Crowls From All Parts of the State Already Arrived for the Races.

EUREKA, Cal., July 13.—The rains for the past month have been too scanty for the grass to come in for the race course, but in previous years the rains have been sufficient to make this one of the prettiest spots in the State and attract a large attendance. The grass is now at its best, and is being mowed by the city. The course will be well supplied with water and the rains have come in.
