The Eden

substitutes electric-power for man- or woman-power in the home. • It substitutes science for backache. It cleans everything—blankets, linens, all clothes—by dipping them up and down through hot suds a countless number of times as gently as a woman dips a bit of lace in a basin. There's no rubbing with an Eden. It makes everything wear enough longer to much more than save its cost. It saves time, labor, hard work and wages.
