Next year Major Douglass Mrs. Mattie Lomax, under a sentence of death for the alleged murder of her husband, will be granted a respite untill fall, when her case will be reviewed by the Court of Appeals. This is the belief of the best informed legal talent of the stellar event in the life of the pacapital. Under the ruling of the triotic Negroes of the District of Cocourt, Mrs. Lomax was to have been jumbia. The race does not blame pastor of the Cosmopolitan Baptist and represented by it, Temple. Congressman Caleb Powers, Judge E. M. It is one of the peculiar phases of the Lomax case that the agitation in her behalf was led by the Washington Times, reputed to be unfriendly to the Negro race generally, and that the Washington Bee, a colored sheet, was the only newspaper in the District that attempted to discredit the effort thus made to have justice tempered with mercy.

The opinion is freely expressed that if a new trial is granted by the Court of Appeals, Mrs. Lomax will be acquitteed on the ground of self-defense.

DR. WASHINGTON IN TOWN. Dr. Booker T. Washington was in the city last Friday, and had an interesting interview with President Taft at the White House. The Chief Executive was delighted to see him and the discussion of the educational status and economic opportunities of the Negro race was one that would have done our people everywhere a mint of good to have heard. The president is a trustee of the Jeanes and Slater educational funds and is an ardent supporter of the work that is being carried on at Howard and Fisk as well as that which Dr. Washington is fostering at Tuskegee. Mr. Taft believes, with the sensible members of our race, in the higher education for those in a position to receive and use it to advantage, and is in favor of a sound, serviceable training for the Negro masses, who, in the final analysis, must work with their hands. The address of Dr. Washington at the Wilberforce commencement is regarded here as the most significant and far-reaching deliverance that has been made by him since the famous Atlanta speech in The "Wizard" was never so strong in the affections of the people of America as he is today. He 'wears well" because he is genuine to the core. The race is proud of Booker T. Washington.

THE NEWS IN BRIEF. The Rochester Sentinel, T. Thomas Fortune's newest venture, is the cleanest and best sample of race journalism that has come down the pike in many moons. Mr. Fortune announces that the name of the paper is not to be changed to "The North Star," but will remain "The Sentinel." Mr. Fortune should be liberally supported by the race for which he has labored so assiduously and made so many sacrifices.

The Common Welfare Club is a new civic organization established here for the amelioration of conditions unfavorable to the Negro race. At a recent meeting G. A. Webber, chief clerk of the Bureau of Statistics, led the discussion on housing and social conditions in the District. Steps will be taken to accelerate the movement toward abolishing the unsanitary alley houses in which Negroes are compelled to live and which breed disease, menacing the health of the entire community.

Rev. David F. Rivers, pastor of the Berean Baptist Church, received a total of 435,629 in his contest for the European tour offered by the Washington Post. The lowest of the District winners received 446,082. A trifle over 10,000 ballots would have made pr. Rivers a winner. As

it was every organization in the city combined on him and at one time he led all competitors. It is difficult to convince many of Dr. Rivers' friends that he was not the victim of a "frame-up"—or that a combine was not worked up against nim. The Post gathered up a barrel of Negro money on the deal.

Oliver Rando h, editor of the Washinton American, has been transferred to a clerkship in the Postoffice Department. Mr. Bismark R.
