

For The Last Two Days Of March

A Very Busy Month

The sales of this month have been larger by far than those of March last year. And do you remember the weather of last March? Fair weather nearly every day—and quite warm. The temperature last year went as high as 80 during the latter part of the month. We look upon this fact—this increased business as very good evidence that our March Selling Plans have been attractive. Today we offer another entirely fresh list of offerings for the last three days of the month. The time you spend reading this announcement will doubtless pay good returns.
