"WEEDS USED IN MEDICINE."

Is the title of a very interesting pamphlet recently circulated by the United States Department of Agriculture. It illustrates and describes the medicinal qualities of roots, leaves and flowers of our most common weeds, which are nature's remedies for disease. From the roots and herbs of the field Lydia E. Pinkham's Vegetable Compound was originated more than forty years ago, and the demand for it has increased until it is now recognized as the standard remedy for female ills.—Advertisement.

WIFE SENDS HER HUSBAND TO CAMP

At Plattsburg Shortly After the Eloping Couple Are Forgiven by Parents.

BOSTON, July 10.—A romance lacking none of the thrills of a movie has come to light with reports from Belknap Falls, Vt., telling of the runaway marriage in that town of Willard Quincy Stanton, son of a wealthy Montana family and a junior at Harvard University, and Miss Madeline Frances O'Brien, a nineteen-year-old Notre Dame Academy graduate, of 17 Dixwell street, Jamaica Plain.

Bride Sends Him to Camp. The wedding occurred Monday night. Thursday night at 8 o'clock, parental forgiveness and blessings won, the bride of twenty-four hours stood in the North Station and waved farewell to her husband as he left for the military training camp at Plattsburg with a contingent of Harvard students. Stanton had pledged to go before his marriage and his wife wouldn't let him stay behind, even though permission could readily have been secured.

"It's the lot of a soldier's wife, you see," she explained chokingly, as she watched the vanishing train through tear-dimmed eyes.

It was two years ago that Stanton and Miss O'Brien first met. There was a dance at Harvard and it fell to Stanton's lot, as an usher, to escort some Notre Dame girls to the supper which followed. Miss O'Brien was one of the girls—the only girl as far as Stanton was concerned. A close friendship began that moment and Stanton was a constant visitor at the O'Brien home in Jamaica Plain.

Stanton is 20, though, a freshman in Harvard, and Miss O'Brien is 17. Mrs. Annie Marie O'Brien, Miss O'Brien's mother, while she looked with favor on the match, felt that her daughter was too young to be married and that Stanton should wait until he was graduated from college. Stanton and the girl of his choice thought otherwise, and last week, permission to wed still withheld, they decided to elope.

Biliousness and Stomach Trouble.

"Two years ago I suffered from frequent attacks of stomach trouble and biliousness," writes Miss Emma Verbrake, Lima, Ohio. "I could eat very little food that agreed with me and I became so dizzy and sick at my stomach at times that I had to take hold of something to keep from falling. Seeing Chamberlain's Tablets advertised I decided to try them. I improved rapidly." Obtainable everywhere.—Advertisement.

BRIGHT'S DISEASE

Causes Death of Luther C. Nay, Well Known Farmer of Davisson's Run.

Luther C. Nay, aged 52 years, a well known farmer of Davisson's run, died at his home there Monday evening following a lingering illness of Bright's disease. The funeral services will be held at 10 o'clock Wednesday morning at the home. The Rev. Mr. Bailey, of the First Baptist church, of Salem, will have charge of the services and the burial will be in the Boring cemetery.

Surviving relatives of the deceased man are Mrs. Henry Wagener, a daughter; Fielden Nay, his father; Miss Lottie Nay, a sister, and the following brothers: George, Fielden, Jr., Arthur B., Edwin and Laurence Nay.

TRAIN RIDERS SENTENCED.

Joseph Mohrns and William Wotring Tuesday morning started to work out a ten day road sentence imposed upon them Monday night by Magistrate T. G. Niewarner for train riding. Mohrns and Wotring were arrested in the west end of the local railroad yards Monday evening by A. E. Bryan, special policeman of the railroad company.

Mother Nearly Insane Because Boy is Missing

Police Are Baffled over Strange Disappearance of Union Heights Lad.

Worried over the strange disappearance of her fifteen-year-old son, Panus, Mrs. Theodor Yanik, of Union Heights No. 2, has become mentally unbalanced, and her husband fears that unless the youth is located in a short time she will become totally insane.

The disappearance of the boy, who has been missing a little over four weeks, furnishes one of the biggest puzzles the local police have ever coped with. The young man was employed by the Travis Glass Company and on Saturday, June 12, he went to the office of the company to get his pay check. He never returned.

The worst part of it all is the fact that there is at least one person in the city who knows the whereabouts of the missing youth. That person is a boy of Glen Elk, whose name is not known. According to the father of the missing youth, the Glen Elk boy told him that he knew where Panus was but that he would not tell. "I know where Panus is, but I wouldn't tell you for \$25," the boy is quoted as saying. "I promised him I would not tell and I won't." And he wouldn't. The young man's father tried to force him to tell, but in vain.

The father of the missing boy is an employee of the West Fork Glass Company.

Photographs of the missing youth have been sent to police in all parts of the country.

FRENCH THROW A RING OF FIRE AROUND CITY

PARIS, July 11.—The situation remains unchanged on the Somme front. The war office statement of Tuesday says it has been ascertained that south of the Somme the French in the last two days have taken more than 1,300 prisoners.

On the Verdun front the Germans launched an attack at 4 o'clock Tuesday morning on the French positions from Fleury to a point east of Chenols. They succeeded in penetrating advanced French trenches at some points but were expelled immediately by a counter attack.

West of the Meuse there was active artillery fighting in the neighborhood of Avocourt and Chantancourt. The French continue to report satisfactory progress in their great offensive in Picardy. Monday's operations again were confined to the northern echelon, which has consolidated and extended its hold upon the northern plateau opposite Peronne.

HILL 97 Is Taken.

The outstanding French success of the day was the capture of all the German positions on hill 97, the highest point of the plateau. The first French rush on Saturday carried the mto the western slopes of this hill on which they made good footing but their troops waiting there had been stopped until adequate preparations permitted an attack on the farm buildings at the summit which the Germans had converted into a small farm residence it being made with more speed and fewer casualties. They are now in full possession of this height from which they look into Peronne, 150 feet below.

The result, they claim, from the whole day's fighting is command of the left bank of the Somme from east of Fluellieres to a point opposite Flaucourt, the Germans holding only a few positions on the edge of the river.

Build Formidable Defenses. This does not mean, French military critics admit, that Peronne can be captured out of hand. The Germans, according to the statements of prisoners, have constructed formidable defenses outside the city but the French believe that these are not likely to delay the capture when General Foch decides the time is ripe to make it.

French artillery already is beginning to throw a ring of fire around the city. What effect that artillery now has become is described by an officer attached to a heavy battery

Old Hickory Tonic Is Rich in Iron

RESTORES STRENGTH, VIM AND VITALITY IN SHORT TIME.

Iron increases the red corpuscles in the blood, thereby making it richer and purer. As Old Hickory Tonic contains one of the very best forms of iron that the human system can easily absorb, it is not long after you take it that you feel stronger and more vigorous. Besides the iron, there are extractions of a number of tonic and purifying herbs, roots and barks in Old Hickory Tonic. They tone the stomach, liver, kidneys and bowels, create good appetite and cleanse the system of poisons.

Old Hickory Tonic is not a patent medicine. It is made from the formula of a family of doctors, who for over a half century, used it in their regular practice. No other tonic they ever prescribed would give the same good results that their own preparation gave, so they always returned to it. If you are weak and sickly, go to the drug store at once and buy a good big bottle of Old Hickory Tonic and strength return. Then ask your druggist for the lowest price on six bottles and continue the treatment until you are thoroughly well. You'll find it a good investment, for to be weak and sickly is the most expensive thing in the world.—Advertisement.
