WHAT EVERY WOMAN SHOULD KNOW.

Every woman should know that if she is in poor, sickly, debilitated condition of health, making existence a burden to herself and a source of painful anxiety to her relatives to herself and a source of painful anxiety to her relatives, and friends, and perhaps, (horrible reflection!) entailing and inflicting her own maladies and sufferings upon her children, that it is her duty to understand why and from what cause her sufferings arise, that remedy and relief may, while yet there is time, be availed of, the causes be avoided in future, and her health restored, that she may be fitted for the duties and capable of the enjoyments of life.

Let every woman look at the emaciated form, the deathlike complexion, the deep-buried, lustreless eye, the sunk-en cheek, the gloomy and depressed spirits, the shattered nerves, the prostrate and helpless condition of many a wife, mother, daughter, or sister, if not herself included, within her own circle, whose days are days of agony, and ask herself, "Must this continue? Must this be? Is there no remedy? No relief? No hope?" The remedy is by knowing the causes and avoiding them, and knowing the remedies and benefiting by them.

These are pointed out in THE MARRIED WOMAN'S PRIVATE MEDICAL COMPANION. BY DR. A. M. MAURICEAU,

PROFESSOR OF DISEASES OF WOMEN. One hundredth Edition (500,000). 18mo., pp. 250. [ON FINE PAPER, EXTRA BINDING, \$1 00.]

Every complaint to which a woman is subject, from girl-hood to womanhood, as also as wife and as mother, are fully described, with the causes, the symptoms, and also pro-per mode of treatment, in a plain, simple, but in the most chaste language, easily understood. And thus every woman can discover, by comparing her own symptoms with those described, the nature, character, and causes of her 'omplaint; and be spared much anxiety and suffering.

The wife about becoming a mother has often need of

instruction and advice of the utmost importance to her future health, in respect to which her sensitiveness for-bids consulting a medical gentleman, will find such in-struction and advice, and also explain many symptoms which otherwise would occasion anxiety or alarm. How many are suffering from obstructions or irregulari-ties peculiar to the female system, which undermine the

health, the effects of which they are ignorant, and for which their delicacy forbids seeking medical advice? How many suffer from prolupsus uteri (falling of the womb) or from fluor albus (weakness, debility, &c.)? How many are in constant agony for many months preceding confinement? How many have difficult, if not dangerous deliveries, and slow and uncertain recoveries? Some whose lives are hazarded during such time, will each find in its pages the means of prevention, amelioration and relief.

How many bitter moments, how much anguish, might have been spared to the sufferer, to her husband, to her relatives, by the timely possession of this little volume.

It is impracticable to convey fully the various subjects

treated of, as they are of a nature strictly intended for the married, or those contemplating marriage. But no husband, wife or mother are excusable if they still continue in ignorance of those physiological laws, by the knowledge of which their own health and happiness, as also the future well-being of their children, are secured.

"THE MARRIED WOMAN'S PRIVATE MEDICAL COMPANION" is a standard work of established reputation, found classed in the catalogues of the great trade sales in New York, Philadelphia, and other cities, and sold by all the principal booksellers in the United States. It was first published in 1847, since which time

FIVE HUNDRED THOUSAND COPIES have been sold, of which there were upwards of ONE HUNDRED THOUSAND SENT BY MAIL.

attesting the high estimation in which it is held as a relia ble popular Medical BOOK FOR EVERY FEMALE;

the author having devoted his exclusive attention to the treatment of complaints peculiar to females, in respect to which he is yearly consulted by thousands.

In consequence of the universal popularity of the work,

as evidenced by its extraordinary sale, various imposi-tions have been attempted by imitations of title-page, spurious editions, and surreptitious infringements of copyright, as well upon booksellers as upon the public; it has een found necessary, therefore, to

CAUTION THE PUBLIC to buy no book unless the words "Dr. A. M. MAURICEAU, 129 Liberty street, N. Y.," are on the title-page, and the

entry in the Clerk's Office on the back of the title-page and buy only of respectable and honorable dealers, or send by mail, and address to Dr. A. M. Mauriceau. Upon receipt of One Dollar "THE MAR-RIED WOMAN'S PRIVATE MEDICAL COMPAN-

ION" is sent (mailed free) to any part of the United States, the Canadas and British Provinces. All ietters must be postpaid, and addressed to Dr. A. M. MAURICEAU, Box 1224, New York City. arise from the exposed state of the clast, according to fashion, and the continual changes of our climate.

"The Protector" is simply a chemically prepared fur, lined with silk and padded, which, sampended from the nock, covers the sheet, in so agreeable a manner that, once worn, it becomes a necessity and a comfort.

"The Protector," although but recently introduced into America is making rapid progress through the United States, the Canadas, South Anerica, and the West Indies. It has for a long time been a staple article in England and on the continent of Europe, while it has grown in many countries to the position of an article of dress.

To demonstrate these facts enquire of any kinglish resident in your vicinity, of his knowledge of the beneficial effects of Westing the Protector, without recourse to booroune of any kind.—The cost of wearing these articles is a more trifle, and one will last some years. No one who values the health of himself or his family will be without them. The Hospitals in this country are not alone recommending them, but rapidly introducing them. Harcourt, Bradley & Co., of London, and Manchester, Esgiand, were originally entrusted with the manufacture according to his original instructions, and therefore recommend those who would wear "The Protectors," to see to their being genuine.
