HE AND NOT SHE MADE THE DIVE.

One of T. P. Robinson's Clever Illusions Exposed.

AT THE SUTRO BATHS.

Cornell, a Skillful Amateur Natatorial Performer, Impersonated a Lady.

THOUSANDS WERE DECEIVED.

They Were Attracted by the Announcement That Miss Foote Would Leap Seventy Feet.

a series of leaps and somersaults from a flying trapeze. He stood on the bar and swung about for a few moments preparatory to his leap. When the trapeze was swinging until the ropes were parallel with the beam to which they were attached, he let go his hold and leaped were attached, he left the trapeze he gradually turned until within a few feet of the water, when he straightened out, his feet toward the roof, and broke the fall into the baths with his hands. For a second he disappeared. As soon as his head popped above water he swam for the ladder with a steady and rapid stroke. The feat was repeated immediately afterward It Will Be Put Into Oper-

by Dana Thompson.

He followed with an exhibition of high leaping, air springs and eccentric dives from the trapeze.

Colonel Robinson rang the bell, fired a pistol and announced that the event of the programme was about to take place. The young man, who knew no fear, was going to dive from a platform erected close to the roof of the baths, a distance of seventy feet from the water. A moment later and he was scaling the ladder with the agility of a monkey.

When he reached the top he bowed and smiled, kissing his hands to all parts of the house. The band stopped playing as he poised himself on the edge of the platform. He placed his hands by his side, and gradually bending forward just let himself topple off the landing. Down he shot like the stick of a burnt-out rocket. When about half-way in his journey to the water he straightened out and turned once, striking the pond

He says that he never loses his presence of mind even while falling through the air. He has to balance himself in order to prevent striking the water sidewise or on his back. So far as a shock is concerned, he admits that a little jar accompanies the collision, but when the hands and feet strike first the force of the fall is almost completely broken.

Cornell is well known in amateur swim-Miss Isadore Foote, who Sunday last ming circles and won second prize in sevwas written up in a profusely illustrated eral notable events in this City. CRUZ CARNIVAL,

The Philadelphia and the Monitor Monadnock Will Be Present.

Irving M. Scott Will Deliver the Principal Address on Bunker Hill Day.

Lieutenant-Governor Jeter and Lieutenant Morey of Santa Cruz were here yesterday to make arrangements for the reception of naval vessels now in San Francisco Bay at Santa Cruz on the occasion of the water carnival to be held in that city June

16. White craisers and monitors, the frowning muzzles of the big guns and the "accouterments of war" will lend a little more immensity and sternness to what promises to be a very jolly aquatic occasion, and the Santa Cruzans want as much of Uncle Sam's Pacific squadron there as they can get to give the scene additional

interest.

Admiral Beardslee of the flagship Philadelphia met Lieutenant-Goyernor Jeter and Lieutenant Morey at the Occidental Hotel at breakfast and had a conference with them. Lieutenant Morey is attached

with them. Lieutenant Morey is attached to the Naval Reserve corps at Santa Cruz. After a conference lasting about one hour it was finally arranged that the flagship Philadelphia and the monitor Monadnock should leave next Monday for Santa Cruz so that the warships will get there in plenty of time to be in shipshape for the carnival. The carnival proper will not begin, the Lieutenant-Governor said, till next Wednesday, the 17th.

On Tuesday evening following the arrangement of the carnival of the carnival

On Tuesday evening following the arrival of the flagship and monitor a grand reception will be tendered Admiral Beardslee and the officers of the warship by the Mayor of Santa Cruz and the trustees of the carnival. The reception will take place in the auditorium of the Sea Beach Hotel, which will be elaborately decorated for the occasion.

VINING'S NEW TRANSFER PLAN,

ation To-Day at All Points.

LIMIT OF FIVE MINUTES.

And Sometimes but Sixty Seconds Will Be Allowed for Changing Cars.

PROVIDED FOR. BLOCKADES

Passengers Will Be Accommodated on Parallel Lines in Cases of Stoppages.

Streetcar transfer agents have become a hing of the past, and no longer will the patrons of the Market-street system have to be mind-readers and expert pedestrians combined in order to make the proper connection between the Market-street cars and those of Powell street and Third street respectively.

No more will the neglectful conductor and the uninformed passenger comprise a combination for the production of in-cipient riots and serio-comic performances for the delectation of the street gamin and

the annoyance of the public.

Acting Mayor Taylor yesterday signed the ordinance which by its terms proscribes the check-transfer system and abolishes the transfer agents and it is now one of the municipal laws of San Francisco, as it became immediately operative.

That it would become a law was a fore-

gone conclusion and ever since its introduction by Supervisor Dimond General Manager E. P. Vining of the Market-street Railway Company has been preparing for the necessary change in the system of issuing transfers. Therefore when notice was received by

Mr. Vining of the action of acting Mayor Taylor orders were issued to the transfer agents that with the close of their day's work yesterday they would not be required to report for their customary duties any As the prime motive in putting into op-

eration the cumbersome system, which so promptly fretted the public into rebellion, was to prevent the newsboys from trafficking in transfers, a new problem was presented for solution to the ingenious general manager of the Market-street system. He believes that in the new transfer he has prepared he has a panacea for all the past ills that resulted to his company and

transfer is printed so as to allow punching to indicate a time limit of five minutes. But this limit will be the maximum, as in many cases passengers may not have more than a minute to make their connections. For instance, should a pas-

Vining's Latest Transfer.

senger arrive on a Market-street car at the junction of Powell street at 1:04 P. M. his transfer will be punched at 1:05 P. M., as there is usually a car in waiting at the Market-street terminus of the Powell-

By this method of procedure it is hoped to take away any temptation that may remain with the undismayed newsboy, despite the new ordinance, to engage in the free gift business, with transfers as the attraction. Another innovation in the transfers that

will be given out to-day is a provision designed to overcome the delays and annoyances caused by blockades.

Spaces are set apart in them in which are inscribed the letters "A, B and C." When a blockade occurs on the Haight- BY-LAWS HELD INVALID. street line a transfer will be given each passenger, punched in one of these spaces, according to previous instructions to the conductors, which will enable the passengers to ride on a parallel line, such as the McAllister, and vice versa. From the Market-street and Valencia-street cars similar transfers will be issued to the Mission-street cars and vice versa, and so throughout the City.

TO OUST THE DIRECTORS.

The Assignee of the People's Home Savings Bank Depositors Is Bringing Suit.

The suit brought by the California Safe Deposit and Trust Company, the assignee of 2700 depositors in the defunct People's Home Savings Bank, representing over \$700,000, about one-half of the bank's liabilities, for the removal of General John F. Sheehan from the position of manager of the bank, and Colonel George D. Stone, Samuel K. Thornton, W. H. Phelps, W. P. Taylor and E. M. Freeman, directors, will come up for trial before Judge Seawell

in Department 1 of the Superior Court this

morning at 10 o'clock. which will be elaborately decorated for the occasion.

The Lieutenant - Governor called on Irving M. Scott of the Union Iron Works after the conference at the Occidental and requested him to consent to deliver the principal address at Santa Cruz on the principal day, the 17th, which is known as Bunker Hill day. Mr. Scott finally consented to do so. The subject of his address will be "Bunker Hill."

Lieutenant-Governor Jeter and Lieutenant Morey returned to Santa Cruz on the afternoon train.

The complaint charges Manager Sheehan with reckless extravagance, improper keeping of accounts and having paid out the sum of \$2532 14 in settlement of a judgment against the bank which had been compromised for \$1800. It also charges Directors Stone, Phelps and Thornton with having conspired with the stockholders to reject the calling in of the unpaid capital stock, amounting to nearly \$700,000. In addition Director Phelps is charged with having bribed Dr. Mervell to resign, and all the five directors are accused of having worked to remove Attor-The complaint charges Manager Shee-

ney John Flournoy, a man of sterling integrity, without an examination or investigation of the facts.

TRADEMARK ADOPTED.

Manufacturers' and Producers' Association Will Now Have Their Seal on All Home Products.

The directors of the Manufacturers' and Producers' Association held their regular meeting yesterday afternoon. The diectors present were: H. J. Crocker, A. Durnham, J. W. Kerr, S. H. Taey, M. J. Keller, A. Sbarboro, J. P. Currier, A. McLaughlin and Fred R. Dingle.

A report was submitted by Manager Tacy stating that as a delegate of the association he had indorsed the request of the Board of Health for an increased appropriation for the better care of the health of the citizens of this City, the subject having been referred to a committee of fourteen, of whom Mr. Tacy was a member. He stated the sum appropriated was to be used in a thorough analysis and inspection of the various food products offered for sale.

Considerable discussion was given the manner and means of using the trademark, and a special committee, consisting of J. W. Kerr, A. Durnham and S. H. Tacy, was appointed to outline a policy for its use. the Board of Health for an increased

for its use.

The special committee on convict labor will hold a meeting this afternoon.

RAILROAD CHANGES. New Offices Created and Promotions

Made by Officials of the Southern Pacific Company. Three important changes have recently

been made in the head office of the South-ern Pacific Company. G. W. Fletcher, who has held the position of commercial agent, has been made general agent, with the general duties of looking out for both passenger and freight traffic and soliciting business. Agent Fletcher will report to General Freight Agent Smurr and General Passenger Agent Goodman, and will have his office at 613 Market street, under the

Grand Hotel.

The position of commercial agent, left vacant by Mr. Fletcher's promotion, will be filled by Mr. Griffin, at present a ticket clerk. Another change is the establishment of the office of ticket agent, to have immediate supervision of the ticket clerks. immediate supervision of the ticket clerks, and appointment of M. A. S. Mann to this newly created position.

Chairman Pepper of the Bimetallic Party Issues a Call.

Pays His Respects to the Bimetallic League and Also to the Two Great Parties.

Enoch Pepper, chairman of the State Central and executive committees of the American Bimetallic party, whose most strenuous efforts just now are engaged in the endeavor to show that his party and not the American Bimetallic League, of which George W. Baker is the head in this State, is the "only genuine" silver party, ts patrons under the old systems. This has issued a call for the organization of Senatorial district conventions to elect delegates to the National Convention of the party. The document is addressed "to all American bimetallists of California" and is as follows:

This is no time for a division in the silver forces. Every true American should fall into line and face the common enemy. A bold and defiant money power, with its compact organization and press, seeks every opportunity to divide our ranks and plunder our country. In this struggle every citizen has an honest and honorable right to contest for leadership, but no man has a right to intervene his ambition if it imperiis the cause he pretends to uphold. The National committeeman of the American

The National committeeman of the American silver organization has signed and issued a call for popular conventions in the several Senatorial districts to be held June 15, 1896, to elect delegates to our National Convention, and it is the duty of every loyal American who wants an American system of government in all respects free from foreign control to see that delegates are elected who are American in sentiment and cwe a paramount allegiance to

all respects free from foreign control to see that delegates are elected who are American in sentiment and cwe a paramount allegiance to the best interests of our country.

In the coming campaign the Democracy of the Nation may be all right on the free coinage issue, but it is certain that the Democratic party of California will be all wrong on the American question, while the Republican party at large will disgracefully straddle both questions.

The duty of the hour urges every patriotic citizen to arouse his neighbors and organize an American party, determined that our country shall not suffer depredations from any organized aristocracy on earth. The American Bimetallic party has called county and district conventions for the purpose of organization, but to unify and solidify our forces the Senatorial district conventions must not be neglected. The enemy is watching every opportunity to divide us. His spy and confederate aspires to lead us, and resorts to every device to blind the eyes of the people and defeat us; while millions of impoverished debtors are watting, anxiously waiting, for the dawn of the day that shall bring the financial independence of our country.

In the gold-standard camp we hear the seductive cry of "protection," but there is no protection when foreign hordes of pauper laborers invade cur land to drive the American workman from employment and endanger our free institutions by their fatal influence. We

forkman from employment and endanger ou ree institutions by their fatal influence. We beseech you, our countrymen, awake to the situation, sound the tocsin of alarm, proclaim your independence, and

Let traitors be told who their country have sold,
And bartered their God for his image in gold;
That the sons of America shall never be slaves,
"While the earth grows a tree or the searoll its
waves."

Execut Propus Cheirman ENOCH PEPPER, Chairman.

It was distributed yesterday simultaneously from Los Angeles by Chairman Pepper, and from this City by Executive Secretary Alva Udel!.

Judge Slack Decides That Trustees of the French Hospital Have Power to Appoint Employes. A decision was rendered Monday in

the French Hospital litigation, mention of which has already been made in these columns. The by-laws of the organization provide that the visiting physician shall be elected by a vote of the members. Last April, in accordance with this provision, G. Gross was elected to the office by a majority vote of the members. Sylvain Weill, president of the board of directors, refused to recognize the election and the plaintiff sued for a writ of mandate to plaintiff sued for a compel him to do so.

The decision rendered yesterday by Judge Slack gives judgment for the defendants and establishes the right of the fendants and establishes the right of the directors to elect the visiting physician and other employes in spite of the provision of the by-laws to the contrary. "The by-law of the society," says Judge Slack in his decision, "which purports to take away this power from the directors, as to the attending physician, and to provide for his selection by the members of the society, is, therefore, in contravention of the code. For these reasons the demurrer to the affidavit must be sustained and judgment given for the defendants.

and judgment given for the defendants.

AMERICAN SILVER.

Senator McGowan On What Will Be Done by the Republicans.

WON'T BE ANY SPLIT

The Senator's Big Congressional District and His Coming Campaign.

WOULD WORK FOR THE CANAL.

Something Must Be Done, He Says, for the Lumber Interests Now Languishing.

Senator Frank McGowan of Humboldt County was among the arrivals here yesterday, and is at the Lick.

The Senator, who has had a legislative experience of ten years-two in the Assembly and eight in the Senate-is a can-didate for Congress in the First District. This district, as is generally known, comprises fourteen counties, running north to the State line, beginning with Marin County.

He was asked last night what would be the result of the platform work at St. Louis, and in brief what, as he read the signs, would be done there. He had received some information which, he thought, was reliable.
"It looks to me as though Mr. McKinley

would be nominated, and probably on the first ballot," he said. "A good many have found fault with him because he has not expressed himself on silver, but he can't

"He knows that whatever he would say he would have to stand on the platform that would be adopted anyway. | So there is no need of expressing himself. It might injure him, and he doesn't want to do that, of course.

"I think, however, the silver business will be fixed up so that everybody will be pretty well satisfied. I believe they will adopt a plank at St. Louis which will make free coinage for all American silver. If this is done there won't be any deffection from the party.'

Mr. McGowan spoke about his Congressional candidacy. He alluded to the fact that there were three other aspirants-Mr. Barhams of Santa Rosa, the incumbent; Mr. Spencer of Lassen and Mr. Matlock. He said that in times past, during successive campaigns, he had traveled all over the district "I think I know something of the needs

of the people," said he, "and that is one reason why my name has been allowed to be used in connection for the place. I feel that our lumber interests deserve more consideration in Congress. We need the Nicaragua canal. It is of vital importance not only to the people of this great discoast. "Then the general subject of transporta-

tion should receive more attention. There are many other interests that an active man in Congress could interest himself in that would be of great importance to Northern California.

Mr. McGowan is a native of Washington. He has lived in Humboldt twentythree years. He will be in the City till Saturday.

THE CHAIN BEING WELDED

Preliminary Examination of Wesley T. Lewis for Criminal Assault.

Direct Testimony as to How He Lured

Florence Ready Away From

Her School.

The preliminary examination of Wesley T. Lewis, charged with criminal assault upon Florence Ready, daughter of Mrs. Ready, 330 Hickory avenue, was com-

menced before Judge Conlan yesterday morning. Prosecuting Attorney Mogan conducted the prosecution and Attorney J. N. E.

first witness was Jeffery Powers, a Mission livery-stable keeper. He testified to hiring a horse and buggy to Lewis on the afternoon of May 25, the date of the assault. Lewis represented himself as a collector for J. J. Rauer, and promised to return the rig at 7:30 p. m. He did not keep his promise, and the following day witness found the horse and buggy at the

Ingleside stables.

Mrs. Deal and Miss Kate Crowley, teachers at the evening school, identified Lewis as the man who called at the school Monday evening, May 25, about 7 o'clock, and asked that the girl be excused, as Mrs.

and asked that the girl be excused, as Mrs. Captain Goodall was seriously ill and had sent for her. Lewis and the girl left the schoolroom together.

Kate Murphy, one of the pupils, accompanied Florence Ready to the school that evening, and when they got to the door they were met by Lewis, who told Florence about Mrs. Goodall's illness. Florence asked him to go with her to Mrs. Deal that she might be excused, and witness saw them enter the schoolhouse to ness saw them enter the schoolhouse to-

william Beasley, another pupil, saw Lewis and Florence leave the school. He also saw Lewis help the girl into a buggy and drive away aong Stevenson street.

Mrs. Ready, the girl's mother, testified that Lewis called at her house with the story of Mrs. Goodall's illness and she told him that Florence had just left for school. He said he would go and get her and return with her to the house before starting for Mrs. Goodall's.

This closed the evidence for the day and the further hearing was continued till today. Detective Cody, who has charge of the case, has other witnesses to produce who will complete the links of the chain.

Valley Road Assessment.

At the meeting of the board of directors of the San Joaquin Railway Company yesterday the call for the eighth assessment for 10 per cent of the capital stock was authorized. It will become delinquent on July 11, and de-linquent stock will be sold on July 30.
