Emilia Giglietto and Don Robinson asked Thomas to please let them go down town last Friday night. He said, "All right." They went on the car. They went to the Cozy to a show. It was fine. They saw many cowboys. Then they came out and went to a store and bought a cake. Don brought it with him to school. They ate it on the fourth floor. They did not give any of it to the other boys.

Last Sunday afternoon my three cousins from Salt Lake City came to see me. I was surprised, but I was glad to see them. One cousin gave a box of candy to me. I went down town with them. We ate at a cafe. I had a good time. The next morning I brought my candy to school. I asked Miss Newbern if I might give some to the boys and girls, and she said, "Yes." They told me I was generous.

Browning Machine Gun Causes Consternation

Eugene H. Garland, Company D, Thirty-first division, recently returned from Siberia to Ogden, says that no weapon used against the Bolsheviks in Siberia causes more consternation than the Browning machine gun. The former Ogden youth declared that when supplied with Browning guns, the Thirty-first was extremely popular with Kolchak troops, who sought the assistance of the Americans.

Garland said the principal duty of American troops in Siberia had been the guarding of railroads. His company was stationed at Skovtovo, about 40 miles from Vladivostok. He will resume his position as clerk at the Hermitage hotel after paying a short visit to his home in Coopers town, N. Y.

Low Water Pressure at Stockyards Fire

The low water pressure during the fire at the stock yards last Saturday was due to the fact that the private water main of the stockyards was used instead of the city main, according to a decision rendered by officials of the waterworks department today.

Considerable delay was experienced at the fire due to the conditions. Damage to the extent of \$15,000 has been reported.

The investigation was ordered by Mayor Frank Francis.

OGDEN REPUBLICANS HEAR CHAIRMAN HAYS SPEAK

Several Ogden members of the Republican party journeyed to Salt Lake Saturday evening to attend the dinner party given at the Hotel Utah for W. H. Hays, chairman of the national Republican committee, and the group of political workers with him.

There were more than 500 Republicans in attendance. They cheered Chairman Hays and his address.

The Republican chieftain roused his audience repeatedly and his remarks in praise of the record made by Senator Smoot of Utah evoked applause that echoed in the corridors of the hotel.

A scathing arraignment of the Bolshevik and "red" element in general was given, and equitable dealing with capital and labor is to be administered by the Republican administration as a direct ending of all unrest, the speaker said. The rights of the public in labor-capital differences are to be observed and respected, he said.

Henry Welsh, state chairman, spoke of the aims of Utah for the success of the party. Referring to the chief speaker, he said, "we must aid this man in his giant-like task. We must give some of our time, some of our energy and possibly some of our means to insure success to his work. Let us resolve and make ourselves so strong that in the future we will do more for the party than we have in the past."

FREIGHT CARS BREAK LOOSE AND RUN WILD

Two Men Killed, Engineer Is Injured, Engine Smashed and 21 Cars Demolished

BOISE, Idaho, Jan. 12.—Two men were killed, and 21 freight cars were demolished at one o'clock yesterday morning when a string of 22 freight cars broke loose and ran away down Medbury Hill, west of Glenn's Ferry.

A long freight train had been cut in two to be hauled up the hill in sections. While the first section was on its way the brakes on the section loosed their hold, and the 22 freight cars started down hill. Warned by a closed block, an eastbound passenger train was standing at the bottom of the hill, when the freight cars, traveling at about 25 miles an hour, crashed into the passenger train. Ben Smith, engineer of the passenger train, was painfully injured by a flying door after he had jumped and run 500 feet from the track. The first of the two engines on the passenger train was badly smashed, but none of the passengers was injured. All but one of the 22 freight cars was demolished. The two unknown dead were in an emigrant's car on the freight train. The bodies have been taken to Mountain Home, where an inquest will be held.

The two men killed in the wreck near Glenn's Ferry early yesterday were identified this evening as Henry M. Good of Richfield, Idaho, aged 40, and George Powell, of Caldwell, Idaho, aged 19.

LAX ADMINISTRATION.
WASHINGTON, Jan. 12.—Nicholas Murray Butler, president of Columbia university, told the senate committee considering a national budget system today that lax administration was re-

sponsible for much of the present day public dissatisfaction.
"A national budget system with a provision requiring cabinet officers to come face to face with both houses of congress," he said, "would put congress where it should be—in control of the financial situation—and enable both congress and the country to fix upon the president complete responsibility for any error, or delinquency in administration."
