State Game Warden to Bring Elk to Utah

SALT LAKE CITY, Utah, Jan. 7.—Application for authority to bring one hundred and eight head of elk, now reported starving in the region adjoining Yellowstone National park, to the various Utah national forest reserves was made to the interior department at Washington, D. C., today, by R. H. Siddoway, state game and fish commissioner.

It's a good thing that the delegates didn't have to eat their meals from a w. k. Round Table, or they would have left sooner than they did.

A fowl of any kind is always dressed to kill. Money is about the only part of your youth you can save, but it usually goes as foolishly as the rest of it.

That's right! Get all you can for the money you spend—whether it be much or little.

Here's how to get your full money's-worth in tea: Don't buy common tea, even at a low price per pound. It is extravagant per cup, because a pound makes so few cups—unless you want tannin-strength, which is harmful.

Pay the price for good tea, which is full of tea-flavor, and is really cheaper per cup.

You save money, and you get the cheer and invigoration and restfulness that only fine tea can give.

Schilling Tea is your tea. There are four flavors of Schilling Tea—Japan, Ceylon-India, Oolong, English Breakfast. All one quality. In parchment-lined moisture-proof packages. At grocers everywhere.

British Relief Director Reports Conditions So Deplorable as to Beggar Description

LONDON, Dec. 29.—Sir William Goode, the British director of relief, declares that Vienna is the worst of all the famine-stricken places that he visited on a recent tour through central Europe.

Although more than 2,400,000 tons of foodstuffs, at a cost of nearly \$500,000,000, have been delivered in European relief since the signing of the armistice, by far the greatest share of which, he said, had been furnished by the United States under the direction of Herbert Hoover, conditions are still so deplorable as almost to "beggar description."

"I felt upon leaving Vienna," said he, "as if I had spent ten days in the cell of a condemned murderer who has given up all hope of a reprieve. I stayed at the best hotel but I saw no milk and no eggs the whole time I was there. In the bitter cold half of the hotel, once the gayest rendezvous in Europe, the visitors huddled together in the gloom of one light where there used to be forty. They were more like shadows than representatives of the rich. Vienna's world-famous opera house is packed every afternoon. Why? Women and men go there in order to keep themselves warm and because they have no work to do.

Fuel Scarcity and High. "In my office I made several experiments at working in overcoat and with blankets for the staff when the thermometer inside was only one degree above freezing point. Finally I determined to get wood enough to light the one small fire for two days. It cost me 970 crowns, which, to the Viennese, is equivalent to about 20 or 40 pounds.

Do you wonder that the well-to-do people in Vienna are burning their furniture to light their stoves? Can you imagine how the poor live or try to live? It is not unusual to see the traffic in one of the main streets which leads to the cemetery held up by hearsees. Ninetenths carry the bodies of children.

Americans Feeding Children. "In Vienna, in the palace of a former archduke, I saw thousands of children being fed with American relief food under the control of a young naval officer, whom I was proud to recognize as one of those Americans who did excellent work in the early days of the commission for relief in Belgium. Our own British relief missions, both in Austria and in Hungary, and a number of unofficial British workers are doing everything possible to stem the tide of distress."

It seems to me that you cannot trifle with starvation and privation in central Europe such as prevails today in Vienna without running the risk of a carnival of Bolshevism which would probably not be confined to this continent. I do not want to cry 'wolf' and I am rather inclined to think that Bolshevism has been used too much as a bogey, but anyone with half an eye must realize that it, as a result of apparently legitimate grievances, forces of unrest are loosed in the heart of Europe, the whole world, the United States as well as ourselves, will be menaced."

Treaty Delay Blamed. Sir William declared that "first and foremost among the causes of the present situation in central Europe is the delay in making peace."

"It scarcely seems to be realized in the united kingdom," he continued, "isolated from the continent of Europe by a narrow strip of water and still less in the United States, isolated by the Atlantic ocean, that Austria, Hungary, Bulgaria and Turkey are still technically at war with the allies and, what is more important, at war with most of their neighbors."

As one approaches the frontiers one finds every little wayside station packed with soldiers, bayonets fixed, ammunition wagons. War, and all the wasteful effect of unpreparedness for war upon economic and industrial progress, are visualized for miles as one travels through these countries.

Many Do Not Know Nationality. "In many corners of central Europe today the inhabitants do not even know their own nationality. Until universal peace is ratified, until boundary commissions are able to get to work, and until political conditions determine the future of democracies, central Europe will be a patchwork of ethnological dislocation. An over-prolonged armistice, following upon four years of war, has knocked away all most every fundamental prop; political, financial and economic.

States on the Danube—the main avenue of traffic—tear to send barges out of their own territorial waters lest they should be appropriated by their next-door neighbor. Just as on land the British Tommy is the only safeguard for a train of supplies, so on the Danube one of Admiral Troubridge's British mine-layers, with a little British middy in command, is the only guarantee of safe conduct.

Food Trains Held Up. "The other day, on the Jugo-Slav frontier, trains of food supplies arranged by the allied relief missions and all paid for by the Austrian government were on their way to mitigate starvation in Vienna. At the last moment the Jugo-Slav government clipped on an export duty of 50 per cent and refused to permit the trains to go forward unless that tax was paid in foreign exchange. I ventured to take international law into my own hands and, thanks to the resourcefulness and intrepidity of a couple of young British army officers, those trains arrived in Vienna."

Another interlocking difficulty as between food and transport is the persistent flocking of peasants with eggs, sacks of flour, live geese and ducks and all kinds of agricultural produce into the towns. In snow, rain, or any kind of weather, you can see not only the inside but the roof of every rail-

SUFFERING OF YOUNG WOMEN

This Letter Tells How it May be Overcome—all Mothers Interested.

Fort Dodge, Ia.—"From the time my daughter was 13 years old until she was 16 she suffered so badly each month, that sometimes I had to call in the doctor. She had headaches, backache, and such pains and cramps that she would have to stay in bed two or three days. She became terribly run down in health and at last a friend who had used Lydia E. Pinkham's Vegetable Compound told her about it and she has used sixteen bottles and we always have it in the house. She feels fine now and she has no trouble at all each month. We always praise it and advise any friends who suffer to use your wonderful medicine."—Mrs. MINNIE MANDELKO, 1005 S. 15th St., & 10th Avenue, Fort Dodge, Iowa.
