PROVO COUNCIL PASSES A STRICTER ORDINANCE

Provo May 2.—The city council, at their meeting here tonight, passed the pool and billiard ordinance over the mayor's veto by a vote of eight to two. Councilmen Bott and Beede voted to sustain the mayor's veto. The ordinance prohibits the sale of any kind of liquor in a pool or billiard hall or in the same building, and it also provides for the complete elimination of all screens, tables and games of chance except pool and the like.

City Marshal Williams appeared before the council and asked that the merchant license which has been issued to the owners of confectionery establishments in the city be revoked, for, said the marshal of the law, these men are carrying on a liquor trade, which is not in keeping with the new ordinance. The matter has been referred to the committee on licenses.

CONDUCTORS TO ASK FOR CHANGES

Conductors J. C. Simister and C. J. Campbell of the Rio Grande road will leave tomorrow morning for Denver to join a grievance committee which will be received in conference by operating officials of the system Thursday afternoon. Various matters connected with the train service will be taken up and discussed at this meeting and satisfactory adjustment concluded.

Fifteen passenger crews now operate between Ogden and Grand Junction, and at present these employees are running first in and first out, and this applies in the operation of special as well as regular passenger trains. It is understood the grievance committee at the Denver conference will ask that the number of crews for regular runs be reduced to the twelve senior conductors, to run in and out of this city at stated intervals, and that the junior passenger conductors be relegated into three extra crews to operate special and regular trains on occasion requires. This will increase the present force by the addition of one passenger crew, and it is understood the change will be satisfactory to all of the men effected by the proposed new order of things.

All of the old passenger conductors will then know exactly what run they cover and the junior conductors will get in quite as much time and draw as large a salary as they are at present enjoying.

Other matters regarding passenger and freight service will also be taken up at the Denver conference for adjustment, and the grievance committee will be in session until these matters are all satisfactorily settled. The utmost good feeling obtains between the employees and the operating officials of the system and no discord or trouble is apprehended at the conference.

HOKEN OLSEN HEAVILY FINED

The case of the state against Hoken Olsen of Huntsville came on for trial before Judge Murphy this forenoon, the verdict being "guilty." Mr. Olsen was charged with selling liquor at Huntsville without a license March 23rd, three cases being filed against him. He was fined \$100 for the first offense and \$50 each for the other two.

The defense introduced no testimony, but demurred to the jurisdiction of the municipal court on the grounds that the city of Huntsville has not yet been reincorporated. It was contended by the defense that Mr. Olsen had applied to the county commissioners for a license to sell liquor in Huntsville and that the commissioners advised him that the matter could not be considered by them, because the final papers for the reincorporation of Huntsville had not been drawn.

The testimony given by witnesses for the state was to the effect that three young men entered the business place of Olsen at Huntsville, March 23rd, and purchased of him three bottles of whiskey and several drinks over the bar. Judge Murphy held that he had jurisdiction in the case and rendered a verdict of guilty against the defendant, assessing the fines as above stated.

The attorney for the defendant gave notice of an appeal, and the bond for the same is now being prepared.

WONDERFUL WOMAN 81 YEARS OF AGE

That a woman 81 years of age can go through a surgical operation for strangled hernia and within three days show signs of complete recovery is one of the remarkable surprises afforded during the week at the Ogden General hospital, where Mrs. Hayward of Carter, Wyoming, was the aged lady who so successfully proved her vitality and strength.

The operation is viewed as one of the most successful ever performed on an elderly person and Dr. Joyce, the attending surgeon, is rather proud of his patient.

GROCERS ARE WELCOMED IN OGDEN

At a meeting of the local Retail Grocers association held last night, a committee consisting of Edwin Williams, Gomer Nicholas and J. S. Carver, was appointed to arrange a brief program for the reception and entertainment of the California delegates to the National Retail Grocers' convention at Chicago, when they arrive from the west on the eastbound Overland Limited this afternoon.

In accordance with these plans, the committee arranged for a dozen or more automobiles and when the Southern Pacific train arrived from the west at 2:10 this afternoon, Secretary F. B. Conley and his associate delegates, with their ladies, were met at the Union depot by local members of the association and given an informal reception. A few minutes later the delegates were escorted to handsome touring cars and given an automobile ride through the principal business and residence districts of the city.

The visitors were then escorted back to the Union Depot and at 2:55 took the Rio Grande train for Salt Lake, where another reception will be extended the visitors and tonight they will leave for the east by way of Denver over the Gould system.

The delegates from the west expressed grateful appreciation for courtesies extended them in Ogden and were enthusiastic in declaring this the most attractive city they had seen between San Francisco and Utah.

Mr. and Mrs. J. S. Carver joined the western delegates at this point and will travel with them to the national convention.

UNION PACIFIC IS SUED BY I. FISHER

In the case of Ivan Fisher against the Union Pacific Railroad company, a second amended complaint has been filed with the clerk of the district court. Damages in the sum of \$3,550 are asked upon three causes of action.

The complainant alleges upon the first cause of action that on March 21, 1909, he shipped from Boulder, Colorado, over the defendant's line, certain horses and mules consigned to Gooding, Idaho, that through alleged negligence of the defendant the stock was bruised and crippled in transit to the amount of \$130.

In the second cause of action, it is alleged that on April 22, 1909, certain household goods and furniture were shipped by the plaintiff from Boulder, Colorado, to Gooding, Idaho, and that through the negligence of the defendant and its employees the goods were damaged to the extent of \$1,410.

In the third cause of action \$2,110 damages are asked for injury to certain livestock roughly handled in transit.

TILLERS OF SOIL SHOULD UNITE

ST. LOUIS, May 2.—Samuel Gompers, president of the American Federation of Labor made a strong plea for a union of farmers and organized labor for better industrial conditions in an address before the joint convention of Farmers unions tonight.

He denied he came here to organize a new political party but declared when organized industrial workers should shoulder in fighting for equality and justice then will come a new dispensation and new order of things.

"The unrest throughout the country is not a protest of poverty and misery," he said, "but is the protest of intelligent and progressive men and women. That there is poverty and misery is undeniable. We need not go far to find myriads of men and women begging and pleading for work in spite of our boasted prosperity. Idle men and busy children is a sufficient indictment of our present day conditions."

"The high cost of living, laid at the door of the farmer and wage-earner by local politicians as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a running ear or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be removed, and the tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is not a permanent condition of the mucous surface."

We will give One Hundred Dollars for any case of deafness caused by catarrh that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

O'BRIEN BESTS MIKE SCHRECK

LEXINGTON, Ky., May 2.—Philadelphia Jack O'Brien cleverly outpointed Mike Schreck of Cincinnati in a ten round go here tonight, although no decision was given.

Schreck was several pounds overweight while O'Brien was in good condition, the men weighing in at 195 and 167 pounds respectively.

In the early rounds Schreck forced the fighting but before the sixth round he was getting much the worst of it and his left eye was badly swollen.

TO DENVER BY AUTO PLAN OF SALT LAKER

SALT LAKE, May 2.—Frank Kawans, superintendent for P. J. Moran, left yesterday in a Pierce-Arrow machine for a trip to Denver, accompanied by Elgin Yankee, chauffeur for Mr. Moran, who will run the car. The trip will be made through Weber canyon, Evanston, Granger, Laramie, Medicine Bow and Fort Collins and to Denver in four days unless some unexpected accident occurs.

The car is five years old and has covered a distance of 80,000 miles. It is a 45-horsepower machine and on this trip will be given a thorough test. The autoists took a good supply of block and tackle and plenty of equipment for a hard trip. After a short stay in Denver they will return over the same road. The trip is purely one of pleasure.

MAN CAUGHT IN OGDEN IS HEARD

SALT LAKE, May 2.—William Fitzgerald, who was arrested in Ogden for passing worthless checks in Salt Lake City, and who pleaded not guilty to the charge of obtaining money under false pretenses, changed his plea to guilty in the criminal division of the city court this morning and was sentenced to serve sixty days in the county jail.

While Fitzgerald was working his graft here, he is said to have passed himself off as the son of a wealthy easterner, and lived high.

On account of lack of sufficient evidence the case against Thomas Williams, a negro was discharged. Williams was arrested on a charge of "strong arming" James Douglas and relieving his victim of a watch and a small amount of money.

F. R. Perry pleaded not guilty to a charge of failure to provide for his minor children. His case was set for May 25, and his bonds were fixed at \$300.

The case against Joe Brown was dismissed, when Brown proved that he had been giving his family support.

LAKE LEVEL HIGHER THAN IN MANY YEARS

SALT LAKE, May 2.—Great Salt Lake is higher at the present time than at any other time since the United States weather bureau established a measuring gauge in 1902.

The measurement taken this morning showed the level to be 7 feet above the zero mark on the government gauge. This is a gain of 22 feet since May 1, 1909, and 601 feet since April 15, 1910.

Since November 15, 1905, the lake has risen 81 feet. In November, 1905, the water reached its lowest level since the establishment of the gauge, registering 11 feet below zero.

A. H. Thiessen, director of the local office of the weather bureau, says he expects the water to go still higher before the high water mark for the year is established.
