SUITS ARE ON PROMISSORY NOTES

Yesterday afternoon the Pingree National bank of this city filed three suits to recover on three certain promissory notes of \$50 each, all issued in May, 1910, to F. H. Neil & Sons at Marysvale, assignments having been made to the plaintiff company.

THEATERS

AT THE ORPHEUM.
Lily Langtry, a decade or two ago the stage's most famous beauty, heads a bill at the Orpheum this week which while not so pretentious as that of last week, with its extravagant "Eternal Waltz," is quite as notable in its excellence. It is all vaudeville, for one thing.

Let no one think that even if he did hear about the Jersey Lily when he was a kid that she isn't yet good to look upon. She is still a remarkable woman and lacking nothing of the charm attributed to her.

Mrs. Langtry has a sketch witty and clever and distinctive enough to make pleasing entertainment. It is doubtful if "Mrs. Justice Drake" would gain votes for women, however.

Mrs. Langtry takes the part of the justice in the sketch and presides over the London divorce court in the year 1920 in a way which would indicate that along with her other characteristics she has a highly developed sense of humor. The sketch is full of quaint lines and situations and is played excellently.

The rest of the bill surprised the cynical Thursday night audience and in spite of the "show me" attitude displayed by the first nighters they were compelled to bestow approval on nearly every number on the bill.

We had our mind all made up that we were going to speak of Ethel May Barker as a pretty and young violinist who played nicely, with fine expression, for that was the impression she made in her first three numbers. Then she was called back and the audience liked her better and the admiration grew even more pronounced in two other calls that followed, for she demonstrated that she can play ragtime and throw in a little comedy along with her other capabilities, also. She wound up with having a lot of fun with the orchestra, the members of which acted as if they liked it, and the audience did, too.

Ida May Chadwick, "hee-haws" and dances through twenty minutes of old-time fun, assisted by her father and mother. Their "Wiggins Farm" is not new, but is still good for a lot of laughs.

Something new in a balancing act is offered by Clara Ballerini. She is as much at home on a swinging trapeze as most of us are on terra firma. She deserves a better position on any bill.

Bronson & Baldwin sing songs cleverly and dance madly. The lady member of the team attracts feminine eyes with a gown, which a man would describe as a medley of trousers and lace curtains. Maybe it shouldn't be called a gown. Anyway it envelops a charming little person and the act is good fun.

Wilson's Comedy Circus is a side-splitting animal act. You've seen an unrideable mule and the revolving table stunt before, but you'll laugh just as heartily at this.

Marco Wolf and sister emphasize the ragtime so heavily in their violin and piano number that it is difficult to find any music in it. A little less eccentricity and more melody would strengthen their offering.

FALLS 1,000 FEET TO HIS DEATH

Park City, Feb. 27.—Warren Jones was killed at the Silver King Coalition mine this morning shortly after 4 o'clock by falling from the cage. The unfortunate man was on the top deck of the cage with the other miners who had just finished their shift and who were all being hoisted to the top. The 200 foot level had just been passed when Jones must have become suddenly faint, fallen backward into the shaft and down a distance of 1000 feet.

The fatal accident was at once reported and a searching party was quickly formed to go back down the mine and recover the body.

Jones was about 35 years of age and was married and had two children. He was born in Heber, Utah, where he spent the greater part of his life.

JAS. H. DEVINE HAS MET THE BOOSTERS

Attorney James H. De Vine and family have returned from an extended trip to southern California.

Mrs. De Vine went to California a number of months ago for her health and was joined by her husband a few weeks ago. Most of the time of the sojourn in California was spent at San Diego, trips being made, however, to other sections.

Mr. De Vine says that much boosting is indulged in by the southern Californians, and that by virtue of that manner of doing things San Diego, Los Angeles and other cities are growing but he says that Ogden, in his mind, has greater possibilities than that country. He thinks that Ogden with its natural facilities would soon become great if a little California boosting could be applied.

LOGAN IS IN A TANGLE OVER WHISKEY

Liquor enactments and court decisions of complicated proportions have caused some of the Logan people to say they would vote the Temple city wet if an opportunity were afforded.

The occasion for the unrest in Logan is a ruling given by Justice Nathan J. Harris of this city yesterday in which he decided that Logan had no legal power to enforce an ordinance against keeping intoxicating liquor for sale or other purpose, such an ordinance, the court declaring, to be contrary to state law.

Appeal cases pending under prosecution by Logan city under the city ordinance were dismissed and the defendants released from bonds.

Another case, however, in which conviction was had against Logan parties for selling liquor, was affirmed by Judge Harris and the lower court instructed to execute the judgment.

The city and county officers of Logan and Cache county are now considering the advisability of prosecuting the freed offenders under the state law.

Benefited Many Who Had Lung Trouble

Those who suffer from Consumption are generally troubled with night sweats, fever, loss of strength and little or no appetite. Fresh air, good food and the proper care of the body are essential to recovery, but in many cases something more is needed. Eckman's Alternative is a medicine which has been most successful in stopping night sweats, reducing fever and promoting appetite and many who have used it, declare it saved their lives. Investigate what it did in this case: "Gentlemen: For four years I was troubled with cough, which gradually became worse. I had night sweats and pains in my chest. I was losing my appetite and could not attend to my household duties. A physician pronounced my case Consumption. Not being satisfied, I was examined by the physicians of the Polyclinic Hospital. They also pronounced the disease Consumption, which was proven by an examination of sputum, as Tuberculosis Bacilli were found. I was ordered to a Consumptive Hospital. My nephew would not allow me to go until I had tried Eckman's Alternative. Before I had taken the medicine three weeks I had marked relief. Night sweats ceased, pain in the breast relieved, cough became loose and easy, fever left me and I commenced getting well. My health became normal. I am in excellent health now and have been completely cured for ten years. I strongly recommend it.

(MRS.) MARY WASSON, Care Ed. Green, 1722 S. 17th St., Phila., Pa.

Eckman's Alternative is effective in Bronchitis, Asthma, Hay Fever, Throat and Lung Troubles, and in up-building the system. Does not contain poisons, opiates or habit-forming drugs. For sale by The Cave Drug Co., Marshall Drug Co., Culley Drug Co., A. R. McIntyre, T. H. Carr and other leading druggists. Ask for booklet telling of recoveries, and write to Eckman Laboratory, Philadelphia, Pa. for additional evidence.—(Advertisement.)

DRYING POTATOES A NEW INDUSTRY

An almost revolutionary project for the feeding of stock and the using of a valuable crop which has gone to waste lately in the northwest is coming to the attention of S. W. McClure, secretary of the National Woolgrowers association, and may assume palpable form in the near future.

This matter came up through the report of an American consul to Germany who says that the Germans, with an immense potato crop going to waste, concocted a plan for the drying of the edible tubers and feeding the new species of Saratoga chips to horses, cattle and sheep. The potatoes are first sliced, then the water is all there is to it. The innovation is said to work so well that now 257 factories are being operated in Germany for the drying of potatoes. Raw tubers create intestinal troubles if used to any extent.

"Why not try it here?" says Mr. McClure. "For several years I understand, thousands of bushels have rotted in Utah, Wyoming and Idaho because there was no market available. The whole northwest has had trouble with its potato crop. It appears that the establishment of a few simple drying factories may change the whole affair, give the farmer an outlet for his crop and give the stock and wool grower a new source of food supply."

Miss Catt—She has a fine complexion.
Miss Nipp—Yes—that's an added attraction.—Lippincott's Magazine.

Wrights' Store News

Fashion Catalogue

The fashion catalogue is the general catalogue of Butterick Patterns. The figures shown are very small, including nearly all the staple patterns offered. It is a book of a good many pages and is very useful to the woman who has patterns to select. These are offered to adults free of cost at the Pattern Counter.

Hair Goods

Here's an exceptional value in the very best quality of hair goods. We offer a switch of genuine hair—22 inches long, for \$4.95. The switches come from a maker who is noted for the cleanliness of his product and the exceptional quality of the materials used. These switches are lustrous with the natural life of the hair and in the natural colors, Notion Dept.

New Shampoo

In the Drug Section today the sales ladies are showing a new shampoo which is made of the best known egg recipe and is offered in powder form. The contents of the package are added to water and kept in a bottle to be used as wanted. It is not a mere hair cleanser—the hair is left soft and lustrous, after using it, instead of harsh and dry as with most hair cleansers.

Help Wanted

We have a very attractive proposition to make to some bright woman who desires employment for the next thirty to sixty days. It is a position which requires a woman of mature years and one who can converse pleasantly and intelligently. The proper person can employ the next sixty days very profitably. —Adv. Dept.

March Delineator

There is an eager demand for the March Number of the Delineator. It is a great, generous magazine filled with the bright colors of spring—teeming with style suggestions—tempting from a literary standpoint and altogether one of the handsomest magazines we have yet received. The patterns shown are the most approved for spring and summer and this number will be a great aid to those who are planning spring dresses. The price per copy is 15c—Pattern Dept.

Spring Book

The spring style book is issued by the Delineator company and is much the same in size and outward appearance. The contents, however, are all pertaining to styles. It is the authoritative style book for spring and will be the authority until the Summer Book shall appear later in the season. With each book is a coupon good for any 15c pattern, so that although the book sells for 25c—the pattern coupon really makes its cost only 10c.

New Kid Gloves

There is a glove manufacturer in Germany who specializes in the making of one quality of ladies kid gloves. We are his agents in Ogden. This glove is said to be the very best made of its class—it is the equal of the gloves sold generally at \$1.50. Because of the specialization in the making and because of the great quantities we sell of them, we offer this glove to our customers at \$1.25. The Spring shipment—direct to us from Europe—is now ready in all colors and sizes.

Old Straw Hats

If you have an old straw hat which has retained its shape but has become soiled or discolored, here's a simple method of making it new again. Colorite is a liquid coloring used for this purpose. It is offered in bottles—each containing enough to do several hats—a brush is included with each package. The list of colors comprises sixteen different ones—25c complete.

March Patterns

The patterns for March are here—all of the new styles shown in the Delineator and the Spring Style Book are not in stock and in all sizes. If you have found the patterns wanted it is a good plan to secure them at once before the sizes wanted are sold out—of course we can always secure any pattern in a very few days (mail from San Francisco), but usually even this delay is irksome.

The New Club

Now we are forming our Spring Sewing Club—which is to say that we want one hundred women to become members of the New Sewing Machine Club. Only one hundred can be supplied at this time. To become a member of the club you pay one dollar as an entrance fee. The dues are \$1 a week for 34 weeks. The benefits are these:—You receive at once one of our splendid Free Sewing Machines—the coming sewing machine of the day—a machine which is equal to any \$75 machine on the market—yes, we will even say, better. The first one hundred who become members will be entitled to a machine at once and pay only One Dollar a Week for a very few weeks.

FIRST SUFFRAGE GROCERY STORE DOES RUSHING BUSINESS; MEN COME TO RUBBER, REMAIN TO BUY

Left to right: Mrs. Alice Snitjer Burke, Mrs. Sarah Meyer, Miss Aimee Hutchinson and Mrs. Sophia Kremer in their grocery store.

The first suffrage grocery store on record, in charge of four of the best-known suffragists in New York, opened on Broadway last week and is doing a land office business. "It's a success, a glorious, inspiring success," said Miss Aimee Hutchinson, who rivals Miss Inez Amundson as New York's most beautiful suffragette. "The orders have been pouring in so fast that I haven't had time to fix my hair, and we're thinking of getting another cash register."

Just of course, many who come do so to look, but few leave without making a purchase. Yesterday a curious man dropped in with the intention of buying a box of matches as the price of his curiosity. He left the store burdened with the matches, also with six pounds of cheese, a dozen oranges, two dozen eggs, a large bottle of olives, a package of breakfast food and three pounds of candy. "You're a wonder," he exclaimed to Miss Hutchinson, admiringly. "I came to rubber and you made me buy. It's a good thing you aren't selling white elephants here, or I'd be leading a pair by a string."

Associated with Miss Hutchinson are Mrs. Alice Snitjer Burke, organizer of Progressive open air meetings during the last campaign; Mrs. Sophia Kremer and Mrs. Sarah Meyer. Since the store opened they have been the busiest women in New York. The profits made by the suffrage store will go to aid "the cause."

AN ART TO MAKE GOOD "CATCHUP"

Washington, Feb. 28.—"It is quite an art to make good catchup," announces the latest official government cook book, just issued by experts of the department of agriculture as an addition to its series of popular recipe volumes. Incidentally the government's experts decide this tomato sauce is spelled "catchup," not "ketchup" or "catsup."

The tomato is given first place among the vegetables by experts because it can be prepared in a greater number of ways than any other vegetable. They point out that few dinners are complete without it, either in the form of soup, sauce, salad, vegetable, catchup, chile sauce, chow-chow, relish, chopped pickle, greece tomato pickle, tomato sweet pickle, piccalilli, preserved tomato or tomato mince meat. Recipes for these uses of the tomato are contained in the government's latest cook book.

GRAFTER'S YEARLY FUND \$1,200,000

New York, Feb. 28.—Through evidence in the form of a letter which J. J. McGrath, a saloon keeper, admitted before the grand jury that he wrote to his manager directing the payment of money to a civilian collector, District Attorney Whitman was able to establish to his satisfaction today that the excise graft since it was taken out of the hands of the precinct and district commanders has been centralized in a fund which aggregates \$1,200,000 annually. McGrath said that the time of instituting the method of "paying" through an association instead of through the police coincided with the time at which Mayor Gaynor issued his orders forbidding policemen to enter saloons.

DAISY NORRIS, INDIAN GIRL, CHARMS VISITORS AT GLACIER NATIONAL PARK

Visitors at Glacier National Park are charmed by the grace and beauty of Daisy Norris, a member of the Peigan tribe of Indians. Dressed in picturesque Indian garb, this dainty lass presents a most fetching appearance, and is admired by pale-faces and redskins alike. Miss Norris acted as maid of honor in a very strange wedding ceremony in Glacier Park last summer. While Robert Horn, Washington correspondent of Leslie's Weekly, and his bride of a few days, formerly Miss Helen Corbin of Indiana, were honeymooning in the park they were honored with the request, to which they assented, to become members of the tribe. The initiatory ceremonies included a re-marriage. Miss Norris was called to assist and acted her part as maid of honor most beautifully.

Daisy Norris.

STOCK TRAINS TO BE SPECIAL

Assistant General Manager E. C. Manson of the Oregon Short Line returned last night with C. J. Tuttle from Huntington, Ida., where the railroad men, at a conference with live stock owners, inaugurated a new system of freight shipments that, it is believed, will be more satisfactory to shippers and to the road. The freight rule on live stock has been that where less than a train-load, or fifteen cars, is shipped from any town, the shipment is attached to any freight train that happens
