WASHINGTON, Nov. 28.—Charges that officials of the Brotherhood of Locomotive Engineers violated federal laws when they expelled from their organization John T. Heller and H. Rother, two locomotive engineers who testified in behalf of the railroads and against the use of high power headlights, were made Monday before the Interstate Commerce Commission by Charles F. Milinsky was arrested Sunday night at Ziesing by Corbin who alleges that Milinsky was shooting the gun in one of the streets of that town just to hear the report. WHERE IS THE MOTHER

with a child who is rundown, has pale cheeks or thin blood, who will hesitate to give that child the very thing it needs to start it growing and keep it going? For over forty years the concentrated liquid-food in Scott's Emulsion has been changing thinness to plumpness—changing poor blood to rich blood. There is nothing better for growing children—whether they are weak or well—than Scott's Emulsion, but see that you get the genuine Scott's. Scott & Bowers, Bloomfield, N. J. 14-30

CONFERENCE

Between Local Shippers and Vice President Thompson Will Be Held.

A few of the large shippers of the city who have been having the most trouble receiving and sending out shipments at the local Baltimore and Ohio freight station and G. W. Dudderar, secretary of the board of trade, will have a conference with A. W. Thompson, of Baltimore, when his special car arrives at the local station Monday night from Grafton. Mr. Dudderar arranged for the conference so that local shippers would have a chance to present their complaints to one of the head officials of the company and in this manner it is hoped to improve freight conditions in the district. PROFITS

Of Newspapers the Last Three or Four Years Are Wiped Out by High Prices.

NEW YORK, Nov. 28.—"There will be 2,000 newspapers forced out of business in 1917, and not all small ones either," is a statement of A. G. McIntyre, paper expert of the American Newspaper Publishers Association, in discussing the newspaper situation. Continuing, Mr. McIntyre said: "If newspaper earnings of publishers had been substantial in the past, it would be possible to use up the last three or four years' profits for these increased prices, but the publishing business has been so precarious that they have no leeway in this connection." "An increase in advertising rates will not begin to meet the costs or make up the deficit that stares newspapers in the face. It is a dark day for publishers, who face ruin and disappointment, with no quarter offered."

Nervous Periodical Headaches

This trouble commonly called "tick headache," is said to be due to the retention of uric acid in the system. Often it is stated that a poor condition of the blood is a cause of these headaches, or that it is a nervous condition; and in certain cases, no doubt this is true. Where treatment is demanded, it is more for the pain than anything else, and Dr. A. F. Schleich's C. O. L. has found anti-kamina tablets to give prompt and satisfactory relief. "Rest should be insisted upon," he says. "Rest should be insisted upon, darkened the room, and all the attendants and family should be as quiet as possible. An emetic will sometimes shorten the attack. The bowels should be kept open with 'Aristolochin' and a thorough rub-down with a coarse towel, often give grateful relief. Two anti-kamina tablets when the first signs appear, will usually prevent the attack. During an attack, one tablet every hour or two will shorten the attack and relieve the usual nausea and vomiting." These tablets may be obtained at all druggists. Ask for A. F. Schleich's C. O. L. Tablets. They are also unexcelled for nervous headaches, neuralgia and all

Why Can't Other Stores Sell Clothes Like These?

Why can't every singer be a Caruso—why can't every artist be a Rembrandt—why can't every pitcher be a Mathewson—every fighter a Willard?

Why? They'd all like to. Just as other stores would like to be able to sell clothes of the Nusbaum kind. Something's missing—a certain dexterity, a sort of a "knack." Some people call it genius. That's probably right—certainly it needs genius to assemble thousands of the newest suits and overcoats priced from \$16.50 to \$40.00 for your approval.
