

BATTLESHIP ALABAMA STARTS ON HER BUILDERS' TRIAL TRIP

Contractors Confident That the New Fighting Craft Will Come Up to the Requirements of the Specifications.

PHILADELPHIA, Aug. 28.—The United States battleship Alabama started on her builders' trip at 2:30 o'clock this morning. She went as far as Delaware breakwater to-night and will pass out to sea to-morrow morning, when the regular speed test will begin. The new

THE NEW ALABAMA AND HER PREDECESSORS.

Alabama is not a new name in the American naval register. In 1818 the keel was laid for a line-of-battle ship in the Portsmouth Navy Yard. After a time work was suspended, and only resumed in a desultory manner as the years went by. She was christened Alabama and was a sister ship to the first Alabama, which was built at the Boston yard in 1812. The Alabama was launched in 1819, and the work of the builders was rushed, so that the craft was completed and went into commission early in 1824. She never saw any active service, as when she was ready for sea the day of the sailing vessel had long passed by. She is at present in use by the New York Naval Reserve, and entered upon the register as "unservicable." The most famous of the vessels bearing that name was the Confederate cruiser Alabama, which was sunk off Cherbourg, France, in July, 1864, by the U. S. S. Kearsarge, in command of Captain Winslow. After an action of thirty minutes the Kearsarge was nearing completion at the Newport Navy yard, and at no distant day the Alabama and the Kearsarge may be seen in one fleet, both flying the stars and stripes and ready to engage a common foe.

the high-sounding promises of good government. Information concerning the recent losses of the enemy is purely hearsay, obtained from frightened natives. The desire of the natives for American rule officially reported is not borne out by facts. The Mayor of Balinau, who is supposed to be a great friend of Americans, is now in prison for deliberately leading an insurgent attack on Balinau. The Mayor of San Pedro Macate is also in prison for raising money and soldiers for the insurgents. We must show sufficient demonstration in force to quickly and effectively check the whole people or ourselves give in. No half way measures will be successful.

NATIVE CHIEFTAIN DEFEATS INSURGENTS LATEST CASUALTIES IN THE PHILIPPINES

MANILA, Aug. 28.—7:23 p. m.—A report received here from Cebu says that Datu Mundi and his tribesmen have taken the warpath against the insurgents at Zamboanga and have given them a warm battle. Mundi welcomed General Bates, saying he was anxious to become an American citizen, and asked permission to fight the insurgents. He was given an American flag. General Bates will return to the Sulu archipelago to arrange for establishing American garrisons there. WASHINGTON, Aug. 28.—The following dispatch has been received at the War Department from General Otis under date of August 26:

MANILA, Aug. 26.—Adjutant General, Washington: Datu Mundi attacked and defeated the insurgents at Zamboanga, killing thirty on this date. He visited General Bates at Jolo to give adhesion to the United States. Bates returned him to a small island near Zamboanga, when he requested permission to drive out the insurgents, but that troops would be sent to Zamboanga soon. The insurgents there offered several weeks ago to turn over the city on promise of surrender in case Aguinaldo is successful in Luzon. The proposition was declined. Datu Mundi is an able man, educated abroad, and thoroughly loyal to American interests. Bates leaves on the 26th to place troops in the Sulu Islands, and will soon place troops in Zamboanga and Isabela, the principal stations in Basilan Island.

OTIS.

INCENDIARY FIRE IN SAN RAFAEL

Business Portion of City Threatened by the Burning of an Empty House.

SAN RAFAEL, Aug. 28.—The entire business portion of the town narrowly escaped destruction by fire to-night. Shortly before midnight the residents in the heart of the city were startled by two heavy explosions and rushed to their doors in time to hear the first taps from the fire bells.

The explosions occurred in the upper story of the cottage at C street and Fifth avenue, owned by William Zanning, Thomas Kerrigan and William McElroy, who happened to be in the vicinity, rushed to the nearest engine house and hauled out a hose wagon. Before they could get a stream to bear on the house flames were showing from the windows and roof of the building. The doors and windows were locked and the fire was fought from the roof. When the doors were finally forced the firemen were unable to enter the building on account of the overpowering odor of coal oil. After an hour's hard work the fire was finally got under control.

Zanning and his family occupy the house immediately adjoining the burned cottage, but at the time of the fire Zanning was not to be found, and his wife said she did not know where he was. The fire started in the most thickly settled portion of the city, and had it gained headway, the whole business section would have been swept away. The burned building was unoccupied and is said to have been heavily insured.

Zanning is the man who was a short time ago sentenced to pay a fine of \$250 and serve 120 days in the county jail for pulling his horse's tongue out by the roots.

Alabama is one of the three first-class battleships authorized by Congress on June 10, 1896. The other two are the Illinois, building at Newport News, and the Wisconsin, at the Union Iron Works, at San Francisco.

The Alabama will be the first of the three to go into commission. The contract requires a speed of sixteen knots. The contract price of hull and machinery is \$2,650,000. This is exclusive of armament and other new features of equipment to be added by the Government at Washington.

The contractors are confident the new vessel will meet every requirement as to speed, seaworthiness, etc., specified in the contract.

According to experts the armor of the Alabama is the most complete ever put upon a battleship. It is of Harveyized nickel steel. The side armor is 16½ inches thick at the top of the belt, and tapers to 9½ inches at the bottom. In the turret the port-hole plates are 17 inches thick, and other plates 15 inches. The protective deck rises from the lower inside edge of the water-line belt upward and inside to a level with the top of the belt, and forms an armored flat, the slope being 4 inches aft, 3 inches forward and on the flat 2½ inches thick.

Another novelty on the Alabama is the placing of her two smokestacks abreast of each other instead of along the axis of the vessel. In some respects the Alabama resembles the Iowa, though the new battleship is eight feet longer and several inches narrower than her predecessor.

APACHES ON THE WAMPATH IN ARIZONA

Outbreak of Hostilities With the Zunis Momentarily Expected.

BITTER TRIBAL FEUD

Braves Swear to Wreak Terrible Vengeance for the Murder of Four of Their Tribe.

Special Dispatch to The Call.

JEROME, Ariz., Aug. 28.—Jerome was thrown into a fever of excitement to-day by a band of Apaches in war paint passing through the town. Leaders of the tribe stopped and purchased a large supply of ammunition and hastily left in the wake of their fast-disappearing comrades. Additional interest was lent to the occurrence by the presence of only "bucks" in the band.

A reporter of the Associated Press secured a horse and overtook the Indians a few miles from Jerome, and after considerable persuasion was permitted to accompany them on the journey of twenty miles over the roughest imaginable country. When the vicinity of Red Rock was reached the pace of the horses was quickened and an impatient notice was given to the Indians not to stop before. In a canyon with perpendicular walls rising to a height of hundreds of feet were the remains of a campfire and near by a wigwag in front of the wigwag was the body of a squaw and a papoose, while a few rods in front was a buck. All three had been horribly mutilated and scalped.

The band and feet were cut off. The Indians formed a circle and on the dismembered bodies swore to wreak vengeance. The name of the Zunis occurred. The bodies were buried near the scene of the crime and the band took the trail to the north. The Zunis are the most intelligent of the band, and who speaks excellent English, was delegated to accompany the reporter to the bounds of civilization and of him something of the affair was learned.

The Zunis are a New Mexico tribe, while the Apaches are Arizona. The Zunis have existed for years between the tribes, but a truce has put an end to hostilities for some time.

The three murdered Indians had left their reservation near Camp Verde and were surprised by a band of Zunis. The Apaches took their trail in the direction of New Mexico, and old settlers fear that the Zunis will follow and end in the extermination of the Apaches. There are no soldiers within reach, and settlers are not disposed to interfere in the outbreak.

SEARCHING FOR THE DERELICT

Unsuccessful Voyage of the Willapa.

Special Dispatch to The Call.

VICTORIA, B. C., Aug. 28.—The mystery of the derelict barkentine which is reported to have played tag with the reefs off Claydon three weeks ago is still unsolved. Indeed it grows more mysterious. The steamer Willapa, which went as far as the north end of Vancouver Island to search for her, has returned, and neither saw nor heard anything further of the derelict. The Willapa was on the coast of the island, but saw nothing of the vessel, the Willapa saw campfires along the beach—fires which were without avail. If any ship, temporary homes of a shipwrecked crew, they were over forty miles from any habitation and on a seldom visited part of the coast.

To see if there was any sign of life, the steamer bore well inshore and the officers scanned the beach with their glasses, but without avail. If any shipwrecked mariners had been there they were not then visible, and it was too rough for landing to be made to investigate further.

Another story which is coupled with the mystery is that told by Captain A. L. Hammett, the schooner, which has returned from Unalaska. He tells of sighting a derelict—it may be the same one—on the coast of Alaska. In latitude 49 degrees and 55 minutes north, longitude 136 degrees and 46 minutes west, about 350 miles from the north end of Vancouver Island, he saw a three-masted barkentine, square rigged. The lower part of the mainmast was standing, on which the flag was flying. The vessel was broken and a great deal of the planking gone, showing the vessel's ribs. She was drifting to the southward. Another search will be made for the wandering vessel.

INTERESTS THE COAST.

Klondike Claims to Be Presented, Pensions Granted, Army Changes.

WASHINGTON, Aug. 28.—Ex-Representative Lewis of Washington has secured from State Department officials credit for the Klondike claims of the Klondike before Great Britain. These claims represent about \$15,000,000 and a great many Californians are involved in the claims. Mr. Lewis will sail to-morrow.

Army orders. By direction of the Secretary of War, Major General, Inspector general, upon completion of the duty assigned by the commanding general, Department of California, will proceed to the Philippine Islands.

Acting Assistant Surgeon Thomas Earle Evans is relieved from duty at Fort Brooke and will proceed to report to the commanding officer, Troop G, Sixth Cavalry, for duty to accompany them to San Francisco.

Private Joseph G. Murray, Troop A, Third Cavalry, now in confinement in the Philippine Islands, as Joseph G. Alsup, is restored to duty without trial on condition that he make good time lost by absence, and transferred to the Eighteenth Infantry to serve the remainder of the original enlistment. Recruit Charles L. Dulin, Sixth Infantry, casual detachment, Presidio, San Francisco, is discharged from the service of the United States.

Pensions have been granted as follows: California: Original—Grattan E. Poage, Soldiers' Home, Los Angeles; \$8; Edward J. Smith, \$10; San Francisco: Original—Francis L. Owens, Lockeford, \$8. Original widows, etc.—Minor of Donald E. Byland, Woodburn, \$10.

RUSSIANS REFRAIN FROM FURTHER INTERFERENCE

Party of Blue Jackets Landed From the Woodlark Is Withdrawn.

SHANGHAI, Aug. 28.—Advices received to-day from Hankow, on the Yangtze River, show that the Russians, who had attempted to eject workmen employed by the British concern of Jardine, Matheson & Co. from property which they had been instructed to fence in, and who were checked by the prompt action of the British Consul and the captain of the British gunboat Woodlark, have refrained from further interference and the party of blue jackets that was landed from the Woodlark to guard the property has been withdrawn.

New Principal Elected. FRESNO, Aug. 28.—The City Board of Education to-night elected Osmer Abbott late of Hawaii principal of Fresno High School.

Mail The Call's great Souvenir Edition to your friends.

FRENCH OFFICERS DECLARED OUTLAWS.

Captain Voulet and Lieutenant Chanoiné, French army officers, are accused of having killed Lieutenant Colonel Klobb and Lieutenant Meunier. The former two officers were in command of a mission in the Sudan, and reports came to France of terrible cruelties being perpetrated upon the natives. Lieutenant Colonel Klobb and Lieutenant Meunier were sent to investigate. As they approached the mission they were ordered to halt by Captain Voulet. The officers made known their identity and proceeded toward the mission. Immediately Captain Voulet and Lieutenant Chanoiné gave the order to fire to their squad of men, with the result that Lieutenant Colonel Klobb and Lieutenant Meunier were killed.

McLEAN IS NOW THE SCENE OF THE RULINGS AS TO RAILWAY RATES

Ohio Democratic Clans Decision of Commerce Commission.

Special Dispatch to The Call.

ZANESVILLE, Ohio, Aug. 28.—The Democratic State Convention was inaugurated to-day by the arrival of John R. McLean this afternoon and Colonel James R. Kilbourne to-night and all the other candidates for Governor and other places on the State ticket. While the attendance is unusually large there are not many delegates present. They will come to-morrow with the visiting clubs. The preliminary meetings do not occur until 4 p. m. to-morrow and the convention does not convene till Wednesday. There are probably no changes to-day in the figures. The arrival of McLean has made his friends more enthusiastic and the arrival of Kilbourne has made some of his friends more desperate. The other candidates for Governor are not doing much except shaking hands, with the exception of Sherwood, who seems to be in line for second place. The McLean men are so confident of not less than seventy-six more than is necessary on the first ballot that they are figuring on their running mates. The McLean men are so confident of not less than seventy-six more than is necessary on the first ballot that they are figuring on their running mates.

FAMILY FEUD.

LOUISVILLE, Aug. 28.—A special to the Times from London, Ky., says:

News has been received here confirming a report that a pitched battle took place Saturday between James Hayes and his three sons on one side and Senator William Clarke and Sherman Leadford on the other. The battle was fought in the streets of Louisville. Clarke received three pistol wounds and his condition is critical. Hayes received a wound in the breast and will die. Bitter feeling of long standing between the two families, which are the most wealthy in Jackson County, caused the shooting.

Guatemala at Peace.

Special Cable to The Call and the New York Herald. Guatemala, 1899, by James G. Bennett.

PANAMA, Aug. 28.—The rumors of disturbances between Guatemala and Salvador are without foundation, both countries being peaceful. An export duty of \$30 a head has been imposed on cattle, and wheat and corn admitted free of duty during the month of October.

GIGANTIC TRUST OF SALMON PACKERS

Agents Are Endeavoring to Secure Control of Puget Sound and Alaska Canneries.

ASTORIA, Aug. 28.—When the leading salmon packers of the Columbia River formed a combination some months ago it was stated that the ultimate object of the promoters was the creation of a gigantic trust which should control all the fisheries of Oregon and which should in turn be combined with other trusts that are endeavoring to secure control of the fishing interests of Puget Sound, Frazer River and Alaska. Recent movements show that that prediction was well founded.

T. B. McGovern, who was one of the leading spirits in the Astoria combine, is now on the Frazer River endeavoring to form a new combination and buy up all the canneries in that locality. On Saturday a deal was closed in this city whereby the two canneries on the Nehalem River were sold to Samuel Elmore, chairman of the executive committee of the combine. It is understood that one of them was forced to sell because no arrangements could be made for shipping in supplies. The strenuous efforts that are being made on the Sound to unite all the canning interests under one head are shown from the remark made by an independent cannery man from there who was in the city a few days ago. He said that a year or so ago he put up a cannery at a very small cost and that the combine was so anxious to get him out of the field that he could sell his plant any time before the next season opens for \$150,000.

Should the promoters of this monster trust be successful the effect on the fishing industry will be ruinous. They will, if the deal goes through, control the entire salmon output of the world with the exception of the small packers of the Sacramento River. This will make it possible for them to control prices in home and foreign markets, while they will also be entitled to dictate the price of raw material. It may be found necessary to get the cold storages into the combine, and as the proposed trust is backed by millions this would be possible.

The capital stock of the Astoria combine is \$2,000,000, while the capital stock of such a trust as is thought to be in process of formation would be perhaps \$15,000,000 or \$20,000,000. Should the deal carry, fishermen of whom there are 4000 in Astoria, may be forced to work for \$2 a day, where now, when fish are plentiful, they make from \$10 to \$100 a day. Fortunately the combine cannot secure control of the Columbia River, and should the trust become a reality its existence will be one continual fight to suppress other concerns.

Died of the Plague.

OPORTO, Aug. 28.—Two more deaths from the bubonic plague have been reported to-day.

Mail The Call's great Souvenir Edition to your friends.

ly escaped a violent death at Elvaton, the shipping station of the Yolo Orchard Company, this afternoon. The south bound Reading passenger train, running through the station, the front steps of the smoking car and the first passenger coach struck a pile of sacks which had been left too near the track. Pena was seated on the steps of the smoking car and was hurled through the air. The train stopped and he was picked up. A physician on the train examined him and expressed the opinion that a sprain of the wrist is his most serious injury. His escape from a violent death is regarded as but little short of miraculous.

DO YOU FEEL

Careworn

Weary

Nervous

Languid

Tired?

Such is the feeling of those who are on the verge of Nervous Prostration. Such a feeling indicates Nerve Weakness or Nervous Exhaustion. Loss of appetite, sleeplessness, irritability, these are other indications of impending danger. Hudyen will save you; Hudyen will restore you to perfect health.

Have you headaches (Fig. 1); hollow eyes or dark circles under eyes (Fig. 2); a pale or emaciated face (Fig. 3); a raw tongue (Fig. 4); a rapid pulse (Fig. 5); impaired digestion (Fig. 6)? If so take Hudyen, by all means. Hudyen will restore you to the glow of health. Hudyen will relieve you of all the above symptoms. Hudyen will make you strong, cheerful, a good digestion—all these things to you if your nerves are strong. Hudyen strengthens the nerves and gives you energy.

Hudyen creates rosy cheeks and bright eyes. Hudyen is for men and women. It is a safe, reliable, and pleasant remedy. Hudyen possesses peculiar curative powers that belong to no other remedy. Hudyen is for sale by druggists—50c a package or six packages for \$2.50. If your druggist does not keep Hudyen, send direct to Hudyen Remedy Co.,

Cor. Stockton, Ellis and Market Sts., SAN FRANCISCO, CAL.
