees are said to be insistent upon the clause authorizing the commission to establish minimum rates for water and rail transportation. A similar provision was rejected by the senate because senators interceded in waterway transportation declared the commission might establish minimum rates too high in the interest of the railroads.

## Gov. Lowden Refuses to Comment on the Sen. Borah Letter

SPRINGFIELD, Ill., Jan. 2.—Governor Frank O. Lowden today had not received the letter addressed by Senator Borah of Idaho, requesting him to state his position on the league of nations. He declined to comment on the letter of his probably reply.

It is expected in political circles here that the governor will give as his reply the statement in the Lowden platform which was filed in South Dakota. The platform states that the governor favors the "ratification of the peace treaty with the reservations substantially as proposed by the foreign relations committee of the senate."

From his statements, it is held that Governor Lowden's attitude on the league is one of opposition to the pact as promulgated by the allied conference at Paris. In a letter to a friend in California, the governor writes that he is in favor of the ratification of the treaty of peace with the reservations adopted by the United States senate.
