

Money Makes Money

Interest on investment is the source of surest income. Money works 24 hours a day and seven days a week.

More people are made independent by saving than by slaving.

England has invested to wonderful advantage. Every year statistics show that England buys more from other countries than she sells to them. But interest on investments does not show in the statistical tables.

That is why England is rich.

Money placed in a savings bank is an investment safe and sure.

Make yourself independent.
