Big Mortgage Recorded. OAKLAKD, Feb. 2.—A big mortgage was recorded to-day, whereby the Bacon Land as Loan Company mortgages property at the northeast corner of Washington and Eleventh streets to the Oakland Bank of Savings for a \$10,000 loan. The company has been carrying considerable unimproved property and there had been a \$70,000 mortgage on this property heretofore. It was to pay off this and some other debts of the company that the mortgage was increased \$40,000.

ANARCHIST AVOIDS SERVICE ON JURY

He was ubpenaed in Justice Edgar's court this subpensed in Justice Edgar's court this morning to serve as a juror in the case of the People vs. Thomas G. Gibney, charged with malicious mischief. As usual the Justice administered the oath as to the ability of the prospective juror to serve in the case, ending with the familiar exhortation, "So help you God."

"All but the "God," answered Parsons with emphasis.

"What is that?" asked the astonished Judge.

"What is that?" asked the astonished Judge.
"All but the 'God,'" repeated Parsons. And then followed the startling an-nouncement: "Your Honor, I'm an an-archist and would not convict any person whatever."

Parsons was abruptly dismissed.

Want Railroad Extension. Imbued with the success attending the extension of the Twenty-fourth street trolley line to Rhode Island street, the Nuevo Potrero Improvement Club, through its attorney, C. F. Kimball, will seek further extension for the benefit of the hundreds of laboring men who are employed in the Union Iron Works, sugar refinery and other branches of industry on the south shore of the bay. The club will petition for a cross line direct over the Potrero hills on the line of Twenty-fourth street to Kentucky. As it now is they have to go the roundabout way of Bryant street to Sixteenth and then around the sloping hillside to Kentucky street. In addition to this a further accommodation will be asked on the Twenty-fourth street line to Mission street in stead of the present way into the business portion of the city by Folsom street, where transfers must be had to either Eighth or Fourth streets. rolley line to Rhode Island street, the

Oakland Office San Francisco Call. 908 Broadway, Feb. 2. The cause of the change was the cramped quarters just vacated. the city of Oakland. This estimate is based upon a requirement of 11,000,000 gallons of water every twenty-four hours,

would cost about \$1000 each. Whether such a large number of wells contiguous to each other would affect the flow in the aggregate is a question which the City Engineer does not undertake to determine.

The two wells from which the most water was produced at the recent test were down to a depth of 506 and 300 feet respectively, and they pierce the same sand stratum.

The report was submitted to the Board of Public Works, and will be sent to the Council next Monday night.

DRUNKEN DRIVER NEARLY KILLS A SMALL BOY

OAKLAND, Feb. 2.—Pedestrians on Fourteenth street were horror-struck this evening to see a frenzied horse galloping along the street with a small boy apparently impaled upon one of the shafts of the buggy to which the animal was attached. The boy was dragged along over a hundred feet before the horse could be stopped, and an excited mob vociferously demanded that W. C. Thompson, the driver, be lynched. Everybody expected to find the lad dead when he was released from his frightful predicament, but his escape had been miraculous and he was all right, beyond a few slight bruises and a badly torn coat. Thompson, who is a nurseryman, was afrunk and was lashing his horse to the top of his speed along the street. The boy, who lives at 727 Twenty-sixth street, was riding east on a bicycle when he was run down by the maddened animal. The shaft penetrated his coat and just grazed his skin on the left side.

Thompson was booked on a charge of fast driving.

By request of the Grand Jury Assistant
United States Attorney Woodworth drew
up the following questions which were
presented to Judge de Haven this after-

First—Have we the power to find an indictment against one who is a captain or an officer of the transport service of the Government for offenses alleged to have been committed on the high seas upon a coalpasser, to-wit, infliction of cruel and unusual punishment and assault with a dangerous weapon while the transport was proceeding under special orders to the Philippine Islands with a regiment of soldiers, it appearing that the transport is owned by the United States that the captain, officers and crew are hired and paid by the United States and are directly under its orders, or is the subject one which should properly be tried before a courtmartial?

Second—Is a coalpasser who is hired and paid by the United States to perform work on board a transport owned by the United States, and who, while discharging his duties as such upon the transport of the high seas and while said transport is actually engaged in conveying, under special orders, troops to the seat of war, assaults an officer of said transport, amenable to the jurisdiction of the United States courts or of a courtmartial? They gave assurance that they will not employ any but union hands.

"The Decadence of Nations" was the subject of a lecture delivered last night subject of a lecture delivered last night at the Temple Emanu-El. The speaker took the broad view that as every nation had a beginning it must also have an end. This is proved by the fact that the nations of antiquity have all passed away and the nations of to-day are all of comparatively modern origin, particularly the greatest two, the Anglo-Saxon and the Teutonic. All of the old nations decayed, said the speaker, because of the corruption of their political institutions. He contended that there is grave danger of the great nations of to-day falling into the same degrading conditions.
